

Lemont.

Last week, taking it all through, was cold and disagreeable.

Number four came to the happy home of H. F. Houtz, Saturday, and it was a boy.

Elmer Mulberger, of Bellefonte, visited among friends in these parts Thursday of last week.

Tuesday evening brought us one of the worst snow storms of the winter, with the wind at about a thirty mile gait.

By all appearances the people have ice enough and some to go to waste for the ponds are covered and no one touches it.

Thomas Fisher opened the moving ball last Wednesday by moving from the old Aston house to the Holt property out in the Barrens.

Mr. Ferree had the misfortune to have a horse badly kicked on Tuesday night, for which he had to call Dr. W. H. Fry to put in a number of stitches.

Schreck Bros., our bustling blacksmiths and buggy agents, are doing a big business this spring. Last week they got a car load of new buggies that will soon be sold.

The people of this town were surprised when they heard of the wedding of John H. Shuey and Mrs. Maggie Armstrong, last Thursday, but all wish them much happiness.

The robin red-breast has made his appearance with cheer-up-cheer, and that looks encouraging, for the ground-hog has given such disagreeable weather the people need to be cheered-up.

The United Telephone company is having two more wires put up on the line between State College and Lemont, and the patrons say it is not one day too soon to make the service what it should be.

Waldo Homan, B. F. Homan's oldest son, returned to the hospital last Friday to have another operation performed on his head, this being the third time since his thirteenth birthday, but this one will not be very serious.

George Mitchell had the great misfortune to fall, last Thursday, while walking around his sled, seriously hurting his shoulder by falling upon it, but the doctor thus far has not found any broken bones and it is hoped that he will be all right soon.

Spring Mills.

Our ice houses are all filled. Of course we are very happy in consequence.

J. L. Hutchinson, of Buffalo, N. Y., was a business visitor here last week.

There will be quite a number of changes and removals in our village on the first. Dwellings are scarce.

Ripka's are closing out their entire stock at less than cost, and will discontinue business on the first of April. E. Finkle, of Rote, will occupy the premises.

Our merchants report a very fair business during February. The continued cold weather gave them an opportunity to unload themselves of an over stock of woollen goods, not a very desirable stock to carry over.

Very cold and stormy weather just now. His hogship was about correct with his movements indicating, as is said by some old women, a continuance of six weeks more of winter. We have been having it in earnest.

J. H. Rishel has stone and lumber on his lot next to the postoffice, and will commence building his store room and residence the moment the weather permits. At present Mr. Rishel is doing business at Farmer's Mills.

The A. B. C. club of this village is decidedly a very active and progressive organization of young ladies. Every alternate week they have a literary and musical entertainment for their own special benefit and edification, which is certainly very commendable. Their next meeting will be at the home of Miss Anna M. Cummings on Friday evening next. The following program has been arranged for the occasion:

Music by the club.....The March Wind
Select Reading.....Miss Helen Weaver
Recitation.....Grace McClellan
Music, Duet.....Eleanor and Mabel Long
Dialogue.....Irene and Gertrude Muser
Instrumental Music.....Lodie Rishel
Music by the club.....A Hundred Years Ago
Select Reading.....Miss Anna M. Cummings
Essay (Boys).....Katharine Meyers
Music by the club.....Love at Home

Susan Kern et al to Geo. S. Frank, May 21 1906, 2s 23p in Penn twp; consideration \$1.00

When is a sticking plaster like a sponge? When porous.

Wisconsin Man Sends Resignation to Gov. Davidson.

WILL RESUME LAW PRACTICE

Washington, March 4. — Senator Spooner has written a letter to Governor Davidson, of Wisconsin, tendering his resignation as a senator of the United States, to take effect May 1 next. The letter was dated Saturday, but the fact that such a letter had been written or that Mr. Spooner contemplated resigning did not become known in the senate until late Sunday, when it created great surprise, and the Wisconsin senator at once found himself the subject of many anxious inquiries. To all he replied that his mind was fully made up. He had found, he said, that to continue in his present position would require a sacrifice on his part that he could not justify himself in making. In reply to questions, he said he would resume the practice of the law, but declined to say whether he would be located in Wisconsin. He did say, however, that he would continue to be a citizen of that state as long as he lives.

Vice President Fairbanks was one of the few public men to be made acquainted with Mr. Spooner's plans before he wrote his letter. The knowledge came to him through the personal confidence of the senator, but the latter made no official communication on the subject to either the senate or its presiding officer. The law does not require that a resigning senator should do more than Mr. Spooner has done, but some senators who have resigned have given notice to the senate. Mr. Spooner served 16 years in the senate.

SAW SEA SERPENT

Monster, Spouting Blood Red Liquid, Nearly Wrecked Launch.

Atlantic City, N. J., March 2.—Captain H. H. Parker, of the gasoline launch Goldy Budd, arrived home after a startling trip to sea. When about seven miles off Ocean City the captain says his launch was so badly damaged by a sea monster that he was forced to put into Great Egg Harbor Bay. When the launch struck the sea monster the propeller was torn away. Captain Parker says the monster was about 100 feet long, looked like a sea serpent, blew like a whale, but instead of water being spouted the fluid emitted was of blood-red hue, and made the water around the boat as red as blood. The captain and his crew of six men say that they will make affidavits that the story is true in every particular. Captain Parker says that he discovered the wreck of a four-masted schooner a few miles off Ocean City. The topmast was several feet out of water, and was painted black while the spars were painted yellow. A short distance from where the schooner was located, another wreck, apparently that of a barge, was sighted.

KILLED IN ELEVATOR

Female Operator Crushed to Death in Philadelphia.

Philadelphia, Pa., March 4.—Martha Peterman, an elevator operator at the Y. M. C. A. building in this city, was crushed to death by the lift she was running. She had run the elevator up to the eighth floor, where she left it standing while she went to breakfast. The elevator had dropped several feet below the floor when she returned. Miss Peterman lay down on the floor to reach the controller and run the lift back to the floor level. In doing so she turned the lever the wrong way and the car descended, crushing her head. This is the first fatal accident to a female elevator operator ever reported in the city.

Should Hang This Brute.

Pittsburg, Pa., March 2.—While the 9-year-old daughter of George Huffman was on her way home from school in East McKeesport, she was dragged into a woods and assaulted by James Wilcox. A posse found him hiding in some woods near where the girl was found. He was sent to jail without bail to await trial. The child is in a serious condition.

SOME DEMANDS ARE REFUSED

Harrisburg, Pa., March 2.—The men of the Harrisburg yards of the Pennsylvania railroad are said to have voted 90 per cent. for a strike. Enola and Sunbury are also reported to have cast a heavy strike vote.

The first official announcement of the position of the Brotherhood of Railway Trainmen in the controversy with the company was made public here. The announcement is addressed to all trainmen of the Pennsylvania railroad east of Pittsburg and Erie and explains in full the Brotherhood's side of the contentions which have resulted in a strike vote on the whole eastern section of the system.

The men demand a shorter day and a more equitable wage scale, and they claim that for several years they have endeavored to obtain from the company a uniform wage schedule and code of rules applicable to working conditions, which schedule would show employees just what compensation they were entitled to receive for service performed.

In the main a code of rules was worked out recently at a conference between the company officials and the grievance committee, but the trainmen claim there are a number of rules which involve an increase, which General Manager Atterbury refuses to grant.

The announcement concludes as follows:

"While it is not our intention to say anything on the subject matter that will influence our members from fairly and justly considering this statement as submitted, yet we believe, in justice to you, you should know that the general manager has not given the consideration which it merited, as we have been since December 4 until the present time trying to negotiate a settlement which, owing to the general manager's attitude, has been very expensive to our members."

The statement is signed by the members of the grievance committee and other officials of the trainmen interested.

SIX DEAD IN MINE HORROR

Eight Men Frightfully Burned in Explosion at Taylor, Pa.

Scranton, Pa., March 4.—The gas explosion at the Holden colliery of the Delaware, Lackawanna & Western company, at Taylor, was not as serious as first reported, although it has resulted in the death of six men and possibly fatal injuries to two more. There were 12 men all told who received burns or other hurts, and eight of these were in such a serious condition that they could not leave the hospital. Six of the eight died. The list is as follows:

Dead are: William Z. Williams, Joseph Kozepaki, Michael Waznik, Andrew Zerwiski, Thomas Williams, son of W. Z. Williams; John Jozerva.

Injured are: Frank Conoski, Gusta Orokoski.

The explosion was a terrific one, and tore down doors, brattices and all sorts of timber holding up weak places in the mine and did much damage. Fortunately fire did not follow. A rescuing party at once went down the shaft, and near the foot found eight men slowly being asphyxiated. The rescuers also felt the effect of the gas, and quickly as possible they placed the men on the shaft lift and removed them to the surface. There it was found they had been badly burned about the face and body.

There is a second opening in the mine some distance away, and the uninjured men in the mine escaped through this opening.

FROZEN TO DEATH

Farmer Lost His Way in Blinding Snow Storm and Perished.

Uniontown, Pa., March 5. — Jacob Bowman, a farmer, aged 66 years, living seven miles from Wypm's Gap, in the mountains, was found in a snow drift, frozen to death. He had lost his way while returning home in a blinding snow storm. Sunday was one of the worst days ever experienced in the mountains. A fine snow prevailed all day and the wind blew a gale. Bowman leaves 15 children.

Eckenroth Brothers.

A TRIP TO ATLANTIC

Won't do you half as much good as a trip to our store to see the dainty and up-to-date line of

—) WALL PAPERS (—)

we are putting on the market for the Spring Trade. They are good reliable goods at reasonable prices within reach of all.
