CLEANING UP THE WRECK-Time only will tell how many cases of pneumonia and grip will develop among the crowd of people who spent most of Sunday standing on the sloppy pike or the snow covered hill overlooking the scene of last week's wreck

on the Lewisburg railroad at Griffith's. There were fully two thousand spectators. Some of them had come from the very lower end of Pennsvalley and while most of them were from the vicinity of Bellefonte the fact that there were one hundred and twenty-six carriages, wagons and buggies tied within a distance of onefourth of a mile proves that many came

from a greater distance. The wreck occurred on Wednesday evening of last week. Late that same night the Tyrone wrecking crew cleared up the track so that trains ran as usual over the line the division crew cleared up all the wreckage burned, their contents salvaged as far as possible and the embaukment was clear of

everything but the ponderous locomotive on Sunday morning. ness trip. Because of the fact that it was down over

Accordingly, on Sunday morning, the Williamsport and Sunbury wrecking crews went to the scene, one with a 50 ton derrick, the other with one of 100 tons

capacity. The first move made was to extend the base of the derricks in order to keep them from toppling off the tracks. Then the tackle of the larger one was bookbasket ball team defeated the Bellefonte ed into the fire box of the wrecked engine and in three minutes it was raised ten feet

into the air. There it was shored up with ties while the smaller derrick held it from sliding back down the hill. After this was done the derricks were moved far enough apart to make room on the rails for the wrecked engine, then the larger derrick took a shorter hook in the fire box and the lagher. smaller one hooked under the pilot and in less than five minutes actual working time the engine was sitting on the rails ; look-

ing, of course the worse for the ascident, but ready to be hauled to the shops, where a new jacket, cab and fittings will put it in as good condition as it was before.

The interesting part of the entire performance was the leisurely manner in which everyone seemed to go about the work. There was no talking, hustle or excitement, but when the time came and everything was in readiness the actual work was done by the ponderous derricks so quickly that there seemed to be nothing to it.

The wrecking crew took the four cars and engine as far as Lock Haven on Sunday night and on Monday morning they were taken to the Renovo shops to be repaired.

HIS THIRTY-SIXTH. - Farmer Charley Strouse, of near Pine Hall, was never more surprised in his life than he was last Satuaday evening when a jolly party of his friends and neighbors gathered at his home to help him celebrate his thirty-sixth birthday appiversary. The affair was most artfully planned by his good wife and her liege lord had no inkling of what was going to happen until half a hundred men, women and young folks swooped down upon him from his brother John's house, where the party assembled. Of course there was a big supper of oysters, ice cream and cake and all the good things that a farmer's wife knows so well how to prepare. Mr. Stronse was also the recipient of many valuable presents as kind remembrances from his numerous friends. The evening throughout proved a most enjoy-

able one for all, and for none more than for Mr. Strouse himself.

IMPROVEMENTS AT THE HAAG .--- Under the management of J. Mitchell Cunningham the Haag hotel has come to be about as attractive as money judicionaly spent and tidy housekeeping can make it. OPEN GRANGE MEETING.-Last Saturday afternoon Washington Grange held an open meeting in their hall at Pine Hall, near State College, which was unusually largely attended by not only members of the order but farmers and the public at large. Washington Grange, by the way, is perhaps one of the largest and most prosperous of any in the county and included on its roll of members are some nine or more professors at The Pennsylvania State College. For several years now they have followed the custom of having one big open meeting some time during the winter and the occasion has grown to be a momentous one, not only in the history of the Grange

but in that whole community. The question which was up for discus sion at Saturday's meeting was the "Farm Labor Problem," and, though the principal talkers were Dr. Thomas F. Hunt and Prof. took a prominent part, as the question is one which materially affects them and which the past few years has grown to be quite a serious one ; especially when during last summer farm help demanded all the way from eighteen dollars a month to one during haymaking and harvest time.

DR. VAN TRIES' RECITAL. -- We desire to again call the attention of our readers to the recital Dr. Thomas C. VanTries will give in the court house on Friday evening, January 31st, for the benefit of the Bellefonte hospital. His subject, "Eminent Men and Women Whom I Have Seen and merely local personages, as such is not the case. Dr. VanTries has traveled much, who have figured conspicuously in sboth church and state affairs in this and other countries in the past third of a century. And those who have heard his recital say that he tells it in a way that is not only interesting but entertaining. And then it being for the benefit of the hospital should be another reason why there should be a good attendance. No admission fee a will be charged but don't forget that a silver offering will be lifted.
