

"FEWER GALLONS; WEARS LONGER."

The secret is out and Bellefonte can go on living just as if the riddle had never been asked.

No it can't, either. Bellefonte is not going to be what it was before. Its houses are going to be brighter; its people a little more prosperous—they are going to have some of their money left to buy other things with.

The answer to the riddle is this: You can paint a building with fewer gallons of Devoe Lead and Zino paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Bellefonte.

What will people do with the rest of their money?

FOR BETTER FISH CULTURE.—Fish Commissioner W. E. Meehan has begun a series of experiments to determine what economic measures are necessary to promote the natural growth of fish and to better preserve those already in the waters of Pennsylvania streams. The experiments are being directed by State Economic Zoologist H. A. Surface. The field work is being done by E. R. McConnell, of Indiana, and C. F. Noll, of Green Park, students at State College. They are now in Centre county, and will work through all of the important water systems of the State. The specimens will be studied and the results announced.

Spring Mills.

The festival given here by the ladies of the M. E. church, on Saturday evening last, was very satisfactory financially.

Our farmers are very busy cutting grain. The general crop is a fair one, potatoes promise to be a very large crop, berries are very plentiful, but apples will be limited in this neighborhood.

Spring Mills and Centre Hall base ball teams had a contest here on Saturday last, resulting in favor of Centre Hall by the score of 18 to 4. Spring Mills has gained no laurels of late. This will never do young gentlemen; you must put more dash, vim and skill in your team.

J. Best Krape, employed by Dr. Brauch and who has charge of his grounds, stable and surroundings, is not only a careful hostler and good manager but is also quite an artist in painting. Last week he painted a truck wagon very artistically and it is equal to the work of some of our most skillful painters.

On Friday last two horses belonging to the lumber teams of Kryder & Orwig, while watering in the pool on the farm occupied by Howard Weaver, fell into it and becoming entangled in the harness were extricated after considerable difficulty. I notice that one editor in addition to publishing a newspaper, has added merchandise to his business. No doubt before long merchants will become editors and issue newspapers too, simply to save themselves. Of course an innovation like this does not argue prosperity for the newspaper. The editor has evidently made a mistake.

Gen. Blackmar Passes Away. Commander-in-Chief of G. A. R. Dies at Bologna, Idaho. Boise, Idaho, July 17.—General W. W. Blackmar, commander-in-chief of the G. A. R., died here of intestinal nephritis. His wife was with him during his illness. The body will be embalmed and taken to the home of the family in Boston. General Blackmar arrived here on July 14 on an inspection tour of Grand Army posts throughout the northwest. He was ill when he arrived and gradually failed. The seriousness of his condition was kept from the public at the request of his wife. General Blackmar was born July 25, 1841, at Bristol, Pa. He enlisted in the 15th Pennsylvania cavalry, and subsequently joined the First West Virginia. He served with distinction throughout the war, and at Five Forks was promoted on the field by General Custer to the rank of captain. Through the three administrations, those of Governors Long, Talbot and Rice, he was Judge advocate general of Massachusetts. At the last national encampment of the G. A. R. he was elected commander-in-chief. Succeeded by John R. King. Boston, July 17.—Except to two or three officials of the Grand Army, the news of the death of Commander-in-Chief Blackmar was received with great surprise in this city. General Blackmar is succeeded by John R. King, of Washington, senior vice commander. Two weeks ago the commander-in-chief broke down and was ordered to his bed in his summer home at Hingham by his physicians. At the time his indisposition, however, was regarded as slight.
