curately outline the result except in the most general terms. The belief is that Roosevelt and Fairbanks have carried the state by a majority exceeding 10,000 and probably more. Meagre reports from a number of counties show that nearly everywhere the Republicans have sustained only slight losses as compared with their previous majorities.

Democratic Gains In Kentucky. Louisville, Ky., Nov. 9 .- With onethird of Kentucky's 1896 precincts reported, the vote indicates a majority in the state for Parker of from 12,000 to 14,000. The figures of the Democratic and Republican managers show but little variance from this result. Kentucky in 1900 gave Bryan 8090 plurality. The returns from 683 precincts show a plurality of 16,026 for Parker.

Republican Landslide In Michigan. Detroit, Nov. 9.-Michigan was the scene of a veritable Republican landslide. Roosevelt and Fairbanks have carried the state by a plurality of 142,000. Fred M. Warner and the Republican state ticket are elected: at least 11 of the 12 congressmen from Michigan are Republican, and the legislature is overwhelmingly Republican, insuring the re-election of United States Senator J. C. Burrows.

The Vote In Mississippi. Jackson, Miss., Nov. 9. — Returns coming in show that between 60,000 and 75,000 votes were cast, and the opposition to the Democratic party will poll between 10,000 and 11,000. The Democratic majority for Parker and Davis will be in the neighborhood of 50,000. Mississippi returns eight Democratic congressmen, the Republicans making no opposition.

Missouri In Doubt.

St. Louis, Nov. 9.—This morning the results of the election in Missouri and in St. Louis were in doubt. Both sides claimed victory. The Democratic state committee claimed that the state had been carried by a majority of 35,000 and St. Louis by 5000, and that the legislature will be Democratic by a majority of 40, assuring the re-election of United States Senator Cockrell. On the other hand, State Republican Chairman Niedringhaus was equally assertive that St. Louis has gone Republican by 20,000, and the state majority would reach 5000. He felt confident that final returns would show at least five Republican congressmen elected.

New Hampshire's Vote. Concord, N. H., Nov. 9.-This state has preserved unbroken its line of Republican national victories, which began with Fremont in 1856, and has given its electoral vote to Roosevelt by approximately 20,000. Congressmen Sulloway and Currier are re-elected by pluralities ranging from 7000 to 9000, and McLane, Rep., for governor leads Hollis by about 15,000. The legislature will be strong Republican in both branches. Senator Gallinger, chairman of the Republican state committee,

the 24 senators, and between 280 and

300 of the 393 members of the house.

PITTSBURG, Nov. 5 .- The new association of window glass manufacturers and jobbers has begun the fight against the American Window Glass company by cut-ting the lowest prices offered by that company 21 per cent. The executive committee today announced the new discounts, which are 90, 20 and 2½ per cent. off the manufacturers' list for the first three brackets, and 90, 10 and 21 per cent. for all sizes above the third bracket. These are the minimum rates, but do not indicate the actual prices, for premiums are asked for A quality and sizes that cannot be turned out by the new blowing machine.
