Artificial Beauty In Rome.

Personal artifice is at least as old

as the Roman empire, for, speaking of

the artificial beauty of a coquette, Mar-

tiol says: "Gollu, you are but a com-

position of falsehood. While you were

living at Rome your boir was growing

on the banks of the Rhine. At night

when you lay aside your silken robes

you lay aside your teeth also. Two-

thirds of your person are locked up in boxes for the night. The eyebrows

Portrait Buttons.

Portrait buttons for campaign purposes are no new thing. Exactly the same method of conveying the expression of political admiration was in force in the days of Queen Anne. At the time of the famous sermon by Dr. Sacheverell, when party passion reached a high pitch, the custom was originated of using coat buttons adorned discussed doctor and similar decorations. Nor was the fancy confined to buttons. Gentlemen sealed their letters with similar designs, and a little later they were to be found on the backs of playing cards and even on women's fans. Dr. Sacheverell's head, again, was made use of to ornament tobacco stoppers, crockery and similar articles.

Skillful Porto Ricans.

The natives of Porto Rico fashion a variety of useful and ornamental articles by hand from the palm leaves, gourds, cocoanuts and other products of the island. They are skillful in weaving hammocks, hats similar to panama hats, and a great variety of baskets. Canes, paper knives and other articles are carved out of the native woods, some of which show curious and strikingly ornamental markings. The senoras and senoritas of Porto Rico are especially skillful with the needle and produce a considerable quantity of fine drawn work and laces.

A Swedish girl just arrived from the old country attended evening service at a Duluth church. Weatherwise River Men.

River men who have followed the Potomac from youth to old age are full of wise weather sayings that come as near being correct as do the predictions of the more scientific observers. An old river man who as master on sailing vessel and steamer has traveled to and fro on the Potomac for the past fifty years said that he had often noticed that as the weather is on the first three days of December in each year so will the weather be in the three months of winter-that is, as the 1st of December is so will December be; January will be like the 2d and February like the 3d. Another saying is as the weather is on the Thursday before the new moon so will be the weather for the greater part of the moon.-Washington Star.

Today is your day and mine, the only day we have, the day in which we play our part. What our part may signify in the great whole we may not understand, but we are here to play it, and now is our time. This we know, it is a cynicism. It is for us to express love in terms of helpfulness. This we know, for we have learned from sad experience that any other source of life leads toward decay and waste.—David Starr
