IRA GREEN AND WILLIAM DILLEN SENTENCED TO BE HUNG-BOTH HEARD THE AWFUL WORDS UNMOVED .- For the murder of jail turn-key Jerry I. Condo, and for which a first degree verdict was rendered against them at the August term of court, Ira Green and William Dillen were, on Monday, sentenced by Judge Love to be hung. Court was convened at 10 o'clock and the court room was filled with a crowd of curious people anxious to hear the death penalty pronounced. The prisoners were brought in by deputy sheriff Harry J. Jackson and special policeman George Everhart. They still exhibited the same demeanor of bravado so characteristic of the two after their arrest and during most of their trial. Even when the awful words of death were pronounced by the Court there was no noticeable quailing on the part of either man. On the contrary, when Green resumed his seat in the chair. there was just the slightest trace of a contemptuous smile on his face. Dillen's countenance was as impassive as ever, but his brother, who sat right behind him was very brief one.

Judge Love asked the prisoners if they had anything to say before sentence should be passed and their counsel, Judge A. O. Furst, responded in their behalf as fol-

"They have, all the way through, adhered to the one thought; not denying the lamen table death of Mr. Condo, they have said and testified on the witness stand that their intent was solely to effect an escape, not to kill. No intent to take life existed in their minds. This, of course, is the distinguishing criterion of murder in the first degree from murder in the second. That defence was presented in their trial as well per for November 1st when we intended it as it could be presented, without having a should be on December 1st. "I further feel it my duty, speaking for the prisoners, to say that they feel that Charles Sneck, of Pittsburg. their case was tried under a very great excitement of the public mind, with prejudice all against them; that they did not have and they do not today feel that they have had a fair and impartial trial before the court and jury.

most painful and probably trying duties that devolves upon either a court or an individual.

"After careful consideration of all the case, we cannot help but believe that you have had a fair trial. When any doubtful point came up in our mind during the trial, we gave the prisoners the benefit of it in our ruling. You were very ably defended and, from all the evidence and the character of the assault made, we were not persuaded that we either had committed any error or that the evidence would not warrant the verdict, so it becomes our duty simply to impose the penalty provided by law, your counsel having spoken for you.
