September 16th, for One Week. The Thirty-second annual encampment and exhibition of the Patrons of Husbandry of Central Pennsylvania, will open on Grange Park, Centre Hall, Saturday, September 16, and continue for one week.

True to its name this outing embraces an encampment and exhibition. Over one hundred tents are pitched on the grounds, floored, furnished with tables, and offered at a rental of \$3.00 a week. If desired by camping parties, these tents will be arranged to suit the fancies of the prospective tenants.

The exhibit department is growing annually. The indications are tunnible hibit of the products of the farm will be of people who grow them not only for exhibition purposes, but for a living. Exhibits shown from such a source are of actual benefit to the thousands of spectators who are similarly engaged.

The manufacturers of agricultural implements, farm machinery, household utilities, novelties, etc., will find this gathering admirably suited for a profitable exhibit. This is so because the manufacturer comes in touch with the user of his wares.

Farmers and stock growers who make

that branch of husbandry a business, who take advantage of this exhibition, (and there are not a few of them) will find their efforts to show their stock well repaid. There is ample stabling, good water, feed, straw, etc. on the grounds, purchasable at marked price.

Pennsylvania State College makes a fine display each year, occupying an entire building. Grains, vegetables, fruit are ex-hibited, giving the yields for a series of years on the experimental farm. Beside this, the College displays work of the institution, gives out valuable literature for armers and students.

The exercises in the auditorium during the day are of a character to interest the general public-farmers, mechanics, labor-ers, and professional men, as well as the
