

Democratic Watchman

Bellefonte, Pa., July 12, 1907.

IS NO MENACE TO JAPAN

Oyster Bay, July 8.—The significance of Rear Admiral Brownson's addition to the somewhat meagre information which had come from President Roosevelt regarding the contemplated two-ocean manœuvres of the Atlantic battleship fleet, is regarded here as having been overlooked in the comment which has since been indulged in on both continents. Admiral Brownson came to Oyster Bay to take lunch with the president, professing entire ignorance of the manœuvres plans. When he left Sagamore Hill the admiral had one thought which he wished emphasized—that it was desirable and important to demonstrate to the world how quickly the American navy could transfer its fighting strength from one ocean to the other. This was distinctly an addition to the president's previous statement, issued through Secretary Loeb, wherein the object of the manœuvres was said to be an exercise movement for the benefit of the navy, to perfect its training in fleet exercise on an extended scale, the purpose and effect of the plan being for the benefit of the navy alone.

In everything that has come from the President regarding the movement, it has been indicated that the fleet, wherever it may go, is to be brought back to the Atlantic, and that the return is to be as much a demonstration of speed as the outward journey.

While it is asserted with all possible emphasis that there is no foundation for apprehension of trouble, immediate or future, between the United States and Japan, the proposed demonstration with the fleet can be looked upon in no other light than that President Roosevelt intends to use the American navy for exactly that purpose for which he has advocated its augmentation—a guarantee of international peace.

Japan Calm, But Surprised.
Tokio, July 8.—Confirmation of the report that a powerful battleship squadron would be sent to the Pacific has been generally received with calmness, though there is some surprise in certain quarters well versed in diplomatic niceties. Though it is officially stated that the dispatch of the battleships to the Pacific is not directed towards Japan, it is felt here that it is most inopportune when an attempt is evidently going on to impair the traditional friendship between Japan and the United States.

We Are Acquiring Japan's Enmity.
London, July 8.—The present tension between the United States and Japan is exciting the keenest interest among all the European diplomatists. None of them, however, believe that it will reach the stage of warfare, because the heavy burden of debt Japan is carrying as a result of her failure to obtain indemnity from Russia forbids her embarking on a similar costly enterprise in the next decade. It is recognized nevertheless that the United States is acquiring the enmity of Japan as one of her national assets which may prove a handicap in the event of trouble with any other power.

Germany Thinks It Means War.
Berlin, July 8.—The conviction of an ultimate conflict between Japan and the United States appears to be widespread in Germany. It is believed by many that the group of ruling statesmen in Japan are preparing to fight the United States for the mastery of the Pacific, regardless of the San Francisco incidents.

FELL ON TROLLEY WIRE

Boy Electrocuted After Tumble From a Bridge.

Philadelphia, July 5.—Thomas Foster, aged 14 years, of Glenside, a suburb, was electrocuted near his home by falling from a bridge across a heavily charged trolley wire. The boy walked out on a trestle bridge that carries the Reading railroad over the Glenside trolley line. He leaned over the side of the bridge, looking for a paper balloon which had fallen nearby, and permitted a piece of wire he had in his hand to dangle against the trolley wire running along the under side of the bridge. He received a shock and fell over the bridge and upon the heavily charged trolley wire, where he hung suspended for a time, while the electric current passed through his body until he fell to the street. When he was picked up it was found that the trolley wire had burned deeply into his neck.

POSSE PURSUES BRUTE

Girl Assaulted Near Pittsburg and Lynching Threatened.

Pittsburg, July 8.—Elizabeth Medegar, 14 years old, the young daughter of prominent and wealthy residents of West Newton, Pa., near here, was assaulted by a man for whom the authorities and three parties of citizens are now searching. One posse, headed by relatives of the girl, is heavily armed and a lynching is threatened.

The girl is under the care of physicians and her condition is critical. The assault occurred at an old quarry in the woods near the girl's home, where she was found almost dead several hours later by persons who chanced to pass the place.

Dog Saves Baby From a Wild Hog.
Rockport, Ky., July 8.—Attacked by a wild hog, which had come out of the woods in search of food, a 2-year-old child of James Mogan, though badly mangled, was saved by a St. Bernard dog which had been left to guard it. The child had wandered from his home and the hog attacked it with the evident intention of eating it. The dog attacked the beast, and, although it was badly mangled by the animal's tusks, succeeded in driving it off.

Rats Caused Fatal Fire.
Pittsburg, July 8.—One man was killed, another seriously injured and damage to the extent of \$15,000 was done by fire which originated in a barber shop owned by Joseph Degonhait, Carson street, in the South Side district, and spread to four adjoining buildings. Rats are thought to have uncovered an electric wire, causing the fire.

Child Dies of Alcoholism.
Greensburg, Pa., July 9.—Andrew Stephen, 4 years old, son of John Stephen, is dead at his home at Whitney, Unity township, of acute alcoholism. The child found a pint bottle of whiskey and drank it all, dying four hours later.

Walked Mile With Fractured Skull.
Northport, L. I., July 9.—Reuben Appel, 17 years old, fell from a cherry tree, striking on his head and fracturing his skull. He walked a mile to his home, where a physician was called, but the boy died soon afterward.

HIT BY LIGHTNING AND LIVES

Man Burned From Neck to Toes May Yet Survive.

Crown Point, Ind., July 6.—While switching cars on the Panhandle railway, brakeman Neff was struck by lightning, and, although a shoe was torn to shreds, a number of keys and some money was melted together in a pocket and his body was burned from the neck to the end of his toes, he may yet live to tell of his experience.

After being apparently dead for several hours, attending physicians say that he will revive and will probably survive the shock.

Part of Irish Regalia Stolen.
Dublin, July 8.—A portion of the state regalia, valued at \$250,000, has been stolen from Dublin castle. The safe in which the regalia was kept was forced. The jewels stolen were those used in the ceremony of investiture in the Order of St. Patrick, the processional cross studded with diamonds and the jeweled sword which is borne in the procession at the investiture of the knights. Sensational developments are expected.

Almost every woman suffers from "female weakness" in some form. There is no need to exhaust the sufferers from the more serious forms of such disease that active steps should be taken to effect a cure. Pain and suffering deliver that exhortation every day. It is the fortunate woman whose disorder is seemingly slight who needs to be warned. Just a brief use of Dr. Pierce's Favorite Prescription in her case will establish her in good health. Neglect always means complications and slower cure. Women who suffer from chronic forms of diseases of the womanly organs, are invited to consult Dr. Pierce, by letter free. All correspondence confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

A traveler putting up at a fifth-class hotel, brought the "hoots" of with his angry storming.

"Want your room changed, sir?" inquired the "hoots."

"No," replied the guest, scorchingly. "It's the fleas I object to that's all."

"Mrs. Blobs!" hawled the "hoots" in an uninterested sort of voice, "the gent in No. 8 is satisfied with his room, but he wants fleas changed."

Travelers Guide.
