HICK'S FORECAST FOR OCTOBER. -- Octtober came in with the last stages of a regular storm period disappearing to eastern state superintendent of public instruction extremes and colder. The first storm N. C. Schaeffer, in a proclamation issued period was central on the 4th and 5th. Fluctuations of the barometer, rising temperature, cloudines and spits of rain were probable at this time, but the disturbances were short lived. Such conditions will

lead up to the storm period next following. Second storm period extends from the 8th to the 13th, having its center on the 11th. The storms and other perturbations w of this period will be more general and en- insular possessions. And yet it is estiergetic. At the very beginning of the period look for much warmer, with easterly to southerly winds and falling barometer. Autumnal storminess and rains will probably begin in western sections early as the 8th. Thunder storms will most likely appear during the first stages of the disturbances, especially along the southern side of the storm centers. The period promises to be prolonged for several days, unless sharp electric storms on and about the 8th, are followed by sudden high barometer and cold northern winds. In such event, another distinct storm perturbation will of trees be discussed, and above all let develop and pass over the country from the 11th to the 14th.

The third storm period is central on the 16th, 17th, and 18th. The earth at this time will pass directly through the path of the solar energy that plies between the sun and Jupiter, hence unusual atmospheric instability, with magnetic and electrical perturbation, will prevail. Rapid rising and falling of the barometer will cause corresponding storminess and changes of temperature. Seismic shakes Bellefonte hatchery he has reserved 50,000 will be natural at this time and other fry for breeding purposes next year, 75,periods in this part of the month. De- 000 have been reserved at the Corry station cided change to cooler, with frosty and 50,000 have been sent to the Wayne nights to the northward, will follow this county hatchery making a total of 175,000

this time. Low barometer and rapid change may be expected in all western sections as early as the 21st. Rain, with probable thunder storms, will quickly follow, and during the 22ad and 23rd and 24th a from west to east. These disturbances will culminate on and touching the 24th, many parts of the globe not far from the 24th. These perturbations will wind up with an October cold wave bringing heavy frosts to most parts of the country for several nights following the storms.

Fifth storm period is central on the 27th and 28th. Some energetic storms, especially on and about the lakes and north Atlantic, will appear at this time. Rain will turn to sleet and snow northward, although the moon at extreme position north will tend to prevent or delay high barometer and

McCLINTICK-MCAULAY .- A very pretty wedding took place in the M. E. church at Lamar, on Thursday, Sept. 29th, 1904, at 10 o'clock a m., the contracting parties being Mr. Harry McAulay, of Hublersburg, and Miss Grace McClintick, of Lamar. Miss Lillie Bucher, of Altoona, and Miss Olive Pifer, of Howard, acted as bridesmaids and Messrs. Bergstresser and Pifer as best men. Miss Kate Dornblaser played the organ and the Misses Dornblaser sang the wedding march. Rev. Mr. Reeser officiated at the ceremony.

The church was very beautifully decorated by Miss McClintick's Sunday school class. After the wedding a delicious dinner was served at the home of the bride's parents, Mr. and Mrs. A. J. McClintick. The bride is a charming girl, has many friends and is well fitted to take up the duties of housekeeping. The groom is an industrious and reliable young gentleman with hosts of friends who wish him well in present time. The following articles are his matrimonial venture.

PILLSBURY-EDMISTON .- At high noon, Thursday of last week, Mr. Ross S. Pillsbury, of Memphis, Tenn., and Miss Rachel N. Edmiston, of State College, were married at the home of the bride's mother, Mrs. Martha Edmiston. The ceremony was performed by the Rev. E. R. Heckman. The bridal couple were attended by Mr. H. C. Beck and Miss Bertha Bowes. while Mrs. E. R. Heckman played the wedding march. Immediately after the ceremony Mr. and Mrs. Pillsbury departed on the afternoon train for their future home in Memphis, Tenn.

WEBER-DAVIS .- Samuel E. Weber and Miss L. Gertrude Davis were quietly married Saturday morning at 10:30 o'clock by Rev. Lewis Robb, pastor of the Altoona Trinity Reformed church. The ceremony took place at the home of the bride's sister, 1823 Eleventh avenue, that city. They immediately left for Centre Hall. Mr. Weber is a graduate of State College and is at present a special apprentice in the railroad shops, at Altoona, where the young couple will make there future home.

HERR-MILLER .- Mr. George W. Herr, the well-known merchant of Salona, and Mrs. Lola Miller, formerly of Renovo, but late of Salona, were quietly married in Lock Haven, on Wednesday, by Rev. H. R. Bendor, pastor of the Trinity M. E. church. Their matrimouial embarkation was quite a surprise to the friends of the happy couple. Mr. and Mrs. Herr are off on a wedding trip to Buffalo and Niagara

Falls. .ngo.i or comore The right man, if he wants to farm for wages, can find a good opportunity by spend a week with friends in Alexandria. referring to the advertising columns of this

ARBOR DAY.-Friday, October 21st, has been designated as Autumn Arbor day and on the subject, says in part :

"The State of Pennsylvania now owns 632,937 acres of land which have been set apart for the growth of trees. This area is more than that of Lancaster county (927 square nilec,) the richest agricultural county in the United States. There are five hundred million acres of growing forests in the United States outside of our mated that the annual consumption of wood is twice as great as its growth. The fact shows the importance of forestry as a national industry. It is second only to agriculture.

"Friday, October 21st, 1904, is designated as Autumn Arbor day with the request that suitable exercises be arranged for that day. Let the schools discuss the event which transpired under trees like the Charter Oak, the Liberty Elm, the William Penn tree and others which have become famous in history. Let the economic value trees be planted upon the school grounds, around the homes and along the highways so that the day may be profitable from the economic point of view as well as valuable for educational purposes."

WHY TROUT SHOULD BE PLENTY-Fish Commissioner W. E. Meehan is making plans for a more ample stocking of all the streams of the State with brook trout. In a recent statement he said that at the fry. This number is more than seven The fourth storm period runs from the times the number of matured breeders now 20th to the 25th, central on the 22nd. It in the Belleforte and Corry stations and is probable that some of the most marked | those at Bellefonte are more than double disturbances of the month will occur at the entire stock of breeders which were reserved in any two hatcheries in previous years. Every female in the number reserved will produce about 300 eggs.

There will not be many more fry for distribution next spring, however, than series of storms will pass over the country | there was last-about 6,000,000-owing to fair. the fact that this year's stock of breeders is too small, but after next year, if the with high barometer, gales from the west Commissioner's plans materialize, there and north and change to much colder. will be abundant fry every spring to fully Earthquake disturbances will be felt in stock all the good trout streams in the

> BIG COAL DEAL -J. Edward Horn & Co. recently purchased all the coal lands of J. F. Stott, a short distance east of Philipsburg, starting at the Moshannon creek, near Loch Lohmond, and running back across the Bellefonte pike and the Half-moon road, embracing 766 acres. Part of this land is known as the Ophir property, which has been in successful operation for some time by J. F. Stott & load. Next. erty, only one of which is in operation, but the other four will be put into shape without delay for shipping coal, and as soon as the railroad extension up the One Mile creek can be completed, five other first-class mines will be opened, making ten mines this new firm expects to operate on the tract in question. The seams are known as "A" and "B," and are of a very fine quality, the latter vein being of unusually choice grade. Coal will all go out over the New York Central railroad.

DONATIONS FOR THE HOSPITAL ASKED. -No public appeal has been made recently for donations for the hospital and a number of things are much needed. A response to this appeal of the lady managers it is hoped will come from all parts of the county as the hospital belongs to the county and not Bellefonte alone and any help, however little, is much appreciated at the

Mrs. Geo. L. Doran, of Burnt Cabin, Pa., and Mrs. Anna Buckley, of Crook, Cal., are here visiting relatives and friends. The former is the mother and the latter the sister of Mrs. G. W. McIlway.

J. D. Long after a retirement of a few years has again entered into the coal business. His yard is very conveniently fitted up with new and greatly improved bins, new planking throughout, and heavily

stocked with coal. The quidnunc here were wonderfully excited a short time since, by the report of a wedding of some note to take place in our village at no very distant day. They were continually on the qui vive to discover who the parties positively were, and of course gossip ran high. Last week the engagement was announced in the newspapers, and now these anxious and curious people, like Othello, find their occupation gone. Possibly this coming interesting event explains the reason why the clock at the R. R. station of late

rarely indicated correct time.

Lemont.
