-Henry E. Poorman, of Williamsport, a brakeman on the Beech Creek railroad, had quite, a thrilling experience Thursday of last week and it is next to a miracle that he is alive to tell the story. His train was westbound and was on the siding at Morto pass. When the latter came along he was in the baggage car and in attempting to give a paper to a man on the eastbound train he lost his balance and fell between just as helfell. The conductor saw him fall and gave the signal to stop, expecting to find Poorman's mangled remains, consequently was greatly surprised to see him jump on the train, all mud-bespattered but without a scratch. He had gone down between the trains and lay between the tracks until they both got by.

-One day a week or so ago the family of Mr. and Mrs. S. A. Bell, of east Howard street, were gathered in the sitting room when they heard a terrific crash of breaking glass at the rear of the house and hurrying out into the kitchen were astounded to see a horses head and the shafts of a vehicle sticking through the window. An examination developed the fact that the boy who attends Hard P. Harris' horse had hitched the animal in the wagon and was driving down the alley to Howard street. Whether the horse stumbled or had a sudden attack of cramp is not known but when opposite the Bell home he made a sudden plunge and wheeling to the right gave a jump and plunged his head and the front of the shafts square through the kitchen window, knocking out the sash and breaking all the glass. Mr. Bell had been sitting at the window not two minutes before and had just gone into the sitting room when the accident occurred. No R. I.; J. Harris Hoy, of Bellefonte, and person was burt and the only damage was the broken window.

The pall-bearers were John Blanchdeath so soon as Sunday morning. Though ard, Edmund Blanchard, Fred Blanchard, he had not been in perfect health for a Harry E. Fenlon, John M. Not feeling well on Tuesday Mr. Hoy consulted his physician who prescribed for him and advised a few days rest. He retired that evening but during the night grew worse so that Wednesday morning he was unable to get out of bed. That day his illness was diagnosed as an attack of pleurisy and he was treated accordingly. The course of the disease could not be stayed and by Thursday it had developed into pneumonia and so rapid was its progress that the physician in attendance became alarmed and other physicians were called in consultation. The result was that the most advanced treatment known to medical science was resorted to and this was evidence of the gravity of his condition. And just when the doctors hoped they would be able to combat the disease they were horrified to discover other serious complications and in only a few horrs acute Brighte disease developed and it was then apparent to the practiced eye that

Critically ill as he was he had spells of consciousness even up until late Saturday afternoon and it was not until 8.40 o'clock Sunday morning that the last fitful spark of life fled, his spirit had gone to the God who gave it and only the inanimate body was left as consolation to his brothers and sisters and hosts of warm personal friends who esteemed bim in life as few others ever were or will be.

Edward Livingston Hoy was born in Bellefonte Sept. 14th, 1876. He was the fourth son of the late Judge Adam Hoy and Louisa Harris Hoy. His early life was spent in acquiring an education and from Miss Petriken's private school and the Bellefonte Academy he was prepared for college. He later entered the University of Pennsylvania, but was unable to complete his course owing to the need of his presence at home. His first business engagement was in the office of E. K.Rhoads, coal dealer. Later he entered the hardware store of James Harris & Co. and speedily developed talents for the business that carried him well to the front of the young business men of the town. Together with James Harris and Jas. H. Potter he formed the co-partnership of Harris, Potter & Hoy for the handling of the output of the Bellefonte glass works. This business ran until the works went on a co-operative basis and the most of its care devolved on the junior member of the firm who was thus fitting himself, unconsciously, for the remarkable position he held in this community for one o young. When James Harris decided to retire from active business, Mr. Hoy bought his interest in the firm which then became the Potter-Hoy Harlware Co. That was on Jan. 1st, 1900. The new firm organized a wholesale department and grew until it hecame one of the largest mercantile establishments in Central Pennsylvania. Any work he had to do was a pleasure for him, but the desire for out-of door life and something less confining than his duties as secretary and treasurer of the hardware firm turned his attention to the Ardell Lumber Co., a plant that had been left without a head through the deaths of the lamented John Ardell and Newlin Irwin. In it Mr. risdale Mines to allow the eastbound train Hoy saw a great field and set about to reo:ganize and capitalize the business. The greatest compliment that could have been paid his integrity and business acumen we find in the ease with which he re-organized the two trains, the train be was on starting a property that had been on the verge of bankruptcy for years and interested capital to the extent of \$25,000 in what surface in-

> his personal ability to do things. Accordingly in July, 1907, when he was scarcely more than thirty years of age be withdrew from the hardware business and became the secretary, treasurer and general manager of the Bellefonte Lumber Co. What he did there is known best to the veteran lumbermen and business men who cast their lot with him, not one of whom will say that he was not more than fulfilling every hope they had built up. Thus it was in the very prime of what promised a most useful and successful manbood, enjoying the confidence and esteem of all who had had intercourse with him and with a soul full of kindness and hope he was struggling on to the goal of his dearest ambitions, the place where he could be more helpful to his family, his friends and

his loved home town. He was a member of the Presbyterian church, a Knight Templar and a Mason, a Maccabee, and a member of the Bellefonte and the Nittany Country clubs.

Surviving are his sisters Nan, Mary and Mrs. W. Fred Reynolds, all of Bellefonte. and his brothers Albert C., of Providence Randolph H., of Pittsburgh.

The funeral was held on Tuesday after- his parents, two brothers and one sister.

Her favorite diversion is trout fishing along the brooks of Ice mountain and this spring she has made a number of nice catches. She whips streams that would appall young men in the prime of life, and apparently feels none the worse for the vigorous exercise. She is an experfisherwoman, taking extreme delight in "showing up" the swell disciples of Izaak Walton who frequent the streams in the vicinity of her mountain home.

Memorial Day.

This is an occasion in which all should participate and every citizen should hold in sacred remembrance the fallen beroes of the late wars and join in honoring their last resting place.

> As spring again returns to dress The landscape in its loveliness; We come with floral wreaths to grace The soldiers honored resting place. They sleep in peace beneath the sod,

Who war's rough path unwavering trod Nor clashing steel nor cannon's roar, Shall wake them from their slumber m The garments rolled in blood, have passe Hushed is the bugle's mustering blast.

The impetuous charge, the battle's tread No more disturb their tranquil bed. On blood-stained fields, where carnage w Swept madly on, they dared and died; Nor shall their memory depart, While deeds of valor thrill the heart.

But as the circling years roll round, Upon this consecrated ground, Surviving friends with thoughtful tread Shall pass beside each turf-clad bed.

Fair hands and willing hearts will bring The loveliest treasure of the spring, And deck with wreaths and flowers gay The hallowed turf that wraps their clay
