Democratic State Convention.

Democratic State Committee Rooms. Harrisburg, Pa., May 9th, 1905

To the Democrats of Pennsylvania : In obedience to the action of the Demo cratic State Central Committee at its annual meeting, held in the city of Harrisburg on Wednesday, April 19th, 1905, notice is hereby given that the Democratic State Convention, will be called to order at 12 o'clock noon, in the Lyceum Theatre at HARRISBURG, WEDNESDAY, MAY 24th, '05

The business for which the convention is called will be to place in nomination

The Kuiser's Yacht Race.

The yacht race which was begun at Sandy Hook, New York, on Wednesday ap. pears to be something worth while. The

vacht races which have occurred in this country and elsewhere during recent years EDITO have been mainly tests of the luck of maritime toys, practically worthless except for the entertainment or diversion of very rich men. They proved neither the speed nor the utility of the competitors and developed nothing else other than that they were 2.00 unseaworthy and positively unreliable

The contest which began on Wednesday afternoon, however, will test the speed, endurance and efficiency of oraft which may be utilized for commerce or used for pleasure. The prize for which the competitors are contending is a \$5,000 gold cup offered by the Emperor of Germany and the conditions of the race reveal the practical mind and keen intelligence of that resourceful sovereign and statesmap. The competition is open to the whole world and a route to the free choice of the "skippers" in charge of the yachts so that the result may be the discovery of a new and better route across the ocean, less bazardous and of shorter distance, as well as the development of new types of sailing ships, speedier, safer and more certain. Such objects are certainly worthy of human endeavor because they will work human improvement. The objective point is the Lizard, on the southwestern coast of England. There were eleven starters, eight of which carried the Stars and Stripes of the United States, two

the Union Jack of Great Britain and one the tri-color of Germany. It is to be regretted, however, that the German vessel is of English design and therefore so far as type is concerned the contest is of necessity between Great Britain and the United States. The distance is 2.900 miles and the present record 13 days, 20 hours and 36 minutes. We hope the competitors may have a safe and pleasant voyage and while we would like to see the cup come to this country our greater desire is that the best boat may win.

Scandal Mongers.

Love of a sensation prompted the North American to send a man to Bellefonte on Tuesday to investigate the manner in which our council has disposed of the proposed PRUNER orphanage. The result of his investigation finds expression in yesterday's issue of that journal, in which he hints at bribery. It is to be regretted that the correspondent intimates that one of the members of our council suggested the appearance of bribery in the transaction because, while the utter falsity of the charge is evident to the majority of the people of Bellefonte it might leave a very erroneous impression abroad in the State.

There can be no doubt of the sincerity and integrity of the council of Bellefonte in the course it has taken. While it might

He probably knew, moreover, that the false syntax was incorporated in the measure by the legislative agents of the white slave dealers of Philadelphia, for the purpose of inducing him to veto it. Yet he deliberately played into the hands of the most atrocious criminals by disapproving the measure and restoring the opportunities of the miscreants engaged in the vile work. That proves that he is either inherently immoral or else a blooming idiot and that in either event he is promoting crime.

-A staff representative of the North American was in Bellefonte, on Tuesday, interviewing a number of Bellefonters relative to why council should vote to accept a cash offer of \$10,000 in lien of the bequest of the late E. J. PRUNER for the establishment of an orphanage, but the interviews were not on the side the reporter desired. When the representative was ordered to come up here and get a story the managing editor must have had in mind the enormous propensities for graft charge. ed against Philadelphia councilmen ; not thinking that Bellefonte councilmen are only second in purity to our own big spring.

AMOY, CHINA, May 17 .- It is believe that part of the Japanese fleet is taking u a position below Formosa and that Admira logo has planned to fight the Russian south of Formosa. The Japanese get order from this vicinity at night time.

The state of martial law first declared at Tamsui, Formosa, and subsequently made general throughout the island, has been followed by the appointment of a military executive and the moving of the women and children from the Pescadore islands to

HONGKONG, May 17.—Admiral Roj-estvensky's fleet left Hongkohe bay on the Anam coast on Sunday. This report was made by the German steamer Wonghoi, which arrived here to day. The Wonghoi passed Honkohe bay on Sunday morning and saw the Baltic fleet, numbering fifty and saw the baltic neet, numbering nity vessels, leaving the bay. The captain of the Wonghoi gives the details as to the position of the different vessels in the fleet and says that the flagship dipped her flag in salute to the Wonghoi.

QUEENSTOWN, May 17 .- Vice Admiral Lord Charles Beresford, commanding the channel fleet, in an interview yesterday on the arrival of the White Star Line steamer Oceanic from New York, May 10, said he felt France had taken care that there should be no breach of neutrality in the far east with her consent. Possibly, he said the Russians, like others, might use French waters to repair acciden ts and re main there until turned out.

room for doubt as to the straight-forwardness of its act. When the Philadelphia sensation-mon Chairma

ger was here on Tuesday he called on a number of the prominent citizens and financiers of the town, among them being Mr. JOHN P. HARRIS, Mr. CHAS. M. Mc-CURDY, Mr. ISAAC MITCHELL, Dr. JOSEPH and others and when every one of them expressed the opinion that council had done right in rejecting a scheme that threatened another to the many burdens already on the town he became very indignant. It is evident, however, that he found a sympathizer in Dr. M. A. KIRK, whom he quotes quite frequently in his effort to make the public believe that the other eight members of our council have reaped some personal benefit from the transaction.

Notwithstanding the North American and Dr. KIRK the taxpayers of Bellefonte have enough confidence in Messrs JENKINS, KELLER, FENLON, DERSTINE, KEICHLINE, WISE, SEIBERT and BROWN to believe them to be above and beyond the unfounded imputations of a scandal-monging newspaper or the gentleman who seems to have sympathized with and abetted its attack.

Pennypacker Promotes Crime.

There is a good deal to commend in exactness of expression and perfection of speech. Slip-shod and ungrammatical phrases are a positive evil and in the construction of laws there are especial reasons for punctiliousness. The misplacing of a comma frequently changes the meaning of a sentence and the use of a wrong word might lead to perplexing and expensive litigation. But there are worse things than badly constructed laws. There are greater evils than bad grammar in an act of Assembly, though Governor PENNY-PACKER appears to imagine that that is the sum and substance of all iniquity. For example, it has been known for some

time that employment agencies in big cities are the most prolific agencies for recruiting the armies of fallen women. A favorite method of operating by these institutions is to advertise for girls to fill important places at lucrative wages. In the expectation of desirable and honorable serv-
