New Girl Sculptor Greatest in World. New York has produced the greatest woman in the world, according to F. Edwin Elwell, curator of sculpture at the Metropolitan Museum of Art.

She is only 19 and beautiful, and her name is Ada Martinson.
Of her statue, "Motherhood," recently completed, the curator says:

"An interesting experiment has been going on for three years," said he, "between a sculptor, somewhat known, and a pupil—a woman. When the young woman first entered the studio for actual work he was standing at the door, and as the stepped over the threshold he remarked: 'There is no sex in this studio. The moment you fall in love with me or try any feminine tricks with me, out you go."

"She was taught to pound her own clay, and even to wash the floors, to take away any conceit she might have had as to her

"She finally saw what was intended, and though she said nothing, set to work hard work-to try and drive away feminine timidity and to attack her clay with boldness and vigor that was truly delightful to one who had regarded women as a nuisance

For months Bellefonte readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. Emma J. Davis, of 246 E. Logan St., says: "I have a great deal of confidence in Doan's Kidney Pills and have already recommended them in a published testimonial in 1897. I told how I had been relieved of kidney complaint and backache which had kept me suffering for years. Doan's Kidney Pills did this for me when other remedies had failed. Whenever I feel any symptom of my old trouble I send to F. Pott- Green's drug store for a supply of Doan's Kidney Pills and it never requires more than a few doses to get me right."
