

TO RELIEVE MONEY MARKET

Washington, Nov. 15.—Secretary Cortelyou made the important announcement that, as a means of affording relief to the financial situation, the treasury would issue \$50,000,000 of Panama bonds, and \$100,000,000 certificates of indebtedness, or so much thereof as may be necessary. The certificates will be run for one year and will bear 3 per cent. interest.

The secretary's action, in coming to the relief of the financial situation meets with President Roosevelt's hearty approval, and the plan is the outcome of the several White Conference which have been held within the past few days when the financial situation was under consideration.

Secretary Cortelyou says that the Panama bonds will afford most substantial relief, as the law provides that they may be used as a basis for additional national bank circulation. He also states that the proceeds from the sale of certificates can be made directly available at points where the need is most urgent, and especially for the movement of the crops, which, he says, "if properly accelerated, will give the greatest relief and result in the attention to the attractiveness of the bonds and certificates as absolutely safe investments."

Secretary Cortelyou adds that these relief measures will enable him to meet public expenditures without withdrawing for that purpose any appreciable amount of the public moneys now deposited in national banks throughout the country. Two treasury circulars, one inviting proposals for the issue of bonds and the other asking for the certificates, will be sent out under date of November 18.

In his letter to Secretary Cortelyou, approving the treasury plans, President Roosevelt states that he has been assured that the leaders in congress have under consideration a currency measure "which will meet, in permanent fashion, the needs of the situation, and which I believe will be passed at an early date after congress convenes, two weeks hence." The president also calls attention to what is needed most at this time is that the people should "realize how fundamentally sound business conditions in this country are, and how absurd it is to permit themselves to get into a panic and create a stringency by hoarding their savings. Instead of trusting perfectly sound banks."

THE WEST APPROVES

Bankers Believe \$150,000,000 Issue Will Be Over-Subscribed.

Chicago, Nov. 15.—The decision of the national government to issue \$150,000,000 in bonds and certificates met with general approval throughout the west. The benefits expected to result from the move were anticipated in the higher grain markets, both here and in other grain centers of the west. Bulls were disposed to buy for some time past, and shorts took to cover hastily as soon as the plan was announced.

In this city some of the leading bankers announced that preparations were under way for the resumption of business on a normal cash basis, and it was believed, they said, that inside of 10 days at the outside the clearing house checks would be withdrawn from circulation. Leading business men here agreed with the bankers that the issue of the bonds and certificates will be of great force in bringing the affairs of the country back to the conditions prevailing three months ago. All of them were of the opinion that the issue of \$150,000,000 would be subscribed several times over, and the report from St. Louis that one man there was anxious to take 1-300 of the total issue was cited as proof of the accuracy of this opinion.

They Tax All Signs.
Every sign in Rio Janeiro is taxed. A cafe having a special "sorvete," or ice, to serve makes a placard and hangs it to a doorknob or to one of the palm trees in tubs which commonly decorate such establishments. The notice thus posted must have a revenue stamp attached. Permanent signs are taxed on a permanent basis, temporary signs on a stamped basis. A sign "House For Rent" bears a revenue stamp. Under such circumstances the tax on signboards or billboards is the expected thing, but naturally there is much less general use of such forms of advertising.

Two Chicken Thieves Shot Dead.
New York, Nov. 15.—Lyman J. King, proprietor of a poultry farm in the Bronx, has been missing chickens recently, and when an automatic alarm awoke him he seized a revolver, and, hurrying out doors, fired upon two forms outlined in the moonlight. Bruno Puella, 22 years old, of Yonkers, fell dead with a bullet in the head. Farlo Iagena, about the same age, received a bullet in the side, another in the leg, and, as he fled, a third in the back, which killed him. King surrendered to the police.

A New Death Test.
Paris, Nov. 15.—A new death test, which absolutely precludes the possibility of burial alive, has been discovered at the Laribosiere hospital, in this city. Experiments have shown that radiographs of bodies taken even a few minutes after death reveal clearly the outlines of all the organs, whereas if the radiographs are taken during life the organs are not revealed.

\$110 For 13 Words Written By Lincoln
Philadelphia, Nov. 15.—"Please summon the cabinet to meet me here at 7 o'clock this evening." That sentence, written by Abraham Lincoln on March 5, 1862, sold for \$110 at the sale of autograph letters belonging to Dr. Joshua I. Cohen, of Baltimore. A letter written by Daniel Boone sold for \$65.

A MARVELOUS APPLE TREE

Luther Burbank Makes It Yield 208 Varieties of Fruit.

Los Angeles, Cal., Nov. 18.—Two hundred and eight varieties of apples, all grown on one tree, and from one tree!

These apples are on exhibition at the state board of trade rooms, in the Ferry building. The 208 are the latest wonder from the marvelous gardens of Luther Burbank, at Santa Rosa. The apples have been in process of "curing" for five weeks, and now the colors are "fixed" and the fruit is on display.

This is the way advantage was taken of the old apple tree: Mr. Burbank took a few apples from a certain tree and planted all the seeds of those apples. The seeds produced saplings in course of time, and these Burbank grafted on the very tree which had produced them as seeds. The 208 varieties of apples were the result.

And there is surely variety among them. They run from apples the size of quail eggs to apples as large as pumpkins—that is, young pumpkins. Some are red, others green. Still others are pink and striped and spotted. One would think, judging by their appearance, that they had grown in 208 different parts of the world.

THANKS FOR \$22,000,000 GIFT

China is Sending a Special Mission to Washington.

Shanghai, Nov. 18.—The Chinese government will send a special mission to Washington to thank the government for the return of the surplus of the indemnity that China was condemned to pay to the United States as the result of the Boxer uprising.

The amount of America's share of the award was \$24,000,000. Of this sum \$2,000,000 was used in indemnifying American citizens for losses. The remainder, \$22,000,000, intended to indemnify the United States for the expense it incurred in assisting to put down the uprising. It was decided to return, on the ground that the Chinese government was not responsible for the Boxer rebellion.

GIRL ODDLY POISONED

Swallowed Laudanum While Cleaning Teeth, Parents Say.

Paterson, N. J., Nov. 15.—Much mystery surrounds the case of pretty Katie Mandolia, 15 years old, who is at the home of her parents, 591 River street, suffering from poison which nearly caused her death Sunday night. The girl's parents refused to say anything about the case, except that she was cleaning her teeth with laudanum, when she accidentally swallowed some of it.

Dr. Todd, who was summoned from the General hospital, says the girl swallowed a considerable quantity of the poison, and he had to resort to vigorous measures to save her life. She is still in a serious condition.

DIED AT FUNERAL

Mrs. Rose Walls Fatally Stricken at Atlantic City.

Atlantic City, N. J., Nov. 15.—Mrs. Rose Walls, of Washington, sister of the late Chief of Police Maxwell, died just prior to the funeral services over the dead chief. The shock was a trying one on the widow, who almost collapsed and is on the border of nervous prostration. Mrs. Walls was sleeping in the same bed with the widow, and during the night was restless. Mrs. Walls was seized with a hemorrhage and died in 20 minutes. The funeral of the chief took place Sunday afternoon.

WOMAN DROWNED

Mrs. J. N. Rhodes Fell From Gang Plank of Steamer at Chester.

Chester, Pa., Nov. 15.—Mrs. J. N. Rhodes, wife of a prominent physician of 1635 South Broad street, Philadelphia, was drowned in the Delaware river here by falling from the gang plank of the steamboat Frederica, plying between Philadelphia and Wilmington. Mrs. Rhodes stumbled and fell over the gang plank between the boat and the wharf and was drowned before the wharf and boat hands could rescue her.

Shot at Magazine; Blown to Atoms.

Pittsburg, Pa., Nov. 15.—Portions of a human body were found about 100 yards from a deep hole at Freedom, Pa., near here, following a terrific explosion of a magazine containing several gallons of nitro-glycerine. The concussion broke most of the windows within a radius of 10 miles from the scene. A revolver, with one chamber empty, was found nearby, and it is supposed the man had used the magazine as a target.

Gets 10 Years For Stealing 12 Stamps.

New York, Nov. 15.—Samuel Miller was sentenced to 10 years in state prison for stealing 12 two-cent postage stamps. Miller forced his way into the apartment of Mrs. William Tobin, in Madison avenue, on October 24 last, and was ransacking a desk when Mrs. Tobin surprised him. Her screams brought a policeman, and Miller was arrested on a charge of burglary. Nothing of value but the dozen postage stamps was found on him.

Killed Wrong Man, But He Apologizes.

Webb City, Mo., Nov. 15.—Harry Lacey, of this place, was profuse in his apologies to the coroner's jury when he was held for killing W. W. Parker. "I am very sorry," he said. "I didn't mean to kill the gentleman. I meant to kill another man." Lacey explained in detail how he went home intending to stay with his wife and the "other man," but got to shooting wildly and bagged Parker.

Excusable.

"I suppose," remarked the coy widow, "that you are not an advocate of early marriage?"

"Oh, yes, I am," replied the scanty haired bachelor.

"Then," continued the c. w., "why is it you are still a bachelor?"

"That's quite another matter," answered the bachelor. "The only marriages I believe in are early ones, because there is some excuse for youthful follies."—Chicago News.

President to Meet Governors.

Washington, Nov. 18.—President Roosevelt has invited the governors of the states and territories to meet him at the White House May 13, 14 and 15 next, to discuss the question of means to conserve the natural resources of the country. Invitations are to be extended to the members of both houses of congress and to the inland waterways commission.

Pottsville Steel Mill Resumes.

Pottsville, Pa., Nov. 19.—The Eastern Steel mill, at this place, resumed operations after a two-days' suspension. It is probable that the plant will work four days each week until the financial situation resumes a more normal state.

King Edward's Privileges.

King Edward VII. possesses many extraordinary powers and privileges which few persons are aware of, and which even his Majesty himself probably does not realize. He is the sole proprietor of the bells

of all British tidal rivers, such as the Thames, the Mersey, the Dee, the Tyne and many others. That part of the shore all round the coast which lies between high-water and low-water mark also belongs to his Majesty, and he may put it to any kind of use which he thinks fit, while theoretically every inch of ground in the kingdom belongs to him and not to the landlords. The King has the sole right to print the Bible, the Book of Common Prayer, and all Acts of Parliament in the United Kingdom, and if he liked he could forbid the printing of any or all of them anywhere within the British dominions.

Books, Magazines, Etc.

THE CENTURY IN 1908.—Those who desire to keep in touch with the choicest and most valuable magazine art features of the day, those who wish the most desirable illustrations suitable for framing, will find rich treasures in *The Century* during 1908. Following the popular series of portraits of favorite actresses in character, painted by Mr. Sigismond de Ivanowski, *The Century* will produce during 1908 a similar series of portraits by this distinguished artist, of prominent operatic artists—Mesdames Danne, Semblich, Caire, Meha, Fremstad, Bressler-Gianoli, Miss Geraldine Farrar, and others. Mr. Timothy Cole's wonderful wood-engravings will continue through the year, with reproductions of notable examples of French art; and there will be beside a wide range of reproductions in color, photograph and tint—all employed with nice regard for adaptation of subject to person. Several articles of special interest to photographers are also in hand.

"A WHOLE CHRISTMAS EVERY MONTH."—An announcement of the best of good things in store for *St. Nicholas* readers during 1908 emphasizes the important rank this splendid magazine holds in the American thought and literature for over a third of a century. It is *St. Nicholas* that

The Century Magazine.

YOU WANT THE CENTURY MAGAZINE In 1908.

In the magazine world the one by which the rest are measured has always been and is today *THE CENTURY*. Ask writers where their best productions are first offered, Ask public men where articles carry the most weight, Ask the public what magazine is the choice among people of real influence, The answer is the same, **THE CENTURY**. The best of fiction, and of popular scientific articles, the most richly told while biographical articles, the finest and best pictorial features, will be found in *THE CENTURY* during 1908. There will be "The Reminiscences of Lady Randolph Churchill," the story of the beautiful American girl who shared her brilliant husband's brilliant social and political successes during one of the most interesting periods of English history. Prof. Percival Lowell will discuss "Mars as a Possible Abode of Life"—fascinating, authoritative papers, intended specially for unscientific readers. All Helen Keller's recent poetry and prose writings—by far her most remarkable work—will appear in *THE CENTURY* in 1908. And Dr. S. Weir Mitchell has written the fiction serial of the year, "The Red City," a delightful historical novel of Old Philadelphia, continuing his famous "Hugh Wynne." No magazine today publishes such remarkable color pages as *THE CENTURY*; in no other magazine are to be found so many illustrations suitable for framing, and really worth while. For 1908 M. de Ivanowski is painting portraits of the most noted opera singers. There will be more of Cole's beautiful wood-engravings, description and illustration of new processes in photography, and scores of pages in color, tint, and photographure.

Pennsylvania Railroad Announcement.

PENNSYLVANIA RAILROAD BULLETIN.

THE NEW UNION STATION AT WASHINGTON.

All the passenger trains of the Pennsylvania Railroad will enter and depart from the new Union Station at Washington on November 17th, 1907, and on the same date the present station at Sixth and B streets will be closed to traffic. The date is singularly fitting. In 1807 both wings of the Capitol were completed, and now a century later a building even larger is opened for a great public utility, which did not exist at that time. The railroad terminal facilities at Washington have been inadequate for years, particularly at inauguration periods and on the assembling of other large gatherings at the Capital. Their improvement was imperative and so it has come about that, by the combined effort of the railroads and the United States Government, one of the largest and unquestionably the handsomest railroad station in the world is now provided not only for the convenience of the citizens of the United States, but as a notable architectural addition to the great public buildings of the Capital City. It is a monumental edifice and a worthy type of the future structures, which will make Washington the municipal beauty spot of the world. The station including the Concourse is longer than the Capitol and nearly as wide. The waiting room is larger than the hall of the House of Representatives. The concourse, which is the train lobby, is longer than the interior of the Capitol building, if it were one continuous hall, and half as wide. It is the largest building ever constructed for a like purpose. Within this great structure there is every convenience the traveler can desire, so grouped about the central hall as to serve his purpose to the best advantage. The lofty arched entrances face a plaza as large as an ordinary city park, which will be laid out as a plaza and adorned with shrubbery and fountains. The trackage is sufficient for all demands upon it and as the entrance to and exit from the trains are separated, the confusion and jostling of hurrying crowds moving in opposite directions will be obviated. The bigness of the station is impressive; its utilities obvious.
