An Exceptionally Able Paper.—No other daily newspaper in the State of Pennsylvania outside of Philadelphia and Pittsburgh has attracted so much attention as the *Johnstown Daily Democrat*, published by Warren Worth Bailey and Edward Homer Bailey, who have been its proprietors for the last twelve years. In fact, it almost ranks in point of news service with the best Pittsburgh papers. Within the last year it has installed a magnificent new double-column perfecting press, which prints an 8, 10 or 12-page paper at the rate of 15,000 copies per hour and a 16-page paper at the rate of 10,000 copies per hour. No other paper in Johnstown can approach this equipment by half, which affords the *Democrat* an advantage that is widely recognized. It is Johnstown's greatest newspaper. One of the great features of the *Democrat* is its daily cartoon and picture series, which no other Johnstown paper gives. As the price of the paper is only one cent a day, or \$2.00 a year or \$1.50 for six months, it is within the reach of all who desire to read a really progressive Pennsylvania newspaper.

The Great Horned Owl.—Silas A. Lottridge, whose articles and pictures of birds and bird-life have appeared from time to time in *St. Nicholas* is a teacher living in a New Jersey town. All of Mr. Lottridge's spare time, it is said, is spent with his feathered friends. His article in the April *St. Nicholas* on "The Great Horned Owl" contains the result of considerable study of this unfamiliar neighbor. Among other photographs reproduced are three showing this owl with feathers ruffled in anger, very much like a turkey-cock. These photographs, it is interesting to know, proved to Mr. Burroughs the error of an opinion he had long held—Mr. Burroughs claiming until he saw the evidence of Mr. Lottridge's camera that the great horned owl never ruffled its feathers.

SUNLIGHT OMEGA SUNLIGHT

The SUNLIGHT "OMEGA" is conceded to be the best Acetylene Gas machine in the world. Twelve to fifteen times better than city gas or electric light and COSTS ONLY 1/3 AS MUCH.

When used for light it has only 1/8 the heat of city gas because we burn 98 per cent. pure gas.

MAKE YOUR OWN GAS FOR COOKING,

then its heating qualities are phenomenal. WHY?

Because we burn 75 per cent. air and 25 per cent. gas. To cook with city gas you must use 75 per cent. gas and 25 per cent. air. We light your house and cook your meals with the SUNLIGHT "OMEGA," the only successful outfit for country homes, business places, churches, etc.

We forfeit the price of the machine if our carbide feed clogs like it has done on the Colt machine. I have two Colt machines for sale, good as new, at half price if you want to buy them. Why? Because the feed clogged up and the light went out.

Call on Jessie K. Cox or go to Yeager & Davis to ask about the SUNLIGHT "OMEGA." Look in the window at Spigelmeyer's China Store and see the wonderful machine work. I furnish you chandeliers and other fixtures at cost and carriage.

NO LAMP GLOBES NEEDED. Ten minutes each week is all the time it takes to care for the machine.

\$4000.00 invested in a town lighting plant yields 30 per cent. per year on the investment with the SUNLIGHT "OMEGA."
