

MORE TO BE ACTED UPON

Harrisburg, Pa., Oct. 1.—True bills against seven of the 14 defendants in the capitol prosecutions were returned in three of the 32 suits by the Dauphin county grand jury.

One of the cases in which a true bill was returned is that charging John H. Sanderson, contractor; Joseph M. Huston, architect; James M. Shumaker, former superintendent of grounds and buildings; William P. Snyder, former auditor general, and William L. Mathews, former state treasurer, with conspiring to defraud the state by a fraudulent invoice for \$19,207.40 worth of furniture.

These defendants were also indicted with George F. Payne and his partner, Charles G. Wetter, builders of the capitol, for conspiracy to defraud the commonwealth of \$257,034.96 by a fraudulent bill for painting and decorating the senate and house chambers and the dome.

All of the defendants are charged with conspiracy, and, in addition, four are charged with obtaining money by false pretense.

Judge Kunkel, in a brief charge to the jury, defined the law on conspiracy and false pretense. The court particularly dwelt upon the fact that, in order to make out a case, it was not essential to have direct testimony to the effect that the conspirators were found or detected in the act of conspiring.

Conspiracy, Judge Kunkel defined, is an agreement of two or more persons to combine to do some malicious, unlawful or dishonest act; or where they agree to do some lawful act in an unlawful manner.

Taft in Tokio

The Secretary to Meet the Emperor on October 2.

Tokio, Sept. 30.—Preliminary to three days of social and diplomatic activity, Secretary of War Taft and his party spent a quiet Sunday resting in the palace of Shiba, an ancient and picturesque residence belonging to the imperial family.

Among the most important of the callers on the secretary was Lieutenant General Terauchi, the imperial minister of war, who had a lengthy conference with Mr. Taft. Some importance is being attached to the fact that there have been two conferences between the two war ministers, and on account of the mutual admiration and the influence of Lieutenant General Terauchi, it is believed in certain quarters that the ground work is being laid for an entente concerning immigration which, it is conceded, is the only point on which there is a difference of opinion between the two countries.

It is intimated that if the opportunity arises during his conference with the emperor October 2, Mr. Taft may broach this subject to him and leave its future arrangement to Mr. O'Brien, the American ambassador. Diplomatic circles, however, do not credit this rumor, it being asserted that Mr. Taft is not on a direct mission. The probability of such an occurrence, however, is freely discussed among the Japanese.

A FAMOUS ROAD.

India's Tree Bordered Highway 1,200 Miles In Length.

The road I have in my mind is in India and stretches 1,200 miles from Lahore to Calcutta. It is the famous Grand Trunk road. Let me explain its nature, though one cannot do so by comparison, for there is no road of five miles in England that is anything like it. It is level. Indeed, there is not above a mile the whole distance where even a lady need dismount to walk. The material with which it is made is called kunkur, and if you care to turn that word into concrete you have an idea of what it is like. It is exceedingly hard and as smooth as a prepared pavement. There is no dust. When I first got on this road and enjoyed the luxury of easy traveling I said, "This is magnificent, but in a little time I suppose it will become gritty and uneven." I went 50, 100 miles, 200 miles, 500, 600, 700 miles, and it was always the same, with not even a small stone to give a jog. Nearly the whole of the way is lined with a double row of majestic trees.

With two friends I rode across India during the hottest time of the year, in April and May, and was never seriously inconvenienced by the heat, for at a pace of fifteen miles an hour one could create a draft.—Chambers' Journal.

TWO-CENT RATE IN EFFECT

New Fare Schedule For Pennsylvania Announced.

Philadelphia, Oct. 1.—The two-cent fare rate in the state of Pennsylvania is effective. The Reading railway has already announced an adjustment of rates to meet the new conditions. Until a final decision of the supreme court is handed down there will be some doubt as to the constitutionality of the new law.

To Give President Good Bear Hunting. New Orleans, Sept. 28.—President Roosevelt will have a good bear hunt in northeast Louisiana next month if painstaking preparation can produce such sport. For weeks the swamps in which he will hunt have been so well guarded that even the sound of a gunshot has not disturbed the animal. Two of the swiftest and best trained bear dogs in the south have been secured from the Kentucky farm of Norvin T. Harris for use in the pack which the president will follow. One of the best hunting horses in the south will be Mr. Roosevelt's mount.

George E. Cooper Killed in Auto Crash. Pittsburg, Pa., Oct. 1.—George E. Cooper, of Harrisburg, assistant resident clerk of the state house of representatives, was instantly killed in an auto accident, in which John Chilly and Frank Blessing, also of Harrisburg, and James A. Clark, county commissioner of Allegheny, were seriously injured. The accident occurred on the Great boulevard, near Jones avenue, by the breaking of one of the wheels of the auto, which was going at a high speed. All the occupants were caught beneath the machine.

Reunited After Forty-Two Years. Pennsburg, Pa., Sept. 30.—For the first time in 42 years, Mrs. B. Z. Alderfer and Mrs. Jacob Booz, of Vernfeld, met their brother, David Harley, of Middletown, Pa., he having visited them this week.
