**PASSING ALONG THE STREET**  
 one windy, rainy day, a man was observed whose appearance made him conspicuous among other passersby. While they hurried along with faces expressing disgust and worryment, their clothes wet through and bedraggled he tramped contentedly along looking as unperturbed and as well groomed as if it were a bright June day.  
 The reason was he was wearing a Kuppenheimer Watershed. The coat was waterproof—the weather did not trouble him. He knew he looked well for it fitted him perfectly—just as a gentleman's coat should fit—around the collar and across the shoulders. It had that graceful "hang" which a well-made garment always has. As a result he was comfortable in mind and body.  
 The Kuppenheimer Watershed is to all appearances just a perfectly made, stylishly correct, light-weight overcoat, but the material of which it is made has been scientifically treated in a manner to make it waterproof. It's an "anyday" coat. Stylish all the time; waterproof when you need it. Made in various styles of which we have a complete assortment.
