

NEARLY LYNCHED BY MOB

Foreigner Shoots Down Chum in Cold Blood at Blair Station, Pa.
Pittsburg, Aug. 6.—After shooting down his chum in cold blood and then attempting to chop the body to pieces with a hatchet in the street at Blair Station, 24 miles from this city, Adam Lachach, a foreigner, was rescued from a mob that tried to lynch him and was landed in jail at Clairton.

The shooting occurred in the main street at Blair, and was the result of a complaint of a misdemeanor made to the police by Joseph Warech against his friend, Lachach. The latter met Warech in the street and asked him why he had made the information. Before Warech could reply, Lachach shot him twice with a .38-caliber revolver. Mortally wounded, Warech fell, and Lachach drew from his clothing a hatchet. The shots attracted a crowd from a nearby hotel, and as they rushed to the scene of the tragedy Lachach threw away the hatchet with which he was about to strike his victim and ran for the hills. His way lay through the town. The crowd grew with every minute. He finally took refuge in a pile of brush. He was surrounded by the mob, and upon a demand that he give himself up he presented himself, armed with the revolver and threatened to shoot. In the meantime some of the crowd had worked around back of the brush pile, and before Lachach could shoot the gun was knocked from his hand with a club.

The man was immediately taken in charge by the mob, but A. L. Critchfield, superintendent of the Blair Iron works, summoned police from Clairton, and while cooler heads parleyed with the mob the police spirited Lachach away to the jail.

KILLED HER TWO BABIES

Insane Baltimore Woman Strangled Them in Her Home.

Baltimore, Aug. 6.—During a recurrence of insanity, which has caused her to be thrice confined in an insane asylum, Mrs. Christine Nenadal, aged 26 years, the wife of Joseph Nenadal, strangled her two small children, Mary, aged 2 years, and Yaroslav, aged a year and three months.

Mrs. Nenadal informed neighbors that she was going to dress the children and take them out. Not long afterward suspicion was aroused by sounds coming from the Nenadal home. Neighbors tried to enter, but found all the doors locked. A policeman, equally unable to secure admittance, finally broke open the door, but was too late to save the lives of the children. Mrs. Nenadal is under arrest.

TRAIN PLUNGES INTO RIVER

Forty-one Persons Drowned in French Railroad Accident.

Angers, France, Aug. 5.—Forty passengers in a third class railroad car and the engineer of the train were drowned in a railroad accident three miles southeast of this town.

The locomotive of a crowded local train jumped the track when entering the bridge over the river Loire. The stone railing gave way and the engine plunged into the river, 50 feet below, dragging down with it its tender and the baggage car and a third class car. The third class car was well filled with passengers, but although part of the roof was blown off by the confined air it sank, not a single passenger managed to extricate himself and all were drowned like rats in a trap.

ATTACKED BY SHARK IN BAY

Fisherman Grazed By Man-Eater While Wading For Oysters.

Bridgeton, N. J., Aug. 5.—George Kell, of this city, had a thrilling experience in lower Delaware bay. He was out of his boat, wading on what is known as the drumbeds, picking up natural-growth oysters, when he was attacked by a large man-eating shark, which made a lunge for him, just grazing his breast and making an ugly abrasion. Kell's companion fought off the shark while Kell scrambled into the boat and the shark darted off into deep water.

"Black Hand" Quarters Raided.

Shamokin, Pa., Aug. 5.—The Italian quarters in Marion Heights and this place were raided by state police sent here at the request of the Northumberland county authorities, who feared a lawless Italian outbreak at Marion Heights. Fourteen Italians suspected of being members of a "Black Hand" society were arrested. Citizens are signing a petition to be sent to Governor Stuart asking for the establishment of a permanent patrol of the state constabulary between here and Mount Carmel.

Secretary Wilson Ill.

Portland, Ore., Aug. 6.—Secretary of Agriculture Wilson is ill at a hotel here. He declines to see any one. Casper Wilson, the secretary's son, said that his father contracted a severe cold in his trip from Puget Sound to Portland, and that he had passed a restless night.

Girl Finds Dynamite; May Die.
Carmi, Ill., Aug. 5.—While picking blackberries, Ella Yates, an 18-year-old girl, found a box of dynamite caps. With a hairpin she undertook to pierce one in order to make a necklace. The cap exploded, tearing off her hand and probably fatally injuring her.

Lien Against Georgia Fair Building.
Norfolk, Va., Aug. 6.—Calligan & Co., builders, filed a mechanics' lien against the Georgia state building, alleging a debt of \$1052, that upon repeated requests had not been met by the Georgia commissioners.

BOY AS TRAIN WRECKER

Fastened Iron to Rail, But Was Detected and Accident Averted.

Doylestown, Pa., Aug. 2.—Norman Farra, a young colored boy, was arrested by Constable Kolbe on the charge of attempting to wreck a passenger train and sent to jail to await a hearing.

John Large and Peter Cosner a few minutes before the train was due noticed Farra hammering something on the rail. The men heard the train whistle blow, and suspecting something wrong, hurried to the spot. Farra fled. On examination they found he had fastened a piece of iron between two rails where the fishplates join and had made the joint strong by using two railroad spikes. The men finally succeeded in getting the train stopped before it ran into the obstacle. Farra was caught hiding in an underbrush nearby.

BOY JOLTED FROM TRAIN

Lad Fell Through Open Vestibule Trap Door and Was Killed.

Norristown, Pa., Aug. 6.—Leaving his parents to get a drink of water, 13-year-old Ralph E. Helm, son of Oscar B. Helm, deputy coroner, of Reading, was jolted off a Reading Railway express at Valley Forge, and died in the Norristown hospital.

The child was missed before the train reached Phoenixville, and at that point an engine was sent back carrying the father. Lying beside the tracks at a sharp curve at Valley Forge, the injured boy was found. He was bleeding from the head and his legs were broken. The engine made a record run to Norristown, but the boy died without having regained consciousness.

Christianity Needs Reorganization.

Northfield, Mass., Aug. 3.—That a reorganization of the Christian church is necessary because the realization of sin is lost in the people, was the main point in the address of Dr. F. B. Meyer, the famous English preacher and writer, who made the opening address before over 1000 people at the 25th annual session of the general conference for Christian workers, founded by D. L. Moody, and which convened here.

Suicide Wants Ashes Cast in Delaware

Camden, N. J., Aug. 5.—After leaving written directions to the undertaker to cremate his body and scatter the ashes in the middle of the Delaware river, Henri Van Zulen committed suicide in the West Jersey hotel by taking poison. He was found by an attendant in his room, and died an hour after being admitted to Cooper hospital.

Increase Your Earning Power

There are thousands of young farmers in Pennsylvania who are trying to find the best way of handling live stock and land. They are wanting to win. The wisest of these men are watching the methods of successful farmers in their neighborhoods. That is a good thing to do. In addition to these observations and their own experience they want to know the principles that control in the development of animals and of plants. When they have the principles there is less guess-work and there are fewer mistakes and failures. We have in this country tens of thousands of very successful farmers who say that they owe part of their success to the teaching of practical scientists who discovered facts that had a big cash value when carried into the field and orchard and stable.

The best way to get facts is by listening to the man who has the facts. When one can be with a man, questioning him and talking with him the true value of his facts is learned.

Our agricultural colleges have devoted much time to giving young men a full college course. That is all right but the agricultural college receives all the money that the state appropriates for agricultural education, and it owes a duty to the ninety farmers out of every hundred who do not want to devote four years to college studies. It must help all who want help. A few years ago some of our western agricultural colleges solved this problem. They established winter courses of study for busy young men. The scheme was to invite these men to spend twelve weeks at the agricultural college listening to lectures on practical farm subjects. No entrance examinations should be required and the twelve weeks should be devoted to a study of things that puzzle a man in his handling of his plants, live stock and dairy products. The young men came to these colleges in great number and these winter courses have become immensely popular.

Last winter the Legislature gave funds to the School of Agriculture of the Pennsylvania State College to render this practical service to the young men of Pennsylvania. The reorganization of the School by the new Dean, Dr. Thomas F. Hunt, formerly of Cornell, brought in some of the most practical, helpful scientists of other states, and they become a part of the force of instructors in the five winter courses in agriculture. These courses begin December 3rd and continue to February 26th. Any man in the state may enter any one of these courses and he does so without any examination. If he is wanting facts that will help him to understand his life work he is welcome. The five courses deal with plain agriculture, horticulture, dairy husbandry, poultry and creamery. Every reader who is interested should address "Alva Agee, State College, Pa.," for further information. Send a postal asking for details.

Pennsylvania Dairy School's Second Butter Scoring Report.

A study of the entry blanks, the judges scores and criticisms shows improvement on the part of many over the first scoring. Twenty-four butter makers took part, one having two to the number three. Five and dairy butter. The factory butter was taken from regular churnings and excepting in one case were from 200 to 500 pounds in a churning. Several took pains to say that their sample was from the regular churning and it was sent for the help to be gotten. This is the spirit that will bring improvement.

The judge, W. S. Smarzo, of John Schell & Co., New York, marked six lots "Fishy

flavor," as yet no satisfactory explanation has been made as to the cause of this all too common trouble.

Five were marked "Old milk, unclean flavor," this is commonly due to poor care of the milk and not every day delivery.

Four were marked "Dish rag flavor." Some patrons have the practice of washing the cans with a cloth then wringing it out and wiping the cans with the damp cloth, this is an undesirable practice. The cans should be washed clean with a brush and warm water containing an alkaline washing powder, then rinsed and scalded with boiling water and allowed to dry of their own heat.

An increase in the number of commercial starters used is to be noted, the scores of the users show that there is much to be learned about the making and using of the starter. A good starter is a great help, a poor one worse than none.

Sour flavor, due to this cream, fruity or due probably to keeping milk or cream near vegetables, and unclean conditions are among the other comments.

Taken all together, the increased number taking part, the evidence of progress and the interest are gratifying. Some have requested that their score be published so the following list does not include several who had a score of 80 or above;

CLAIM OF \$123.46 FOR SALE!

DO YOU WANT IT?

This office offers to the highest bidder an unpaid balance against the estate of the late Governor D. H. HASTINGS, amounting to ONE HUNDRED AND THIRTY-SIX DOLLARS and thirty-three cents, less \$12.87, for which judgment has been obtained. The claim is an honest and undisputed account for advertising, job work and subscription to this paper. There are no allegations that any of the items are overcharged, nor is there any plea that the work was not ordered done, or not done, so that every charge in the entire account will be guaranteed correct.

It is due, however, to those who may be inclined to become bidders, that they should know that while the justness and correctness of this claim is admitted and the estate alleged to be worth any amount from a quarter to a half-million of dollars; yet the administrators—who are also its heirs and beneficiaries,—have refused payment, simply because they could plead the limitation and thus avoid the payment of an honest debt.

The above amount may not be worth much as a cash asset. It may be of some value, perchance, as a reminder that there are others than the ordinary "dead beat" and "doubt jumpers," who seek the technicalities of the law to save the payment of just obligations. No bond will be asked from bidders. Any "old thing," will be considered good when compared with a wealthy estate that won't pay a just debt. Address: WATCHMAN, Bellefonte, Pa. 52-29-1f
