In connection with this report we append the following brief history of this church and congregation:

The old log church that was built as a Union church in 1844, was located in the south corner of the cemetery, just across the road from the new edifice. Before that time religious services were held in the homes, among the Northamptoners. Most of the early settlers emigrated from Northampton county; such as the Roups, Corls, Strouses, Blooms and others. Their descendants are the owners of much of the land, still.

The old, or first church was built by an old-fashioned log-rolling, and was said to have cost \$50.00. In this old-time edifice the Reformed and Lutheran congregations continued to worship.
