OMEGA

SUNLIGHT

MILLIONS OF DOLLARS, MILLIONS. MILLIONS OF MONEY, MILLIONS.

The way the Standard Oil Co. made their millions was by selling us coal oil. Every time we consume a gallon of coal oil we add to their millions. They have a net profit of over 100 per cent. on every gallon of oil we consume. Electric light and city gas are both sold at over 100 per cent. clear profit. If you buy a SUNLIGHT "OMEGA" ACETYLENE LIGHT MA-CHINE and make your own light, which is a beautiful, soft white light, and only costs about one-third as much as city gas or electric light. It is cheaper than coal oil. The Sunlight "Omega" light machine works automatically, no trouble and so simple to operate that any one can learn how to make the light in ten minutes. If you live in the country, city or town you can have light that is better, purer, cheaper, less dangerous and less troublesome than any light in existence. Acetylene fixtures, chandeliers, etc., furnished at cost. Any church in my district who will light with acetylene, can have a contribution from me of 10 per cent. of the price of their machine.

Inquiries promptly answered, correspondence solicited, estimates furnished upon application.
