DALE AND BENNETT'S LUMBERING issued invitations for the marriage of their OPERATIONS .- On Sunday afternoon a trio foothills of the Alleghenies, in the section known as Bush Hollow, to see the Dale and Bennett lumbering operations, and there they found A. A. Dale Esq., almost as much a son of the forest as the primeval Indian on his native heath. And all around were evidences of the fact that their operation there is not a small one in the least, but it will require an unusual

amount of hard labor and considerable in-

genuity to get some of their timber to the

mill for entting. The mill, by the way, is located in a quadrangle, at the base of four mountain peaks, the entire plot being less than an acre in extent. On this is located their clay of an excellent quality. He is now mill, which is quite a large one with a new engaged in prospecting for both clay and Peerless engine to furnish the power; coal on lands on the Allegheny mountains their log skids, lumber yard, etc., while from it leads the narrow guage railroad on which their logs are brought to the mill. They have considerable lumber sawed and piled up and have already marketed some. Just now they are working on a good or-

der of bill stuff for an Altoona firm. At least fifty per cent. of their timber is located far up the mountain sides and to out this and get it to their mill will be no easy job, but once they have it there and at Chatuauqua, N. Y. cut up there will be no trouble disposing of it at good prices.

Mr. Dale and his men occupy a twostory house which is kept for them by Mr. and Mrs. McCloskey, so that he naturally enjoys many of the comforts of home. One thing he does have there that is the equal of Bellefonte and that is the water, as from for her home in Piliadelphia. a spring situated close by the house gushes forth the purest and coldest kind of water. The only drawback this spring has been that there is no trout in the stream near there, else Al. would doubtless have had trout breakfasts most every morning, but he anticipates making up for this when

IN CAMP HOMER J. LINDSAY. - Bellefonte has missed a number of her "favorite duty as soldiers of the Commonwealth in the annual encampment at Camp Homer J. hart. Lindsay, at Tipton. Owing to the fact that this is the first time in a number of years that the camp bas been located so near quite a lot of Bellefonters have taken advantage of the fact to visit the soldiers. Of course they found them just as it was expected they would, every one of them as much a soldier as Centre countians always are. Aside from that there has been nothing new or unusual in their camp life. The have been performed with machine-like precision and through it all the boys of company B as well as the hospital corps performed their parts nobly. With the exception of one or two cases of heat prestration every man has so far stood the test of is the next youngest colonel in the brigade, has received many words of praise on the fine showing of the Fifth regiment, a fact due to his untiring energy since he was elected colonel only a few months ago.

The attendance at camp has been quite large. On Sunday it is estimated that fully -Rev. and Mrs. W. K. Foster and son Herbert, twenty thousand visitors were present. In fact the crowd was so great that both the Pennsylvania railroad and the trolley company's facilities were congested and they were unable to handle the people on schedule time. Yesterday, Governor's day, the crowd was also quite large but not as big as on Sunday. Today the soldiers will break camp and most of them will have the Faxon home on east High street the past left for their homes before evening. The Fifth will be the last regiment to leave so that company B will not reach home until
