Pennypacker's Generous Eulogist.

Governor PENNYPACKER'S brother ISAAC is a fulsome eulogist. The Governor himself is generous in praise when honied words bring liberal rewards. That is to say, his absurd comparison of the late Senator QUAY with real statesmen secured bis elevation to his present distinction. But he was hardly as extravagant in classifying QUAY with WEBSTER and CLAY as his brother is in estimating the qualities of the present Governor of the Commonwealth in an address which he delivered before the Susquehanna Historical Society at Montrose a few weeks ago. It is easily within the lines of conservatism to say that he went

since BENJAMIN FRANKLIN was its Presi States Senator allege that he is "the best Governor Pennsylvania has had in fifty years," may be overlooked. Of course Dr. HALE never made such an assertion and the Senator is either a myth or an inmate of an insane asylum, but the Governor's brother IKE didn't besitate to quote them to the effect notwithstanding and then in characteristic PENNYPACKER style he proceeded to prove the proposition by citing some trifling economies advocated by SAM.

The truth of the matter is that PENNY-PACKER is the worst Governor this State has ever had. His administration has been grotesque whenever it wasn't venal and he has gathered about him a colony of new company will be made be ore the end of this month and the line will be constructed during the early spring months. big city. From DURHAM down there is hardly a man directly associated with his administration who is not open to suspicion aud scandals have been peeping out from every crevice in the executive office at Harrisburg since the moment that he was catapulted into the office of Governor. That he has not personally shared in the plunder is a matter of surprise.

JOHNSON TO HANG ON FEB. 23 Murderer of Miss Allinson Found

Guilty After Quick Trial.

Mount Holly, N. J., Feb. 9.—Rufus Johnson, the negro, who was arrested in Baltimore about a fortnight ago charged with killing Miss Florence W. Allinson, near Moorestown, N. J., on January 18, was placed on trial, convicted of murder in the first degree and immediately sentenced to be hanged on February 23. Because of the atrocity of the crime it was feared by the authorities that there would be a hostile demonstration against the defendant when he would be brought into court, but no unseemly incident marked the trial of the case. There was a large crowd in and about the court house all day, and Sheriff Norcross had a detail of deputies on duty in the trial room. He said he did not fear a lynching, but did not want to take any chances. Johnson, who had been in mortal fear of mob violence, sat unmoved throughout the proceed

GUILTY OF INFANTICIDE

Aged Woman Convicted of Killing Her

Philadelphia, Feb. 10.-Sarah Jones, 70-year-old woman, was convicted of murder in the first degree in the court of over and terminer here for the killing of her foster daughter's child within a few hours after it was born. The case is a pathetic one, and excited the sympathies not only of the lawyers on each side, but also those of the trial judge and the jury. Miss Mary Jones, the mother of the dead child, and Frank Jones, the son of the aged woman, are also under indictment for complicity in the murder of the infant.

The evidence produced at the trial showed that when the child was born the grandmother asked the attending physician to chloroform the babe, which he promptly declined to do. The doctor notified the police of his suspicions, and an investigation showed that the child had been asphyxiated with the deadly drug. Counsel for the defense contended that the evidence was only circumstantial, and that to guess what the grandmother had done would be a travesty on justice.

Since about 60,000 names of phantom voters were stricken off the voting lists last February it is surprising to politicians and city officials that so have been found. It was thought that the lists had been thoroughly purged during the fall and there would be comparatively few names to be taken off for the spring election.

But the computation completed by a special staff of clerks in the depart. ment of public safety of the returns made by policemen throughout the 1100 divisions of the various city wards disclosed that 23,783 were improperly assessed.
