"The Toy-makers." This Musical Treat Will soon be Here.

A new comic opera is always a great attraction and "The Toy-makers," booked at the Garman Theatre for one night only, is full of wit and pretty songs. Charles Felton Pidgin, who wrote "Quincy Adams Sawyer" which everyone in the country has read or heard of, wrote "The Toy-makers" and so every one will want to attend the performance, as he also wrote the play. "All the world" likes to laugh and his new opera is bubbling over with whole some fun and sparkling songs. That fine company "The Jollities" brings along its own scenery and artistic costumes designed for them, and give a clean, clever presentation with no element of coarse wit or vulgarity.

Old England has its famous toyshops unlike anything we know in America and the story is told of a very remarkable doll that came to life when charged with electricity by its eccentric inventor. The strange adventures of this doll in the village furnish an amount of humorous stage business and gay wit that might be expected and took the master hand of Mr. Pidgin to set forth. Years ago "The Toy-makers of Nuremberg" was sung in England by Miss Rudersdorf, the mother of Richard Mansfield, and had a great run under the name of "Dolly." Mr. Pidgin has now written the book which everyone is reading and adapted the play, and though the gentlemen is Chief of the Massachusetts Bureau of Statistics, he evidently has to "break loose" and boil over in some such manner frequently, for he wrote twenty-six verses which were set to music by Miss Bennett of Boston. The press and public unite in declaring this a great entertainment, fit to drive away "dull care" and leave everyone anxious to hear this musical absurdity again.

BOY KILLED ON GRIDIRON

Receives Fracture of Brain During a Football Scrimmage.

Zanesville, O., Oct. 21.—Albert Flowers, 16 years old, left guard of the local high school eleven, was almost instantly killed during the second half of a game with the freshman team of Dennison University. None of the players of either team knew just how or when Flowers received the injuries that caused his death.

The score was 11 to 0 in Dennison's favor, and the teams were in a scrimmage in midfield in which Flowers was a central figure. He emerged from the scrimmage battered, but laughing. A minute later he was in another scrimmage, and when the players resumed their positions Flowers was seen to reel and fall. Time was called and the players of both teams rushed to his assistance. He was unconscious.

An ambulance was summoned, but before Flowers could be removed to his home he was dead. Hospital physicians found a fracture at the base of the brain.

NEW YORK BANKS RELIEVED

Clearing House Helps Two, But the Situation is Still Serious.

New York, Oct. 22.—The recent tension of the banking community was considerably relieved and no adverse developments of a serious character materialized. At the same time there was evidence that some of the banks most affected by recent events were still in need of assistance, but the promises with which the clearing house accorded it did much to allay further alarm.

The clearing house was called upon to meet debit balances of the Mercantile and New Amsterdam banks to the extent of upwards of \$2,000,000, of which the Mercantile owed about \$1,900,000, and the New Amsterdam \$200,000.

The fact that the clearing house committee regards the situation as still serious was shown by the remark of a member of the committee that the Mercantile bank's debit balance was "unexpectedly large and disconcerting."

The National Bank of Commerce gave 24 hours' notice to the clearing house of which it is a member, that it would no longer clear for the Knickerbocker company. The directors of the National would not comment upon their action. The National has for some time acted as clearing agent for the Knickerbocker.

Lumber Market Overcrowded.

Frederickton, N. B., Oct. 22.—The rafting operations on the St. John river for the season are about finished and almost 200,000,000 feet is estimated as the quantity of logs rafted by all the companies on the river. Operations were suspended by some of the companies earlier than usual because of the unfavorable market. At the present time the lumber market seems to be suffering from crowding, much of last year's great cut being still open for sale, and the cut this year finding but few buyers thus far.

The distance covered, on a straight line measurement, is approximately 500 miles, and the length of the voyage won for the aeronauts the Lahm cup.

Members of the international balloon contest committee and other aeronauts said that the flight would establish an epoch in balloon sailing.

Roberts, who retired from the position of director of the mint on August 1, 1907, has completed the compilation of the statistics of the production of gold and silver in the various states and territories of the United States for the calendar year 1906. Mr. Roberts estimates the production of gold in the United States during the year 1906 to have been \$94,373,800, as against \$88,180,700 for the year 1905, a gain in 1906 of \$6,193,100. The police found nothing among the papers of the trio to warrant detaining them. The officials expressed regret at the arrest, which they say was ordered upon the report of an over zealous spy, who had been shadowing the Finnish revolutionists with whom the Americans had been associated.

CLAIM OF \$123.46 FOR SALE!

DO YOU WANT IT? This office offers to the highest bidder an unpaid balance against the estate of the late Governor D. H. HASTINGS, amounting to ONE HUNDRED AND THIRTY-SIX DOLLARS and thirty three cents, less \$12.87, for which judgment has been obtained. The claim is an honest and undisputed account for advertising, job work and subscription to this paper. There are no allegations that any of the items are overcharged, nor is there any plea that the work was not ordered done, or not done. So that every charge in the entire account will be guaranteed correct.

It is fine, however, to those who may be inclined to become bidders, that they should know that while the judgment and correctness of this claim is admitted and the estate alleged to be worth any amount from a quarter to a half-million of dollars; yet the administrator—who are also its heirs and beneficiaries—have renounced payment, simply because they could plead the limitation and thus avoid the payment of an honest debt.

The above amount may not be worth much as a cash asset. It may be of some value, perchance, as a reminder that there are others than the ordinary "dead beat" and "debt jumper," who seek the technicalities of the law to save the payment of just obligations.

No bids will be asked from bidders. Any "hold thing," will be considered good when compared with a wealthy estate that won't pay a just debt.
