RECORD BREAKING RUNS AT THE NIT-TANY FURNACE.-Aside from the selfish business interest we all take in the resumption at the Nittany furnace there is another feature of its new run that is attracting the attention of those acquainted with the possibilities of blast furnaces. We refer to the

immensity of its daily output. The furnace produced, in September, 3,378 tons of pig iron, which is 197 tons more than was ever produced in one month since the furnace was built.

The best daily average output for one month, heretofore, was 102 6-10 tons. The daily average during September was 112 6-10 tons, or ten tons more than ever before.

The best previous output for a single day's run was 116 tons. This was surpassed ten times during September, by the following records : Sept. 6th, 117 tons; Sept. 13th, 120 tons; Sept. 17th, 121 tons; Sept. 19th, 120 tons; Sept. 21st, 123 tons; Sept. 23rd, 122 tons; Sept. 24th, 119 tons: Sept. 25th, 126 tons; Sept. 26th, 120 tons; Sept. 30th, 121 tons.

While iron making is their business and part of their business is to get all the good iron possible out of a furnace every twenty-four hours we cannot refrain from expression of our opinion that president Noah H. Swavne II and master furnaceman George Grimm, with all hands, are demonstrating by this record-breaking run, that they must have an exceptional knowledge of the business.

A BAD ACCIDENT .- A very bad accident occurred on High street between the WATCHMAN office and the Bush house Monday morning by which Linn McGinlev. Jr., the seven-year-old son of Mr. and Mrs. Linn McGinley, of Thomas street, sustained serious injury, and it was a miracle he was not killed outright. Snyder Tate was driving down the street with his ice wagon. On the High street bridge Linn McGinley, just on his way home from school, jumped on the rear end of the wagon and in some way missed his hold. He fell between one of the rear wheels and the bed of the wagon and in that position was carried several rods before the driver heard his screams and stopped the horses. Men ran to the boy's assistance, but he was so tightly wedged between the wheel and the wagon bed that the wheel had to be loosencould be extricated from his dangerous position. He was at once carried to the home of his parents and physicians summoned. An examination revealed a compound fracture of the right leg bone near the thigh, and miraculous as it may seem, with the

exception of a few slight cuts and bruises, no other injury was found. The limb was set and the boy fixed up in good shape and he is getting along as well as can possibly be expected.

-A fair would be incomplete without our old friend Henry G. Daughenbach, of Clearfield, in attendance and just when we were beginning to miss him in he popped yesterday morning, but with such a bad cold that he says there is very little fun in it for him.

-Wisely enough J. D. Neese, and a few friends from Spring Mills, took advantage of the first pretty day to come to the fair and were here bright and early Wednesday morning. A BELLEFONTE BOY WON. - Wednesday of last week the Peabody Institute, at Baltimore, Md., held its first pipe organ contest for a three years' free scholarship course in instrumental music. There were ten contestants entered and among them was Fred D. Weaver, the seventeen-yearold son of Mr. and Mrs. J. C. Weaver, of this place, who, we are glad to say, easily won the contest. The contestants were first heard in a performance on the piano and on this instrument Weaver excelled all the others in every point with the single exception of technique. Three of the best were then selected and taken to a new organ that had just been the institute and on this instrument Weaver's performance far excelled that of the other two in every point, so that the judges' decision was unanimous for him. He at once entered upon the free course in the institute so creditably won. In speaking of the contest Thursday's Baltimore papers spoke very flatteringly of Weaver's performance. We congratulate the young man on his good fortune and success.

Mr. Schenck, who has a fine position in the Steinway Piano company's Philadelphia offices, intends building a stone house and all necessary outbuildings on his Allegheny mountain farm and will spend his summers there raising stock.

> -The county commissioners at their annual convention at Scranton last week put themselves on record in favor of two important reforms. They advocate the abolition of the office of county coroner. Inasmuch as inquests can be held by justices there is no need of an officer to travel about the county receiving mileage and additional pay to perform work that can be

done just as well, or better, at a very much less cost. There was also a strong sentiment in favor of abolishing the spring election and selecting the municipal and township officers at the general elec-tion in the fall.

Zerby was compelled to study and pass an examination on the subjects ordinarily comprised in the law course and in addition thereto the work of about two years in actual practice.

Mr. Zerby was born in Penn township, Centre county, Pennsylvania, on the 24th day of Sept. 1876, and is therefore 28 years in Crafton, a suburb of Pittsburg. Mrs. Blair's old. The company owns several hundred acres of fire clay and coal lands and is leasing more clay land so as to be amply supplied with all the raw material needed for an extensive business. The company wisely look to the future and the projectors feel confident that they have an excellent quality of clay and coal. Having the fuel within easy reach on its own land will be a big saving and as the clay is only a short distance from where the plant is to be erected the expenses of conveying the raw material will be comparatively small. We understand that there is still some stock to be disposed of out of the \$150,000 capital stock of the company.

ARGUMENT IN THE GREEN AND DIL-LEN CASE POSTPONED. - The regular term of October argument court began Tuesday

morning. The case of Ira Green and William Dillen, convicted in August for the killing of Jerry Condo, was called up for argument on their application for a new trial. Counsel for the prisoner petitioned the court for a further continuance, plead-ing that they had not had sufficient time to secure all the testimony they needed and to properly prepare their briefs. The court granted an extension of time until October 18th, but very emphatically stated that the case had to be argued then whether counsel were ready or not.
