THE CAPT. CAULKINS-MRS. HOOVLER ESCAPADE. - Sunday morning Mrs. Mayzie Hoovler, the woman in the sensational escapade chronicled in last week's WATCH-MAN, was removed from the county jail to the Bellefonte hospital because it was alleged by ber jail attendants that she showed evidence of an unbalanced mind, owing to the shock to her nervous system caused by her arrest and incarceration. At the hospital the attending physician, while admitting that the woman was in a very nervous state, said her condition was not at all alarming, bardly to be regarded as serious. Her husband, Samuel Hoovler and his father departed from Bellefonte for their homes, last Friday. Before going the husband offered to get his wife out of jail and take her back if she would only go and live contentedly with him in the future, but she emphatically declined the offer and declared she would only accept her freedom on condition that Capt. Caulkins would also be released. The Hoovlers refused to even consider such a proposition and as Mrs. Hoovler would accept no February 22nd. compromise the men were compelled to go home alone. It is the general belief, however, that when they return, as they mean to do in the near future, some arrangement will be made to secure Mrs. Hoovler's release. So far as Capt. Caulkins is concerned, un less he can secure bail, or the case against him be withdrawn through the intercession of Mrs. Hoovler, he will be compelled to remain in jail and stand trial at the April term of court.
