> THE GLORIOUS FOURTH.-The Fourth of July was a very quiet day in Bellefonte most everybody going either with the Undincs to Hecla park or out to Snow Shoe to attend the opening of the new driving park. The crowd at Hecla was hardly as large as in former years and yet was large enough to enable the Undines to realize a good return for their trouble, the amount cleared being about \$240. Both the Zion and State College bands were present to furnish music and there were various amusements to help one pass away the time, among which was a base ball game between the Hecla team and a picked team from this place.

There were just a few over twenty-one hundred paid admissions through the gates is now operated on the block signal system of the new driving park at Snow Shoe for the union picnic of the Red Men, Odd Felallowed at a time on a stretch of road be- lows and United American Mechanics. One of the chief attractions there was the horse race between "Frank C," driven by Dave Wireman, of this place, and "Rebe," the pacing mare owned by W. D. O'Brien, Snow Shoe, for a \$300 purse. The race was won by the formor horse in two straight heats, the time being 2:27 and 2:23. The new track is a very good one, though a little hard. Another feature was a ball game between Peale and Winburne for a purse of \$50, the former winning by the score of 12 to 3. In the evening there was a big display of fireworks.

There was no amusement of any kind during the day in Bellefonte, while the scarcity of the booming of the big dynamite oracker was very noticeable. So far as known there were but three accidents recorded in this place. In the evening Malin Everhart, son of Mr. and Mrs. George Everhart, was hit on the forehead and badly burned by an exploding torpedo. John - Veterinary surgeon W. H. Fry, of Clark was badly burned in the face by the premature discharge of some fireworks, and Miss Mame Hamilton was badly burned on against the frame of a window in which she was sitting, in the Brockerhoff house,

-Frank T. Kerns installed a new boiler and other machinery in his laundry on Water street, this week.

-The large barn on the farm of J. C. Peters on Dix run, in Union township, was 4th. In addition to the building four horses, four head of cattle, a lot of new hay, wagons, harness and other farm imple ments were burned. The barn was insured but on the stock, which belonged to Frank Peters, who was farming the place, there was no insurance.

-Last Friday afternoon Mrs. Young, a widow lady who lives in the Bush Addition, went out to her hen house to look for eggs and was horrified to see a large blacksnake coiled up in a hen's nest. She called across the street to her neighbor, Boyd Cowher, who went to her assistance. Looking at the snake Cowher was amazed to see it in the act of swallowing a china nest-egg, already having it almost entirely in its mouth. He secured a gun and shot off the reptile's head. The snake was a very big one, being fve feet, nine and one-half inches in length and almost as thick as a man's

The young couple will make their home with the groom's mother on east Lamb street.

> FUREY GRAY.-George E. Furey and Miss Ethel Gray, daughter of Mrs. Wesley Gray, surprised their friends by quietly getting married at Snow Shoe, on July 4th, whence they had gone to attend the opening of the new driving park. To the township having the second best exhibit \$30 to be applied to the purchase of charts and maps.

To the township having the third best exhibit, the Standard dictionary. All of these prizes are intended for the

schools of the townships and will be awarded in the following manner:

With each paid admission to the fair grounds will be given one ballot which the holder can mark and cast for the township he or she judges has the best exhibit. When a particular township has won one of the prizes, it shall belong to the school district from which most of the exhibits making up the general township exhibit have been collected.

It is also understood that the exhibits making up the respective township displays will also be entered for competition in their respective classes, if the exhibitor so desires, and in that way he will be able not only to contribute to the success of the schools, but to receive whatever cash awards the exhibit may merit.

This undertaking should prove one of the most interesting and attractive exhibits ever made in this county, and it will certainly be that if the townships enter into it with the proper spirit.

A NEW KIND OF HORSE DEAL .- About three weeks ago Mr. Thomas Laurie decided oil millionaire that his horse "Dick," presented to him several years ago by Col. W. Fred Reynolds, had grown too old to be of any further use and concluded to have him chloroformed. Not wishing to do the job himself he engaged John Wagner to give the animal its quietus and perform the final obsequies, giving him one dollar to do the job. John willingly consented, declaring he knew a big sink hole down along the mountain which would be the very place in which to dump the carcass.

John engaged Cloyd Daley to assist him and together they started down along the mountain with the horse. On their way down they evidently must have come to the conclusion that it was a cruelty to kill the horse or else a waste of an opportunity to make a raise, for instead of chloroforming the beast as they were paid to do they took the animal down to Curtin and sold him to Charles Shultz for thirteen dollars, cash; then came home and reported the horse Dick dead and buried.

About two weeks ago Mr. Laurie was told that his old horse was still alive and in possession of Mr. Shultz. He at once went had been sold by Wagner and Daley and demanded his return which was acceded to. pose of getting his thirteen dollars back. even if he had to resort to the law, but the not made public.
