

Lebanon.

Boyd Williams was seen on our streets Saturday. Jacob Markle, who was quite ill, is some better at this writing. John Houtz, of Selingsgrove, visited a few days in town this week. P. S. Dale is circulating among his friends selling the nursery stock. C. A. Houtz and his son-in-law, Fred Miller, transacted business in these parts Monday. Mrs. Mary Miller returned to Altoona Monday, after a few days sojourn with her parents. There are many people ill in this neighborhood at present, with something in the nature of the grip. The snow and cold weather has put a stop to farmers plowing for this fall and made them think of sleighing, to the tune of merry sleigh bells. Dr. H. H. Long and wife, of Berwick, are spending their honeymoon with friends hereabouts and enjoying some of the good butchering dinners. By all reports some person made an attempt to rob P. C. Bradford's house one night last week, but was frightened away by a shot from Mr. Bradford's trusty rifle. G. W. Ralston and family were called home on account of the death of the venerable Samuel Ralston, who passed away last Friday night and was buried Monday afternoon.

ANOTHER BURLINGTON HOLD UP

Burlington, N. J., Nov. 30.—Held up on the public road at Riverside by four men armed with shotguns, three men and a woman in a big motor car were helplessly forced to allow the foot pads to empty their pockets of jewelry and money. Then the highwaymen slashed one of the front tires of the car to prevent pursuit and escaped. Burlington county is thoroughly aroused over the latest holdup. Following within a week of the Jefferson murder and immediately after the hold-up at Burlington, the citizens are thoroughly aroused. The holdup on the motor car occurred on the road which runs through Riverside, between the railroad and the trolley tracks. The touring car was proceeding along the road at moderate speed, when a man stepped in front of the car, reeled and fell over in the road in front of the car as if he had been taken ill. The driver of the motor brought it to a stop. Three men armed with shotguns sprang from a clump of bushes. The man in the road got on his feet. "Throw up your hands," he commanded. The men and the woman did as directed. Two of the men entered the car and went through the pockets of the men. Then the woman became hysterical. The footpads obtained \$32 and a gold watch, then left the car angry at the slim haul. One of the four men then went to work on one of the tires and proceeded to cut it. "I guess that will hold 'em," said the leader of the gang. Then the quartet turned and fled into the woods. From what can be learned it is believed that the highwaymen's victims were returning from the Cornell-Pennsylvania football game. They were trying to patch up the slashed tire, when about 10 minutes later, another motor came along with an extra tire aboard. This was put on in place of the ruined tire and the two automobiles sped off toward Trenton. Before they got away, however, the police officials of Riverton were brought to the scene, but it is understood that in the excitement they forgot to ask for the names of the occupants or take the number of the cars. Detectives have searched in vain for the two highwaymen who attacked and tried to rob Ernest Zwahlen, a Burlington iron worker, in a manner so similar to the way in which Edward S. Jefferson was killed that the police are convinced that the men who held up Zwahlen were the murderers of the aged grocer. If it had not been for Zwahlen's pugilistic ability, the police are firm in the conviction that he, too, would have been killed.

MRS. CAREY ACQUITTED

Not Guilty of Charge of Murdering Her Two Children. Philadelphia, Dec. 2.—Mrs. Bridget Carey was acquitted of the charge of murdering her two children, but the effect of the verdict was overshadowed by the sensational action of Judge Barratt in declaring Assistant District Attorney William A. Gray in contempt, and entering a rule upon him to show cause why he should not be disbarred. This was the sequel to the exciting passage-at-arms between the judge and attorney during the examination of Dr. Wadsworth, and which the court declared would be settled after the trial was concluded. Although freed of this charge, Mrs. Carey is still under indictment charged with the murder of Patrick and Cecilia Cook.

Airship Blown to Sea.

London, Dec. 2.—An airship, believed to be the French military airship Patrie, which broke loose Saturday at Verdun, France, was seen passing over Wales from various places in Cardiganshire, travelling seaward at a great altitude. Some of the spectators declared that three men were clinging to the ship. In the afternoon an airship passed over Belfast, going northward, apparently under control.

Both Legs Cut Off by Engine.

Norristown, Pa., Dec. 3.—Henry Hill, of Tamqua, a Reading railway brakeman, had both legs cut off by a shifting engine in Bridgeport.

TRIED SUICIDE BY FIRE

Despondent Woman Poured Coal Oil Over Body and Lighted It. Pottstown, Pa., Dec. 2.—Despondent because of continued ill health and suffering from mental aberration, Mrs. Charles Miller, wife of a prominent farmer of Frick's Locks, two miles east of here, attempted suicide by pouring a gallon of coal oil over her body and lighting it. She was in an out-house when she made the attempt, and remained there until the flames had scorched the sides of the building. Then she ran to the barn where her husband was milking, and seeing her affire he seized a pail of milk and threw the contents over her. Neighbors rushed to the unfortunate woman and the flames were soon extinguished, but the woman was found that her death is only a matter of hours. During the last two weeks Mrs. Miller made two unsuccessful attempts at suicide. She is aged 43 years.

LEAPED TO DEATH

Woman Jumped From Window of Hospital in Baltimore. Baltimore, Md., Dec. 2.—Miss Minnie Rudisil, aged about 40 years, of Hanover, Pa., leaped from a window on the fourth floor of a hospital to which she had gone for treatment, and when picked up from the pavement, a distance of over 50 feet below, was unconscious. She died without regaining consciousness, half an hour later, Miss Rudisil applied to the hospital authorities on Saturday for examination as to a nervous ailment of which she believed herself the victim, but which the examination failed to show. Subsequently she told the nurse in whose charge she was that she had no money wherewith to pay her bill, and this fact seemed to worry her greatly. No other reason for her suicide is known.

MOIR KNOCKED OUT

Tommy Burns Defeats English Champion in Ten Rounds. London, Dec. 3.—Tommy Burns, of America, knocked out Gunner Moir, of England, in the 10th round before the National Sporting Club here. Englishmen never had great hopes of the ability of their representative to regain their lost honors in the boxing arena, and in a somewhat unexciting contest the American champion had a comparatively easy task in disposing of Moir's pretensions and securing for himself the title of heavyweight champion of the world. After the fifth round Burns' victory was certain, and in the 10th, when the gunner failed to rise to the call of time, and was literally cut to pieces, Burns left the ring with scarcely a mark.

BIG STEAMER AGROUND

The Mount Temple, With 600 Passengers Aboard, on the Rocks. Lunenburg, N. S., Dec. 3.—During a blinding snow storm the Canadian Pacific Railway company's steamship Mount Temple, bound from Antwerp to St. John, N. B., with 600 passengers, struck La Have iron-bound ledges, 15 miles south of Lunenburg, and may be a total loss. The passengers are being transferred on small steamers and tugs to Bridgewater. When the steamer struck the rocks there was much excitement among the passengers, most of whom are immigrants, and it was some time before Captain Boothby and his officers could convince them that they were in no immediate danger.

BRIDEGROOM MURDERED

Beaten to Death by Rejected Suitors While Celebrating Marriage. Brownsville, Pa., Dec. 2.—While the festivities in celebration of his marriage were at their height, George Beas, aged 33 years, accompanied by several companions, left the house to urge a friend living nearby to join in the fun. They had gone but a short distance when half a dozen men, supposed to be rejected suitors of Beas' bride, leaped from hiding, and one of them dealt Beas a blow that fractured his skull and caused his death a few hours later. Beas' friends endeavored to assist him, but were forced to retreat. In the fusillade of shots, John Jacovic, a guest, was hit in the face by a bullet and seriously injured.

President of Sugar Trust Ill.

New York, Dec. 2.—Henry O. Havemeyer, president of the American Sugar Refining company, is seriously ill at his country home at Commack, Long Island. He is suffering from an acute attack of indigestion and several physicians are in constant attendance. A friend said that the condition of Mr. Havemeyer was grave.

Relative of Justice Brewer Injured.

Kansas City, Dec. 3.—Mrs. Frances Woods, aged 60 years, a sister-in-law of Justice David J. Brewer, of the supreme court of the United States, was seriously injured at her home here in falling down a flight of stairs. Justice Brewer, who is in Washington, was notified and requested to come here.

President Married Twenty Years.

Washington, Dec. 3.—President and Mrs. Roosevelt very quietly observed their 20th wedding anniversary. Several of the president's most intimate friends called at the White House during the day and offered congratulations.

Mayor Shoots Himself.

Ypsilanti, Mich., Nov. 30.—Mayor John Van Fossen fatally shot himself here because of ill health. He was 60 years old and had been prominent in local politics for many years.

A RICH COAL STRIKE

Reading Company to Tap Underlying Veins of Anthracite. Shenandoah, Pa., Nov. 30.—To tap all of the underlying veins of anthracite in the Shenandoah valley, the Philadelphia & Reading Railway company is driving a tunnel from Locust mountain to Turkey Run colliery at a cost of \$500,000.

A number of paying veins have been discovered, and the workmen struck the famous Lykens valley vein. This is the first time this rich vein has been encountered north of Broad mountain. It is at the extraordinary depth of 1800 feet. This means millions of tons of coal for the company. The vein is only three feet thick, but the engineers are confident that a 15-foot vein of rich red ash coal, as clean as any that is mined, will be encountered shortly.

A Remarkable Career.

For three score years The Dispatch has been the leading newspaper of Pittsburg. It has had not only local reputation, but national fame as one of the great newspapers of the United States.

This reputation has rested upon quality. The Dispatch was pre-eminent in its field when all papers were sold for 3 cents. When contemporaries sold for a penny The Dispatch enjoyed the distinction of having been preferred at twice the cost of competitors. Why? Quality that tells.

Unrivaled news facilities enable The Dispatch to print exclusively the best local, State, national and foreign news in all departments. The sporting pages are recognized as authority.

Its special features and departments are superior to all others. Its editorials are fearless and independent.

Its editorial page is not approached in readability, attractiveness or interest. The Dispatch has always been read by

the best people. Other papers have attempted to imitate it, but without success. There is a distinctiveness about The Dispatch that they do not seem able to attain.

The Dispatch has always been worth 2 cents. Now that all the Pittsburgh morning papers are being sold for the same price it is inevitable that the public will prefer a real 2 cent paper that has won popular approval on that basis and that it will hereafter have an even greater circulation.

Since all the morning papers will cost the same the public will naturally see that it gets the best.—(adv)

Farmers' Week.

The lectures and practical work given during Farmers' Week at the Pennsylvania State College last winter were so thoroughly approved by those present and the attendance this winter promises to be so large that more subjects will be discussed and more time given to the important subjects. Apple growing, insect pests, market gardening, dressing and curing meats, household sanitation and cooking demonstrations are new subjects added this year. Seed corn selection, germination tests, soils, feeding, stock judging, starters and cream ripening are some of the other subjects. This is an opportunity for the business farmer, the dairyman and the creamery man, with their wives, to spend a profitable week at the Pennsylvania State College Jan. 1 to 9, at no charge except railway fare and living expenses. For program of subjects and speakers address Professor H. E. Van Norman, State College, Pa.

Books, Magazines, Etc.

McClure's for 1908.—Plans for McClure's for the coming year have just been announced. The magazine, judging from the prospectus, will continue to deal with great and important subjects. The first of these began in the November number. It is a series of articles on "The Great American Fortunes." This series of articles by Burton J. Hendrick will tell the story of the most wonderful era of fortune building in history. It is a story of extraordinary personalities, of great games of chance, of industrial warfare, political and incredible fact.

Carl Schurz Reminiscences.—The extraordinary popular interest aroused by the two series already published has decided the editors to add several other articles during 1908. Ellen Terry Memoirs.—It would be difficult to overstate the importance of Ellen Terry's Memoirs—they are a chronicle of the literary and artistic development of the last half century. They present the impressions of a woman, who during her extraordinary experience came into contact with nearly all the foremost personages of her time.

The Life of Mary Baker G. Eddy.—The articles on the "History of Christian Science and the Life of Mary Baker G. Eddy," by Georgine Mimms, have been recognized the country over as the most important series of the year. In the closing chapters will be found an account of "Conspiracy and Rebellion," the second rupture of Mrs. Eddy's ranks and the secessions of thirty-six of the leaders of her church.

George Kibbe Turner and George Kennan are gathering facts for a series of articles dealing with perhaps the two most momentous questions which confront the American people. One is

CLAIM OF \$123.46 FOR SALE! DO YOU WANT IT? This office offers to the highest bidder an unpaid balance against the estate of the late Governor D. H. HASTINGS, amounting to ONE HUNDRED AND THIRTY-SIX DOLLARS and thirty three cents, less \$12.97, for which judgment has been obtained. The claim is an honest and undisputed account for advertising, job work and subscription to his papers. There are no allegations in the claim that every charge is not ordered done, or not in accordance with the terms of the contract which will be guaranteed correct.

It is due, however, to those who may be inclined to become bidders, that they should know that while the justness and correctness of this claim is admitted and the estate alleged to be worth any amount from a quarter to a half-million dollars; yet the claimants—who are also its heirs and beneficiaries—have returned payment, and thus avoid the payment of an honest debt. The above amount may not be worth the cash asset. It may be of some value, perchance, as a reminder that there are others than the ordinary "dead head" and "dead number," who seek the technicalities of the law to save the payment of just obligations.

No bond will be asked from bidders. Any "old thing" will be considered good when compared with a wealthy estate that won't pay a just debt. Address, WATCHMAN, Bellefonte, Pa. 52-20-11
