THE PENNSYLVANIA

STATE COLLEGE

OFFERS EXCEPTIONAL ADVANTAGES.

TUITION IS FREE IN ALL COURSES.

MAKING EFFECT IN SEPT. 1900, the General Courses have been extensively modified, so as to furnish a much more varied range of electives, after the Freshman year, than heretofore, including History; the English, French, German, Spanish, Latin and Greek Languages and Literatures; Psychology, Ethics, Pedagogy, and Political Science. These courses are especially adapted to the wants of those who seek either the most thorough training for the Profession of Teaching, or a general College Education.

The courses in Chemistry, Civil, Electrical, Mechanical and Mining Engineering are among the very best in the United States. Graduates have no difficulty in securing and holding positions. **YOUNG WOMEN** are admitted to all courses on the same terms as Young Men.

THE FALL SESSION opens September 15th, 1901.

For specimen examination papers or for catalogue giving full information respecting courses of study, expenses, etc., and showing positions held by graduates, address

FIRST CARRIAGE IN MAINE.

How a Minister Came to Buy It and Why He Sold It.

The Rev. Francis Winter was a native of Boston and a graduate of Harvard college. He went to Bath early in 1767 and, after preaching on probation for the orthodox church, was invited to settle, which invitation he accepted. He was ordained in the autumn of the same year. He went to Bath on horseback in company with Lemuel Standish. Mr. Winter came from Boston, where he had associated with such eminent men as Adams, Otis and Warren, himself becoming an ardent patriot, taking the lead in the Revolutionary measures adopted in Bath during that memorable period.

Mr. Winter married Miss Abigail Alden in 1768, and it is through her that the Winters of today trace their ancestry back to the "Puritan Maiden of Plymouth."

Three years after the marriage of the Rev. Francis Winter and Abigail Alden they started to visit a sister of Mrs. Winter living in Connecticut and intended to ride all the way on horseback, but Mrs. Winter became so fatigued that Mr. Winter sold one of the horses for a carriage and harness. It was the first carriage that ever came into Maine and was called a chaise.

Traveling was so difficult that two negroes were employed to accompany them with shovels and axes to clear the road. Several times the chaise had to be taken apart and lifted over fallen trees. The minister's parishioners thought that it was putting on too much style for their pastor to ride in a carriage, and in consequence Mr. Winter sold it. This was in 1771. It was a two wheeled chaise, the body resting on leather braces, which were attached to wooden springs.—Lewiston Journal.

A DAZZLING EFFECT.

Old Time Illumination With Lanterns and Candles.

In these days of electric lights, with all their capabilities for brilliant illumination, it is amusing to read what the subjects of George II. considered a dazzling effect. A Frenchman visiting in London at the time of the coronation of that monarch in 1727 writes enthusiastically in praise of the lighting of the city as well as of a banquet display.

"Most of the streets," writes M. Saussure, "are wonderfully well lighted. In front of each house hangs a lantern, or large globe of glass, inside of which is placed a lamp which burns all night. Large houses have two of these suspended outside the doors by iron supports. Some even have four."

How one are light would have dazzled the good people of that day! "When the coronation procession entered Westminster hall," the writer continues, "the light of day was beginning to fade. Forty chandeliers, in

shape like a crown, hung from the ceiling, each having thirty-six wax candles.

"On the king's appearance all suddenly lighted, and every one in the room was filled with astonishment at the wonderful and unexpected illumination. Little cords of cotton wool, imperceptible to the eye, saturated with sulphur of saltpeter, spirits of wine and other ingredients, had been prepared and arranged so as to carry the flame rapidly from one candle to another. The arrangement had been so skillfully prepared that scarcely a candle failed to take fire."

For Dosing Oneself.

A physician recommends rochelle salts for amateur doctoring. He says that it is an excellent thing, several times a day, to take as much of the salts as may be put on a cent in a little water. That will sweeten the stomach and act as a very desirable spring medicine. He also speaks highly of soda, having no patience with those timid people who have an idea that it is a dangerous dose, doing some vague harm to the coating of the intestines. "Why, everything we eat, almost, has soda in it," he cried in disdain. "It is an admirable thing to take half rochelle salts and half bicarbonate of soda, as directed, several times a day. I know of few gentler and still more beneficial general medicines."

SPRING MEDICINE.

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last Spring I was all run down and got a bottle of it, and as usual received great benefit." Miss Bertha Borer, Stone, Vt.
