

**President Sends New Beef Report.**

Washington, June 9.—In response to a request from the house committee on agriculture, President Roosevelt forwarded to Representative Wadsworth, the chairman of the committee, the report made to him by a committee of the department of agriculture regarding conditions in the Chicago meat-packing houses. Accompanying the report was a letter from the president, in which he points out that there is no conflict in substance between the Nell-Reynolds report and that of the agricultural department experts. It is said in the latest report that the packing house proprietors are manifesting almost "a humorous haste to clean up, repave and even to plan for future changes." New toilet rooms are being provided, with additional dressing rooms and clean towels. The report says that "the haste towards reform would have been amusing if it were not so nearly tragic."

The president says his investigations have not been completed, but that "enough has been developed in my judgment to call for immediate, thoroughgoing and radical enlargement of the powers of the government in inspecting all meats which enter into interstate and foreign commerce."

In the course of his letter to Mr. Wadsworth, the president says:

"To show the immediate and extraordinary change for the better which the mere fact of their investigation is already bringing about in the condition of the packing houses in Chicago it is only necessary to instance the following portions of a letter received from a most competent and trustworthy witness in Chicago whose name I will give the committee if it so desires:

**Report of Inspection.**

"Chicago, Friday, June 1st. — On Monday I began a tour of all the great packing houses—going first to Libby's, then Swift's.

"Tuesday all the morning discussed changes that ought to be made and caught a glimpse of the awakening at Armour's. In the afternoon visited the plant with the superintendent.

"Wednesday I rested and contemplated the 'awakening of packing town.' It is miraculous. Thursday did Nelson Morris with the superintendent. Nelson Morris has done much to make things better. By the time the next inspecting party arrives they will have still more new lavatories, toilet rooms, dressing rooms, etc. Cuspidors everywhere and signs prohibiting spitting. In most the awakening seemed to come by force from without. There was the slightest indication that the 'still small voice' was at work also.

"At Armour's, at my suggestion—I made no pretense of making an investigation, but frankly announced my desire to see things for myself and to get a fresh impression of conditions, since before the strike. On every hand there was indication of an almost humorous haste to clean up, repave and even to plan for future changes. Brand new toilet rooms, new dressing rooms, new towels, etc. Swift's and Armour's were both so cleaned up that I was compelled to cheer them on their way by expressing my pleasure at the changes.

"I wish to repeat that my investigations are not yet through. I am not prepared to make a final statement, either as to so much of the complaints as concern the management of the bureau of animal industry or as to certain of the graver charges in connection with the adulteration of meat products, as well as certain other matters. But enough has been developed in my judgment to call for immediate, thoroughgoing and radical enlargement of the powers of the government in inspecting all meats which enter into interstate and foreign commerce.

"Unfortunately, the misdeeds of those who are responsible for the abuses we design to cure will bring discredit and damage not only upon them, but upon the innocent stock growers, the ranchmen and farmers of the country. The only way permanently to protect and benefit these innocent stock growers, these farmers and ranchmen, is to secure by law the thorough and adequate inspection for which I have asked."

**Dedicated Their Temple.**

Boston, June 11.—One of the most remarkable religious demonstrations ever witnessed in New England occurred when the new \$2,000,000 Christian Science temple in the back bay district was dedicated. From every state in the union and from all parts of the world came members of that faith to be present at the dedicatory services. It was estimated that more than 40,000 Christian Scientists were in the city.

**Letter to J. K. Barnhart, Bellefonte, Pa.**

Dear Sir: Three gallons saved is \$12 to \$15 earned.

Mr. Hanford Platt, of Bridgeport, Conn., ordered 15 gallons Devco to paint his house and returned 3 gallons. His painter said it would take 15; a lead-and-oil painter, Hobbs & Wade Co. sold it. They say everybody has the same experience there. The reason is, of course: they are used to poor paint.

What is poor paint? Anything not Devco; some worse than others. Besides, paints wear about as they cover. Double the \$12 to \$15.

Yours truly,  
F. W. Devco & Co.

**Dedication Soldiers' and Sailors' Monument at Lewistown.**
