--- Monday night's storm and rain played havoc with some of the things down at the fair grounds. The monument of grain and fruit built by Mr. Strohmeir was badly damaged: the tent over the merrygo-round was blown down. A number of other tents were badly twisted while there was a general look as if the place had been struck by a fair-sized tornado. Tuesday, however, everything was put to rights again.

-Harry C. Valentine came home from Beaver Falls, last Saturday, to enjoy with Mrs. Valentine the celebration of the twenty-first anniversary of their marriage. Quite a number of friendsjoined with them in making the day as pleasant and enjoyable a one as it was possible to have. Mr. him in seaver Falls much of the time he at 2:30 o'clock. THE CENTRE COUNTY FAIR .- For the first time in five years old Jupiter Pluvius took a back seat and allowed the weather man to smile most benignly this week, with the result that the Centre county fair, which was advertised to be better that ever before, was not only bigger and grander in every way but the crowds in attendance were the largest seen at the county fair for THINGS ABOUT TOWN AND COUNTY years. Wednesday there were from four to five thousand people on the grounds while yesterday the top notch was scored with from ten to twelve thousand, and with continued good weather today

another large crowd should be there. As to the fair itself, it this year takes rank with any fair held in the central part of the State. Practically all the space for outside exhibits of machinery, etc., is filled. The live stock exhibit is the largest ever had, including the finest strains of blooded stock, in horses, cattle, hogs and sheep. One very noticeable thing was the unusual number of brood mares with sucking colts by their side. The poultry exhibit also deserves special mention. Two large tents are jammed full of the choices fowls, turkeys, pigeons, etc., from both Centre county growers and other sections of this State and New York.

A feature that is attracting its full share of attention is the beautiful arched monument of all kinds of grain and fruit, designed by Henry Strohmeir, of Centre Hall, and erected just in front of the main exhibition building. In it are to be found every kind of product raised on the farm and in the garden.

In the main exhibition building the line of exhibits in everything usually seen at a county fair is so large as to be crowded too much for proper display, a fact which makes it patent to the fair management that the exhibition is not only growing but has already grown beyond the limits of the space provided, and that by next year additional buildings will have to be provided for exhibition purposes.

In the competitive township exhibit Marion was the only one to respond but she did so most liberally. The school board took hold of the matter and organized for a systematic canvas with the result that it took John Holmes Jr., Walter Yearick, Harry Fravel and Frank Vonada to bring the exhibit to Bellefonte in two big wagon loads after all the stuff had been properly labeled by Mrs. Holmes and others. Of course this exhibit took the first prize, a

On the midway are the usual diversions, interspersed with the man with the wheel of fortune and a few other like innocent games, while the toy balloon man and the man with the "tickler" perambulate among the crowd. Of course the balloon ascension in the evening is another attraction viewed by both old and young, though Thursled to out doose and fell in the lake, while down the street in a stream. the balloon sailed away. The man was not hurt in the least. No out-and-out gambling schemes are allowed on the

grounds. WEDNESDAY'S RACES. Of course the most interesting of all the diversions at any county fair are the races and these were watched with unmitigated satisfaction by the crowd present on Wednesday. While to horsemen and followers of the track the 2:17 event was the most interesting to the majority of the people present the county race was the big thing. While all of the events were close enough to be exciting all were run in straight heats and there were no sensational finishes. The county race was won by Henry Lowery, of this place, while Lew Wallace, of Milesburg, came in first at the other end with a great big lead, though he did get around in time for the races yesterday. The summaries of Wednesday's races follow:

THURSDAY'S BACES. they were all closely contested so that the interest of the large crowd was held uninterruptedly until the last heat was run. Both the 2.20 and the 2:22 races were won by local horses, the former by Dave Wireman's Frank C in a field of four while in a string of five in the latter George Beezer's new horse, Dr. S, won out in the fourth heat after coming in second the first heat,

-On and after Sunday, Oct. 15th, the morning services at St. John's Reformed church will be held at 11 o'clock instead of 10.30 a. m. and the Sunday school will meet at 9.45 a. m. instead of 9.15.

-At a recent meeting of the Reformed congregation it was decided to build a charel between their church and parsonage on Spring street. Work on the same, however, will not be begun until next spring.

-The death of Mrs. Linn Adams at State College, Tuesday, was especially sad in that it is in the Senior year of her only son, Lee, for whom she has worked hard to make a college course possible. It is to be regretted that she should die when within sight of the end for which she had sacrificed much. Another case of the "Hero Un-

-One afternoon last week Nelson Wolford, of near Unionville, undertook to drive a strange dog out of his barn when the animal sprang at him and succeeded in biting him on both hands before he was finally driven off with a club. The animal then ran down the road and attacked Arthur Hanscom, but was driven off before biting the young man, though his clothing was badly torn by the canine.

-Monday was the opening of the squirrel and woodcock hunting season and whether it was owing to the rain, the scarcity of the game or other reasons very few of the local hunters came in with full game bags. Will Garman claims to have brought home five of the frisky fellows while Jack Decker and Will Cassidy got six between them. Tom Harter and C. P. Hilder were out for woodcock and brought home three. Of course others may have been more successful but we failed to hear

-The secret of the good patronage fonte is the promptness with which she discharges her obligations. What better advertisement for a dressmaker than to be a year ahead with the times—and we can attest to that. We speak of her as a visitor nowadays from Pleasant Gap, as she will, for the present, be more at home there to aid her mother in caring for the children of her sister, Mrs. Sam Brooks, lately deceased.

-On Sunday Barnes, the dairyman, drove up to the Garman house and while delivering milk to the kitchen left his horse stand without tying. The animal started, turned around very short and upset the milk wagon dragging it on the side down to the corner of the Brockerhoff house and then back across the street to the bank where he stopped. The wagon, just new day exening the balloonist attempted to ly painted and fixed up, was badly scratchascend before the balloon was properly in- ed and had balf the roof torn off, while all

He died at Cedar Springs in 1828, in his seventy-eighth year. Mrs. Risbell is still quite hale and hearty. She was born in Centre county in 1820 and is an aunt of William B. Among the prominent speakers expected to be present are Bishop Berry, Chancellor Dry, of the Syracuse university; Dr. Cook, of Cincinnati, and Gross Alexander, of Louisville. MR. HINDMAN RESIGNS.-L. B. Hind man, who the past three years has labored in Bellefonte, as general secretary of the Y. M. C. A., recently tendered his resignation to take effect January 1st, 1906. THAT ODD FELLOWS GATHERING .-There will be just one week of of a breathing spell between the Centre county fair and the big gathering of Odd Fellows, which will be held here October 16th-18th. Not since the time of the G. A. R. encampment here in 1880 has there been such a crowd as will be here during the coming Communication of the Grand En. campment, I. O. O. F. of Pennnylvania and the Department Council of Patriarchs Militant. As stated last week there will not be less than three hundred representatives present and at least that many more visitors and uniformed camps of the Patriarchs. The latter will come in all the splendor and beauty of there gold-glittering uniforms. To accommodate and entertain this big crowd of visitors will necessitate some extra effort on the part of the people of Bellefonte. Then in addition. it would merely be paying due courtesy to the visitors for the property owners

The Patriarchs Militant, of which J. B. Andrews, of Altoona, is general, will arrive early Monday morning and hold their first session at 10 o'clock and another session in the afternoon. The representatives of of Grand Encampment will arrive Monday evening and hold their first session on Tuesday morning at 9 o'clock. Tuesday afternoon all of the visitors will be given a free excursion to State College where they will have an opportunity to inspect that institution in full working order. There will be two sessions of the Encampment on Wednesday. All the officers of the Grand Encampment as well as of the Patriarchs Militant will be here, which will mean the bringing together of many prominent men from all over the State.

REAL ESTATE AND OTHER CHANGES .-A number of real estate and business deals were made the past week that are of more or less importance. S. D. Ray purchased that Miss Ida Bell has established in Belle- the old Bartruff carriage works building, on Water street near the big spring. The purchase was made with a view of sometime in the future moving his shirt factory from its present location near the P. R. R.

depot. William Johnson, of east Bishop street, has bought the blacksmith shop of Jacob S. Knisely, the latter with his brother Andrew. of Shamokin, intending to go to State College and open a pool and billiard room and cigar store combined in a room in the new hotel building. The change will take place just as soon as the room at

the College is ready. John D. Sourbeck, last week, bought out the Missinburg candy factory and will move the plant to this place and instal it in the vacant room between Schofield's saddlery and the Bellefonte club, where he will embark in the manufacture of caudy on a large scale.

THE SOLDTERS' MONUMENT.-Mr. J. E. Roche, of Westerley, R. I., arrived in Bellefonte last Friday for the purpose of superintending the erection of the soldier's monmment and Curtin memorial in this place. This week three car loads of grapite for the monument superstructure arrived and new just as soon as Mr. Roche can secure the required timber for his hoisting derricks, etc., and get things in shape the work of assembling the monument on the foundation in front of the court house will be begun. It is estimated that it will take about six weeks or longer to put everything in place and finish the monument

ready for unveiling. Now that work has actually been commenced on the erection of the monument. isn't it about time that some thought is given to the day when the same will be unveiled and dedicated. This will be an occasion that should be made momentous. It is the first and very likely the only thing of the kind that will ever be raised in Centre county, and combining as it does the honoring of the soldier dead and the memory of the greatest war Governor that ever was be attended with due and proper cere-

A CLOSE CALL .- Shortly before six o'clock Saturday evening Joe Thal was driving up the back road from the fair grounds in his delivery wagon. With him were John Garthoff and a boy named Campbell. At the same time the Snow Shoe train was shifting cars on the Y and glass works siding and just as Thal was driving over the crossing a box car was shunted in which struck the wagon, knockfor the upbuilding of the local association ing it from the track and throwing the and it seems a pity that just now, when three occupants out. Thal was more or less bruised up while the boy had hardly a scratch on him so that no serious consequences resulted, miraculous as it seems. The horse was thrown down and somewhat bruised and out but not serious. The wagon, however, was pretty badly broken. Just whose fault it was is hard to say. The men were driving along, evidently busy talking and did not notice the box car coming down the track until it was too late to get out of the

-Dr. and Mrs. Thomas Hayes went to Clifton Springs on Monday where they will remain a few weeks until they decide whether they will spend t he winter in the South or in California. It is well seen they are not seeking political aggrandizement else they would surely decide for the South and have the quarantine raised as Teddy R. talks of doing.

-Mrs. Anna Caswell is visiting Mrs. M. A Kirk For several years she spent the summers here, now it is only a short visit that gets later each season and from the fact that her daughter, Mildred, is now old enough to prefer Atlantic City to her old home, it looks as if the family were grad. ually settling their lines permanently elsewhere. Mr. and Mrs. Reese Van Ormer have spent the summer abroad for Mr. Van Ormer's health and re now in the Adirondacks.

-Evidently some of our kind friends took pity n us when they saw what a big [crowd was in. -Mr. and Mrs. Wm. Russel, of Beaver Falls, returned to their home on Wednesday after quite a pleasant visit at their old home here. They were among those who left with the Standard Scale works and while both of them looked as though Beaver Falls agrees with them, yet they have that old love for Bellefonte that makes them glad to get back occasionally while their friends are equally glad to see them.

-W. T. Myer and wife, C. Spyker and wife, R. B. Roper and T. B. Pifer were over from Alexandria this week to attend the fair and visit friends in Pine Grove Mr. Pifer made us a short call to have his paper marked up to 1906 and encourage us in our aspirations for success in the coming election. Although he has sold all his property in Pine Grove it does not follow that he has disposed of his interest in the Democracy of Centre county.

-Dr. W.A. Buckhout, one of the best known pro. essors of State College, was in town Tuesday evening. For years he has been associated with Dr. Rothrock in arousing interest in the scientific study of the preservation and cultivation of forests and is now professor of Forestry in the four years course on that subject recently established at State. In no county is knowledge of this subject more needed than in this where there has been much ruthless destruction of timber and it is a most fortunate thing for Centre county that a systematic course is to be given under so able a man as Prof. Buckhout.

-Among the bunch of Philipsburgers who were here to the fair were Sam Wigton, whose friends pe rsist in calling him "Matt"-what for we don't know and you know we Democrats are a little "leery" of that name "Matt;" Harry Rumberger, who is in the oil business but is not giving ten million dollar checks to Chicago University; Howard Sergent, the gentleman who thinks that had the Japs only used Laffin and Rand powder there wouldn't have been enough Russians left to write up the peace terms and Ed. A RUMORED ELOPEMENT. - Bellefonte is now to the front with an elopement in which no less a person than Miss Adaline Lyon, daughter of Mr. and Mrs. W. A. Lyon, is one of the principal figures. Miss Lyon had been employed by the American Lime and Stone company as stenographer and typewriter. Wednesday morning she went to work as usual and at the office asked Superintendent David J. Kelly if she could have the day off. Her request was granted and later Mr. Kelly discovered that she had not only left her keys in the office but had left town on the 9:53 train. It is further stated that a telegram was received by a young lady in Bellefonte from Miss Lyon, Wednesday evening, in which she stated that she had been married that day to James McGuiness Esq., of Ridgway. Up to this writing her parents have received no word confirming or denying the story.

-Boyd Wilson, who for a number of years has been connected with the Howard Creamery company in this place, moved with his family to Williamsport, Tuesday of this week, where he will take charge of a large dairy and creamery combined. -The Ward house, at Tyrone, chang-
