He went to work at one o'clock last Friday afternoon and in passing from one de partment to another got his high-topped shoes wet from the snow. He reached the boiler shop about 1:40 o'clock and after a few words with some of the workmen there mounted to an iron girder above the boilers to trim the lamp suspended there. He neglected to turn off the current and reaching up with his right hand he caught the small screw at the bottom of the lamp between his thumb and first finger. The touch was sufficient. The current of fully 3,500 volts made a circuit through his body. He became rigid and stiff and the workmen in the boiler shop were horrified to see him

plunge forward and fall to the top of the boilers. All knew what had happened and quickly as possible he was lowered to the floor and a physician summoned. For fully an hour every effort possible was made to

no avail. Deceased was a son of the late Harry E. and Bertha A. Cox, of Milesburg. He was born at Bellefonte on December 16th, 1885, and was thus aged 21 years, 1 month and 2 days. When the Penn Hall post office was discontinued and the rural system adopted, and in order to secure as formerly two daily mails, quite a large number of citizens engaged the retired mail carrier to continue his trips to Spring Mills post office twice a day at their expense, which he did until the 15th inst when the trips were discontinued, and now all depends on the rural delivery.

On Sunday last, we had high, cold winds, tornado like all day. In the afternoon quite an excitement was created on the "hill" by a flue in the old Spring Mills hotel building, now occupied by two or three families, taking fire. The high wind prevailing scattered the sparks in every direction making it look very threatening, but fortunately it resulted in no damage. About the same time one side of the barn belonging to C. P. Long was blown down which of course added to Whew but it was cold Wednesday morning the excitement.

374.96 HAS MANY ANCESTORS LIVING .- MOS children feel themselves lucky if they have two grandfathers and two grandmothers living, but five year old Wilbur Rider and his baby sister Adaline, children of Mr. and Mrs. Will Rider, of Bush's Addition, have not only their four grandparents living, but their four great grand-parents and

two of their great great-grand parents. The line of ancestry is as follows : Will Rider was married to Miss Bertha

Gentzel, who are both living, as well as Robert Gentzel's father and mother, Mr. and Mrs. Henry Gentzel, of York, and both of Mrs. Robert Gentzel's parents, Mr. and Mrs. Henry Bartley. On the father's side both his parents, Mr. and Mrs. Henry Rider, are still living, as well as Henry's mother, Mrs. Abner Rider, and Mrs. Henry Rider's mother, Mrs. Florey, of Pleasant Gap. Thus in the ancestry of five generations only the two great great-grandfathers of the little Rider children have died, all the others being yet alive, an ancestry that

is probably not equalled by any other family in the county. FRIEZE-WAGNER.-Franklin A. Frieze and Miss Edith E. Wagner were married at the home of the groom's parents, Mr. and Mrs. Israel Frieze, near Milesburg, on proving. Wednesday of last week. Rev. J. # "The Bible of the Body,"

That title has been aptly given to Dr. Pierce's Common Seuse Medical Adviser, because to the physical nature it is a "light unto the path and a lamp unto the feet." In this book the physical life and its mysteries are dealt with in the plainest Erglish. From life's Genesis, wandering hu manity is followed through desert and wilderness, and before it is always set the Promised Land of perfect health and happiness.
