RESIGNS HIS OFFICE

Works of Philadelphia, Quits.

Philadelphia, March 6 .- A. Lincoln Acker, director of public works of Philadelphia, resigned his office, to take effect at once. Thomas L. Hicks. former postmaster of this city, and the present assistant director of public works, was immediately appointed by Mayor Weaver as Mr. Acker's successor. The resignation and appointment came as a great surprise in political circles, and there had not been the slightest public intimation that Director Acker was about to step out of office. His reason for resigning was that he wished to return to private business. Mr. Acker was appointed director of public works last May, succeeding Peter E. Costello, who was dismissed from office by the mayor during the gas lease fight.

Rumors in circulation to the effect that the mayor and Director Acker were not in accord and that the resignation was the result of friction were promptly denied by the mayor and Mr. Acker when the rumors were called to their attention. The mayor said there had been no differences between them.

TWENTY-FOUR DEAD IN TORNADO

Will Reach \$1,000,000.

Meridian, Miss., March 5 .- Twentyfour people were killed as a result of the tornado which swept over a section of this city, and 46 persons were injured and property with an estimated value of \$1,000,000 was demolished or otherwise damaged.

The tornado which played such havoc appeared in the southwest. A low, funnel-shaped cloud was seen to form near the city. A heavy downrour of rain had been falling, when suddenly the humidity became intense. With a roar that could be heard a great distance the storm approached from the southwest and descended upon the city. The greatest loss of life is reported from the east end, in what is known as the "cotton mill" settlement. The large cotton mill there was partially wrecked and probably 400 small houses were demolished or badly damaged. The tornado swept Front stret and wrought great damage there. Many houses were demolished and oth-
