Rev. J. E. McKelvey will preach the Memorial sermon to captain J. O. Campbell Post 272, G. A. R., in the Methodist church, Sunday May 26th, at 10:30 a. m., to which everybody is cordially invited.

Rev. W. K. Harnish last Sunday gave due notice to his flock that there would be no preaching service until the first Sunday in June in the evening. Mr. Harnish has been elected a delegate to the general as sembly at Columbus, Ohio.

As is the custom of Tussey Council 515, of this place, when a member gets married he furnishes a wedding cake to be downed at next council meeting-this time George Potter was the lucky groom and his good wife's cake was hastily lost sight of in the council chamber last Saturday evening.

Rev. C. C. Snavely, of State College, will deliver the address at Pine Hall at 6 o'clock p. m. All the civic orders as well as Sunday schools are cordially invited to assist in strewing flowers over the mounds of our fallen heroes. Decoration of the graves in the Meek and Tadpole cemeteries will be made by a detail from Capt. Campbell post.

The Edwin Bell company, of Pittsburg, who are operating a stave mill at Gatesburg, had five car loads of staves sawed and shipped during the month of April. Levi Garver is the contractor. Last week the company purchased 358 acres of land on the Ridge near Petersburg where a saw and stave mill will soon be put in operation. Harry Chaney will do the stocking and it will take four years to cut it out.

The Old Better than the New.

From the Connellsville Courier.

Over in Ohio they don't spend the better part of the sessions of the Legislature in palavering over impossible primary laws under State supervision, but permit each political party to make their own rules when it is desired to ascertain the party sentiment as to Senator or President. Perhaps, after all, it is the better way. One thing is certain in Pennsylvania, namely, that the old plan was better than some of the new ones proposed.

His Home Dynamited.

Richmond. Va., May 7 .- The house of Robert Woodson, a negro, of Henrico county, was completely wrecked by an explosion of dynamite. ing formal statement:

"At the executive session of the capitol investigating commission it was decided to dispense with public hearing of testimony until the reports ties. The board of governors, the adof the auditors and experts now at work are completed.

"The examination of all bidders and sub-contractors within reach of the commission's subpoena has been about completed. It is essential for the work of the commisssion that before going into the final line of inquiry that all possible information be in possession of the commission and its counsel. For these reasons, as well as the further one of securing time to make search for additional testimony, the action was taken.

"It was also decided by the commission to have prepared and presented to the legislature a resolution permitting the capitol investigating commission to continue its work after the adjournment of the session."

A New Orleans Dish.

The greatest, the most toothsome and sustaining of all dishes is the gombo file one encounters in New Orleansnot at public eating houses, but in private residences. It is a strange yet halcyon compound of five different integers, each cooked separately and afterward joined in a most delectable and fragrant mess. There are fried chicken, broiled bacon, stewed oysters, peppers and smothered onions, all prepared with unutterable skill. These one by one are emptied into a pot of most celestial "stock," and then when the conglomeration is complete for service the presiding genius of the kitchen pours into the ecstatic confection a shower of fine green dust-the powdered leaf of the sassafras-and there you have a plate that would have

made Lucullus gasp in simple wonder. There is none like it nor shall be till our summers are deceased .- New York

Hammers.

Sun.

Hammers are represented on the monuments of Egypt twenty centuries before our era. They greatly resembled the hammer now in use, save that there were no claws on the back for the extraction of nails. The first hammer was undoubtedly a stone held in the hand. Claw hammers were invented some time during the middle ages. Illuminated manuscripts of the eleventh century represent carpenters with claw hammers. Hammers are of all sizes, from the dainty instruments used by the jeweler, which weigh less than half 52-19-1t ASK YOUR DEALER an ounce, to the gigantic fifty ton hammer of shipbuilding establishments. sponsible for the crime, though he declared that he did not know he had an enemy.
