question. For some reason QUAY had set his face against ELKIN'S desire in this respect. Men differ as to the cause of this fact. For many years ELKIN had been QUAY'S most servile tool and QUAY en-

couraged his gubernatorial aspirations. But suddenly he faced about and candidly told

the "plow boy" that he couldn't have the place. Some say that it was because ELKIN was counsel for the Wabash railroad and others that it was for the reason that while Attorney General be was wolfish in demanding favors from the Pennsylvania railroad. In any event the Pennsylvania railroad was against ELKIN and as lobbyist for that corporation QUAY was obliged to turn him down. He said it was because ELKIN'S record was so bad that the party couldn't hope to win with him as the candidate. But nebody ever took QUAY believe him on oath.

Whatever the reasons were that influenced QUAY to oppose ELKIN the methods he invoked against him created sympathy for the "plow-boy." He had hosts of friends among the practical politicians. They ad-

mired his lack of conscience and his nerve. While Attorney General of the State, supposed to be counsel for the Commonwealth in all litigation against corporations, he stood in the corridor of the Lochiel hotel, Harrisburg, openly handing out railroad

passes to political workers. No other Attorney General in the State had ever accepted even a personal pass on any railroad, probably. It implied compromise with the corporation extending the favor and under the constitution was a crime. But ELKIN didn't mind that. He not only demanded passes for himself but for all his

friends and taxed the Pennsylvania railroad for such favors to such an extent that its officers declared he should not be made Governor and compelled QUAY to search for another candidate. The fact that be was counsel for the Wabash was the osten-

sible reason, but the fear of confiscation was the real canse. But ELKIN proposes to be Governor yet

Politics in Chester County.

The political revolution in Chester county is one of the marvels of the period. As we have stated in the past the most safely entrenched local machine in the State was that in Chester county. Nobody ventured to dispute its power. No one dreamed of questioning its omnipotence. LARRY EYRE was literally the whole thing. What he said was the law of the party, the official pronouncement of the machine. But all of a sudden the conditions changed. With miraculous rapidity an opposing force appeared and developed. At first LARRY literally. In other words, few people would laughed at such temerity. It appeared to him absurd and he said so with characteristic politeness and emphasis. But it remained.

Last week Mr. EYRE offered to compromise with the strange force which had invaded his political preserve. Just think of it. LARRY EYRE, who had been since "time out of mind" accustomed to order things as he felt inclined forced to compromise. If the offer had been accepted it would have been strange enough. But as a matter of fact it was rejected contemptuously and notice served on Mr. EYRE that unconditional surrender was his only alternative. He basn't quite brought bimself. to accept such a fate as yet but he will. He is too wise to throw himself into a threshing machine and he might as well do that as to refuse to surrender. In other words. if he doesn't obey he will be crushed.

This condition in Chester county is simply an expansion of the political revolution in Philadelphia and before three months have elapsed it will have spread nearly all over the State. The iniquities of the Republican machine have actually become unendurable to decent men and they are determined to overthrow it. In Chester county the Republicans will vote Berry Makes Good Impression,

In the political history of Pennsylvania no man has ever made a more profound impression than William H. Berry, the Democratic nomince for State Treasurer, cratic Senators and representatives who dispose of public offices for a monetary conin so brief a period. Mr. Berry was little known outside of his own neighborhood sideration; that it is not the fault of Demotwo years ago. There he was favorably cratic office holders that such catastrophies as the Slocum horror or the Bennington disaster occurred; that it does not hold in regarded as a citizen of high character and splendid ability, who had acquired a the Senate for political purposes the Mor-mon Smoot; that the trail of "graft" thorough understanding of business and a stretching through the postoffices, interior, agricultural and printing departments of the government, is not worn smooth by the feet of its faithful; that Democrats are not fair measure of prosperity. He was a Democrat in politics and faithful to his political and civic obligations, but was not a politician. Last February he was nominated for Mayor of Chester, the city in which he lives, and was formally introduced into politics.

Chester is a city with a large Republican majority, more than two to one. A Democratic nomination in that city was not an enticing thing. Ordinarily it meant a good deal of trouble, some expense and a rather humiliating defeat. But Mr. BERRY accepted the burdens, the obligations and the responsibilities. He didn't want the office. In fact he would much rather have put another in his place. But the people of Chester wanted a Mayor of his type and he was elected. Then people began wondering what manner of man could achieve such a victory. Before he was in office three months the papers were publishing things about him because he had turned the town inside out.

It can congratulate itself that the very name Democracy stands in state and nation a synonym for decency.

Thus BERRY drew public attention to ward him and when the Democrats of the State were looking about for an available candidate for State Treasurer, they turned their eyes in his direction. He was just the sort of fellow that was needed. He has intelligence, integrity and courage. Public affairs in the State are just in the condition that he found them in Chester and it was concluded to invite him to extend his reform work. In other words, he was unanimously nominated and his first speech in the campaign indicates that no-

-We certainly need war or something else to keep our army officers busy, if idleness is likely to give them all a mania for pinching the legs of their fellow officers wives. This TAGGART-MINER scandal is about as nasty an affair as has come to light in years and for the good of the army and the honor of the army women the whole nest of them ought to be court martialed.

-It took considerable talking to make the Prohibition convention understand that the only way their party can hope to accomplish any good in Pennsylvania is by joining forces with the best element of either of the two leading parties. In this case the endorsement of BERRY, for State Treasurer, was the best thing the Prohibitionists could have done, though it was to be expected that those of them whose fanaticism gets the better of reason would undertake to vote the endorsement proposition down. The same reason that prompted the Democrats to nominate Judge STEWART was sufficient to warrant the Prohibitionists in placing Mr. BERRY on their ticket.

-The Gazette's attempt to excuse Mr. SWARTZ for circulating an untrathful story about Dr. WHITE, the Democratic nominee for Treasurer, places it in the same class with the candidate whom it espouses. Governor Stone's Opinions.

Former Goverbor WILLIAM A. STONE has given his impressions of present political conditions to the public through a newspaper interview and they are more or ess interesting. Governor STONE is a rather interesting person. Course he is, and he knows as little as the sum of human

understanding is measured in this period of educational advancement. But he was for years one of the most servile and obedient emissaries of QUAY and through long association with that conspirator acquired some familiarity with the tricks of political chicanery. Because of this mental equipment, if it may be so called, his opinions on political questions may be regarded as of some value.

Obviously the former Governor cherishes up against Senator PENROSE some of the en mity which was created when QUAY by "some mysterious force converted a majori ty for ELKIN into a majority for PEN-NYPACKER over night."
