IN THE BOROUGH COUNCIL. - Every member of borough council was present at the regular meeting, Monday evening, but there was little business transacted. The various committees had nothing of importance to report. No action was taken in regard to the appointment of police, the present incumbents having been appointed a year ago to serve during good behavior, council decided that the question could be taken up any time. Representatives of the Bellefonte Traction company gave notice that they accepted the street railway franchise on the terms granted by council some time ago. A report was made that the old Undine building had been rented to R. J. Jackson.

The question of the Pruner orphanage for friendless children was taken up but the subject appeared such a chilly one that no action was taken further than to hear the report of the special committee appointed to make a proper investigation of the question. As this subject is one of vital importance to every resident of Bellefonte, and that all may know just how the committee stand on the question we publish the report in full, as follows:

To THE COUNCIL; The committee provided for in the ordinare adopted at the last meeting of the council, to establishment of a home under the bequest of th late Col. Pruner for friendless children would respectfully report:

the office of solicitor of this borough on Friday, the 24th day of March last. The conference wa in a measure general, and in a general way the care, establishment, and the cost of running such | Resides, by Rev. John A. Wood Jr., of the a home were talked over as well as the proba bility of being able to properly maintain such a home on the income provided for it by the testator. At this meeting there was also a draft of an ordinance drawn under the provisions of

At the meeting counsel for Mrs. Hayes appeared and offered to pay each of the boroughs the sum of \$10,000 cash if they would release all their right in and to the properties devised by Col. Pruner for the support and maintenance of the home. We report this matter for the con sideration of the council. At present we make no recommendation as to whether the proposition should be adopted or not, but in making the report we would specifically call the attention of the council to the fact that Col. Pruner has expressly provided in his will that, "Should ther be any reason why the boroughs of Tyrone and Bellefonte cannot carry out the provisions of this will then the property for said home is bequeath ed to Sallie M. Hayes." Fearing that under provision so broad as this the boroughs might accept the property and then later dispose of it and Mrs. Hayes not reap benefit therefrom he further provided that "If such bequest becomes invalidated from any cause then the rea

estate is bequeathed to Sallie M. Hayes.' This clause in the will presents the case this light, as we are advised. That if the hom should be opened and at the end of five or ter years or any number of years, should be closed because there were no children to be kept in it, or because there was not sufficient income support it, the property in either case would re vert to Mrs. Hayes per force of the will, and in either case there would be no payment made to either of the boroughs. We do not recommend action at this meeti ng but submit this report for the purpose of showing progress made matter referred to the committee.

Respectfully submitted. W. R. JENKINS

THE OPENING OF THE TROUT FISHING SEASON .- Only one week more, or to be more explicit next Saturday, the 15th, will mark the opening of the trout fishing season. If the weather continues as fine as it has been the past several weeks every man and boy in Bellefonte who has a drop of been identified with the hotel interests of veins will be out along the banks of one stream or another seeking to entice the tempting bait.

With good weather the opening day should prove a successful one for Bellefonte piscatorialists, as there are plenty of trout in Spring creek, if they can only be inonly stream in the county which is well populated. There are a number of others and all the fishermen who may go out ought to have a day of rare sport.

THAT BELLEFONTE-STATE COLLEGE TROLLEY LINE. - Any person who thinks that the project for the building of a trolley line from Bellefonte to State College has fallen through, or that the men at the head of the undertaking have fallen asleep, is badly mistaken, as the movement is progressing just as fast as it is possible for one of that magnitude to go. The company has secured the necessary franchises in the three boroughs through which the line will pass and have also secured the right-of-way along the entire line to the College. Inside of two weeks the contract will be let to make the required surveys for the location of the road together with the various estimates preliminary to beginning work on the building of the line. Everything is moving along smoothly and those who are interested in the project

NOVELTY IN BASERALL -A baseball and are offering a reward of \$100 for the team composed entirely of the members of a theatrical company, presenting Wm. B. Gray's beautiful rural play, "The Voluseer Organist," is a distinct novelty which the local fans are soon to have an opportunity of seeing, provided present plans do not fail. On Tuesday, April 25th, this splendid attraction is booked to appear at Garman's, and during the afternoon of that date The Volunteer Organist baseball club will cross bats with the strongest local team possible to get together. Several of the members of the theatrical team are famous players, such as Frederick Burt. who was formerly a member of the University of Nebraska team and was in the box for his club the day the college boys took the measure of the St. Louis Browns. The leading comedian of the show is William Hallman, who was at one time a member of the Philadelphia baseball club, and for several seasons the leading second baseman of the National league. The balance of the nine is composed of excellent players and the local boys must put forth their best efforts if they expect to win.
