Young housewives and girls that are training for the responsibilities of a household will find much that is useful in the little papers con tributed to the Delineator by Isabel Gordon Curtis under the title "The Making of a Housewife." In the April number the topic is "Planning Week's Work, and Wash-Day." The author suggests an economical distribution of time and labor that will recommend itself to all who read her remarks. Other features of domestic inter est in the same number are illustrated cookery for Easter entertainment and a number of recipes under the topics, "Delicious Hot Breakfast Cakes," "Lenten Soups," Cheese as a Nutritive Article of Diet," and "Savory Varieties of the Homely Bread Pudding," besides a practical article on "Cleaning and Renovating Garments."

In the March Arena Rudolph Blankenburg describes the ripening and revealing of political corruption in Pennsylvania under the Quay regime. This paper contains the startling expose of the criminal acts of Senator Quay which threatened to land him in the penitentiary; and the interest in the recital is much heightened by the reproduction of telegrams and autograph letters. There are also a number of portraits of men who figured conspicuously in this great drama of modern political corruption. Mr. Blankenburg's series of papers is probably the most important contribution to the literature of the new crusade for political morality of the present year. Other papers of special value to people interested in the larger questions of life are David Graham Phillips' interesting description of Socialism in Europe today; "A Pen-Picture of a Great Radical Meeting in Paris," by Frances Hardin Hess, "The Arena's" Paris commissioner; 'The Present Status of Co-operation in Great Britain," a compact and lucid story of the rise and present status of the great co-operative movement of Great Britain, by J. C. Gray, General Secretary of the Co-operative Union of Great Britain: and "The Nevada Referendum Victory," by Eltweed Pomeroy, President of the National Direct Legislation League.

A 25-candle-power light of acetylene costs 2-5 of a cent per hour to burn it. A 25-candle-power light of coal oil costs 1 of a cent per hour to burn it.

A 25-candle-power light of city gas costs 13 cents per hour to burn it.

A 25-candle-power light of electric costs 12 cents per hour to burn it.

The above costs are taken from city gas at \$1.25 per 1000 feet while in Bellefonte you pay \$1.80 carbide at 4c. per lb., and electric light sold at

lowest city rates. Having had quite an experience with Acetylene light, I have taken the agency for the Sunlight Gas Machine which is conceded by experts to be the best Gas Machine on the market. Its simplicity and construction bethe best Gas Machine on the market. Its simplicity and construction being so much in its favor, with no possible chance to explode, I have thought it wise to abandon the sale of all other machines. Two reasons favorable to the Sunlight Machine are: First, it is impossible to choke or stop the feed; second, a Sunlight Machine cannot drop too much carbide, causing the machine to flood the cellar with water, gas and a substance

I will be pleased to figure with interested parties for town or country homes, business places, &c.

I have for sale one NO. 10 COLT GENERATOR ; at \$25.00; having been used not quite one year, and cost \$48.00.

I have for sale one NO. 35 COLT GENERATOR, used about two years, at \$90.00, cost \$150.00.

I have for sale one MARTINDALE NO. 35 CARBIDE FEED for \$75.00. The reason why these two Colt Generators are offered for, sale is that the parties who own them want to replace them with Sunlight machines. Call on or address,
