THE PENNSYLVANIA

STATE COLLEGE

OFFERS EXCEPTIONAL ADVANTAGES.

TUITION IS FREE IN ALL COURSES.

TAKING EFFECT IN SEPT. 1900, the General Courses have been extensively modified, so as to furnish a much more varied range of electives, after the Freshman year, than heretofore, including History; the English, French, German, Spanish, Latin and Greek Languages and Literatures; Psychology; Ethics, Pedagogies, and Political Science. These courses are especially adapted to the wants of those who seek either the most thorough training for the Profession of Teaching, or a general College Education.

The courses in Chemistry, Civil, Electrical, Mechanical and Mining Engineering are among the very best in the United States. Graduates have no difficulty in securing and holding positions.

FOUNG WOMEN are admitted to all courses on the same terms as Young Men THE FALL SESSION opens September 15th, 1904.

For specimen examination papers or for catalogue giving full information repsecting courses study, expenses, etc., and showing positions held by graduates, address

you are asleep, Adele!" The abrupt accusation was hurled at Mrs. Hugo. Since dinner she had been sitting silently in an armchair, rather huddled and drawn up in attitude, her chin resting on her chest, her hands folded on her stomach and her eyelids closed. Her regular breathing had been pleasantly interrupted. Roused abruptly, injured innocence protested vigorously in her manner, "You dear great thing, how could you possibly imagine I should go to sleep while you were

The Potato. The circumnavigator Francis Drake has the credit of introducing the potato to Europe, but the Spaniards had brought it with the tomato from the Andes some time before, and it was established there and in Italy, where they called it tartufoli, long before Sir Walter Raleigh shipped his cargo, in 1626, from Virginia to England. According to Humboldt, it has been cultivated in England since 1684, in Saxony since 1728 and since 1738 in Prussia.

Racing Ponies In India.

Not much more enviable than the lot of the unfortunate man who is reported to have grown shorter is that of racing ponies in India, Egypt and elsewhere, which are made to measure from three quarters of an inch to a full inch lower than their natural measurements. Paring the hoof can only be done to a certain extent. But ponies can be educated to stand with their heels apart, and if the head is tied up for some time before they are put under the standard they will stand to their best advantage. Two pounds avoirdupois per quarter inch is the regular allowance in the "scale for age class and inches."-London Pall Mall Gazette.

"Name the cavities," said a school teacher to a small boy, according to the Chicago Inter Ocean. The boy was very round. His body was round, his eyes were round and his legs were round, and one of them drew up as if by pulley as he screwed his head on his neck and twisted his round mouth to say: "T-t-the head cavity, the thorax cavity and the borax cavity. The head cavity's what we keep our brains in to think with and the thorax cavity's what we keep our lungs in to breathe with and the borax cavity's what we keep the vowels in, consisting of A, E, I, O and U and sometimes W and Y."
