Primary Elections Tomorrow.

Ismorrow will be the first experiment of the new primary elections law in Centre county and naturally the result will be watched with considerable interest. While not very intricate it is, however, replete with so many stipulations and provisos that it is hardly likely they are all known by more than one-tenth of the voters in the county. So for the benefit of WATCHMAN points of the law :

The polls will be open from 2 o'clock until 8 o'clock p. m., and the election will be conducted by the general election officers, who will receive half the amount of the pay for a general election.

The county commissioners are required to furnish the ballots and pay all necessary expenses.

The qualification of electors entitled to vote at a primary shall be the same as the qualifications of electors entitled to vote at elections within the election district where such primary is held.

No elector shall receive any assistance in marking his ballot unless he shall first make an affidavit that he cannot read the names on the ballot, or by reason of physical disability he is unable to mark the ballot.

At the polls Republicans will call for Republican ballots and Democrats for Democratic ballots. Republicans caupot vote Democratic ballots nor Democrats Republican ballots, and any attempt to do so will subject the voter to having his vote challenged and rejected.

That our readers may know just who they are entitled to vote for we below give a list of all the candidates as properly registered in the office of the county commissioners

In addition to his extensive insurance business he is really a farmer. At present he has quite a large acreage in wheat, corn and potatoes, requiring his personal supervision more or less, and not with standing this duty, he is on the read nearly every day obtaining new business, adjusting losses, or attending to some important business for the companies. Mr. Jamison holds a very responsible position, in fact, acts in a dual capacity, as confidential agent and adjuster. When the loss is total, he immediately advises the company of the fact, and within twenty-four hours after his notification, he is in possession of a check covering the amount of the policy. Partial losses are also settled just as promptly after adjustment. It is owing to the prompt payment of all losses, and the high rating of the companies he represents, that Mr. Jamison has doubled his business during the past year.

- In thousands of homes throughout this Commonwealth and in every community in which honor is prized and merit appreciated, the announcement of the death of DALLAS SANDERS, the other day, caused a feeling of hereavement. Mr. SANDERS was widely known and highly esteemed and though his life was not long or his activeness widespread, he did what he could to increase the sum of human happiness and achieved much. As the esteemed Philadelphia Record curtly expressed it, "he was a good citizen and a good Democrat," and no stronger panegyric could be written.

----- No doubt ROOSEVELT is de-light-ed with the prospect of Senator KNOX being a candidate for President. He knows that the supporters of KNOX don't want him nominated and that if he were out of the way the cohesive power of public patronage would entice the Pennsylvania delegation to TAFT, who is his own "dummy." IRON AND STEEL EXPORTS

Will Aggregate \$177,000,000 For Fiscal Year.

Washington, May 27 .- Iron and steel exports from the United States in the fiscal year which ends with next month will aggregate approximately \$177,000,000 in value, against \$57,000,-000 a decade earlier, and \$16,000,000 two decades earlier, according to figures issued by the bureau of statistics of the department of commerce and labor. The value of iron and steel manufactures exported in the 10 months ending with April, 1907, was about \$150,000,000.

This rapid growth has brought iron and steel manufactures far in the lead of any other group of manufactures in the export trade of the United States.

MOTHER KILLED BY CHILD

Shot By Five-Year-Old Son While Playing With Shotgun.

York, Pa., May 27 .- Mrs. Frank Doll, aged about 35 years, was acoidentally shot and killed by her 5-year-old son. Ernest. The accident occurred in the kitchen of the family residence. Left alone, the child was playing with a shotgun. Securing a shell from a box on the table Ernest loaded the gun. As his mother entered the room the gun was discharged, and the shot entered the right side of her head, shattering part of the skull. A coroner's jury rendered a verdict of accidental death.
