

Time and Eternity.

The stream of time never runs dry, and the ocean of eternity will forever send its mighty surges mountain high against the bank of time's little stream, sweeping with each receding billow over its expansive bosom the frail human craft from the shore of time, with earth's happiness, human affection, toil, trials, tears and sin, to the eternal shore of celestial beauty and bliss. Oh, mighty ocean of eternity, your wonderful anthem of life and death brings eternal weal and condemnation to him who is untrue to himself and his divine pilot, but to the trusting, faithful man it sings of endless felicity in the presence of time who has redeemed his people from the bondage of sin and has swept them through the pearly gates.—Ducktown (Tenn.) Gazette.

The Wonderful Diatom.

One of the most wonderful things in vegetable life is a beautiful and minute class of seaweeds called diatoms. They belong to the seaweed family, yet they may be found by the thousands in any roadside ditch, fresh or salt water lake or even in cisterns, wells, springs, etc. Most species of plants are made up of an infinite number of little cells, but with the diatom it is otherwise. Each representative of this wonderful family of plants is formed of but a single cell and this so minute that it would require 2,500 of the most common form, laid end to end, to make a string an inch in length. Some species of diatoms have the power of independent motion, and on that account were for some time believed to be animals.

Candy and the Flag.

The following is accredited to the late Senator Hoar: At a Fourth of July celebration in a Canadian town where both English and American guests were assembled the flags of the two countries were used in decorations. A frivolous young English girl, loyal to the queen, but with no love for the stars and stripes, exclaimed: "Oh, what a silly looking thing the American flag is! It suggests nothing but checkerboard candy." "Yes," replied Senator Hoar, "the kind of candy that has made everybody sick who ever tried to lick it."

Charity.

Charity is a universal duty which it is in every man's power sometimes to practice, since every degree of assistance given to another upon proper motives is an act of charity, and there is scarcely any man in such a state of imbecility as that he may not, on some occasions, benefit his neighbor.—Johnson.

His Advantage.

First Man—How do you do? Second Man—Beg pardon, but you have the advantage of me. First Man—Yes; I guess I have. We were engaged to the same girl, but you married her.
