MILK TURNS BRIGHT PINK

Believed Unusual Color Is Due to Bacilli, But Cause Is a Mystery.

Tunkhannock, Pa., Aug. 19.—Stanley R. Brunges, ex-member of the state legislature and one of the foremost dairymen of this section, has experienced a trouble with his cows the past five months the like of which, State Veterinarian Pearson says, he can find no record of in this country or Europe.

Mr. Brunges sells milk in this borough, and early in the spring his customers began to complain of the milk. It was to all appearances like other milk when freshly drawn from the cows, but on standing until it soured it became a bright pink or almost crimson hue. His customers deserted him until he could scarcely sell milk, although his cows and dairy surroundings are of the best in the country. He appealed to State Veterinarian Leonard Pearson, who at first advised by letter and then sent on an expert to make tests. He at last fastened the trouble upon one cow, which now has been taken to the University of Pennsylvania at Philadelphia, where the case is being studied. It is the opinion of Dr. Pearson that the unusual color is due to bacilli, but the cause of it is as much of a mystery as ever. Scientific men who have heard of it are much interested in the case.

TWO MORE BODIES FOUND

Death Rate in Train Wreck Near Norfolk, Va., Reaches Sixteen.

Norfolk, Va., Aug. 21.—The bodies of two more victims of the Kingston and Greenville excursion railway wreck of last Thursday were found in the western branch of the Elizabeth river near the scene of the accident. One of these was Thomas Ferguson, the drawbridge keeper, who was knocked off the bridge and drowned when the train plunged through the open draw, and the other is being held for identification. This makes 14 bodies in all that have been recovered from the river, with two injured dead in St. Vincent's hospital here, making 16 known dead up to this time.

The wrecked engine was raised and placed on board of the wrecking apparatus. The other wreckage is being rapidly cleared, and work upon the new draw to replace the old one will begin early in the week. It is believed that still more bodies are in the river. Some of the excursionists who returned home, not finding their friends there, have come back to Norfolk to make further search. It is thought that as many as seven people are yet missing.

Medical.

SCROFULA

Is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tuberculosis," and where it is allowed to remain tuberculosis or consumption is pretty sure to take root.
