Entitled to Re-Election.

Associate Judge WILLIAM KRICKBAUM. of Bloomsburg, is a candidate for the nomination of his party to succeed himself. It is a rule of the party in Columbia county to give two terms whenever the law permits and the incumbent deserves the favor! Judge KRICKBAUM has served one term with credit to himself and advantage to the county. He has made enemies but they are of the class that makes right-minded men love him. He has antagonized the peace and imperils the tranquility of socie- effect.

Judge KRICKBAUM is accused of being a political tenets enunciated by JEFFERSON and strengthened by JACKSON and in his capacity as a private citizen he contends for them with zeal and energy. But on the bench he is neither partisan nor politligent. "With malice toward none and charity for all," he "hews to the line, let the chips fall where they may."

There are especial reasons why the Dem ocrats of Columbia county should elect an earnest and virile Democrat to the office of Associate Judge this year. Because of a disagreement which was without reason and not entirely free from suspicion, the splendid young Democrat who was the choice of the party in the county, Hon. JOHN HARMON, was defeated for election at the polls, last year, and a Republican elected. In the matter of adjudicating differences between litigants it doesn't matter much whether the judge is of one party or the other. But in construing laws and policies the political training of a man is of the greatest consequence, and having elected a Republican to the presidency of the court, it is a political necessity to elect a capable and earnest Democrat to the office of Associate Judge. Mr. KRICK-BAUM measures up to the standard and he ought to be nominated and elected.

--- Monday Peter Mendis was at Milesburg gathering rags, junk, etc. Wishing to do a little buying in one of the stores he drove his horse into the shed at the old Wagner mill and left him stand without hitching. The animal evidently was thirsty for it started for the creek and in wading into the stream floundered in a deep hole. Of course the only thing for the animal then to do was to swim and it started across stream. At that point the water is quite deep and when in midstream the water lifted the wagon bed from the running gears of the wagon and upset all the junk with the result that the whole load was washed down stream. The horse swam across the creek and going up the bank into the road ran as far as Else's store where it | She was a daughter of Mr. and Mrs. James was caught. With the assistance of some H. --- We have thus far omitted to men-

tion the fact that Samuel McClure has returned from Princeton and is now in the Bellefonte postoffice as assistant mailing clerk; a position, however, he only expects to fill until the opening of college next fall when he will return to Princeton to resume his studies in the theological department. In this connection it might be mentioned that there now are not more than one or two persons on the waiting list who have successfully passed the civil service examination and eligible for appointment to a position in the postoffice service and it is a wonder that such is the case. Any kind of a position in the postoffice service pays a salary of six hundred dollars a year, or fifty dollars a month, to begin with, while there is always a sure chance of promotion, and why more bright young men do not take the civil service examination and become eligible to appointment instead of engaging in occupations which pay smaller salaries, is hard to understand.
