BUSINESS MEN'S PICNIC TUESDAY, AUGUST 18th .-- Pursuant to a call of the president the executive committee of the Business Men's Pionic association of Ceutre and Clinton counties met in the parlor of the Brockerhoff bouse in this place at six o'clock Tuesday evening with thirtynine of the forty members present.

A. C. Mingle, president of the associa-THINGS ABOUT TOWN AND COUNTY tion, called the meeting to order, stating that the purpose was to decide whether a pionic should be held this year and if so, where and when. Following the roll call and reading of the minutes of the last meeting the first order of business was the election of officers for the ensuing year, which resulted as follows: President, T. J. Smull, of Mackeyville; vice president, C. F. Montgomery, of Bellefonte; secretary, J. C. Meyer, of Bellefonte; treasurer, G. W. Fredericks, of Lock Haven.

When the question of whether a picnic be held this year or not was brought before -A large class of probationers were the committee A. L. Merrill, of Lock taken into full membership in the Metho- Haven, made a motion that a picuic be held and that the place be Hecla park. In support of his motion Mr. Merrill stated that thing for the corn and potatoes but a little there was no other logical place which drew to it such a hig concourse of people and without a dissenting vote Heela park was selected. It took considerable figuring on the part of the committee before a suitable date could be selected but Tues day, August 18th, was finally named as the most available date for all.

The fact being reported that three members of the committee had failed to attend the last few meetings and were thus liable to be dropped as delinquents, it was decided to notify them of this fact and if they -Miss Rebecca Lyon will sail in a failed to respond at the next meeting their short time for Europe, where she contem places would be filled. On the suggestion plates spending several months studying of Mr. Herr the management committee was instructed to see that the sanitary con--On the first of October T. Mayor Stevenson, of Lock Haven, suggested that the committee on music make every effort to secure the Repasz band, of Williamsport, but as other members favored either the Coleville or Lock Haven band it was decided to leave the matter to the committee on music.

Practically the same committees who served last year were appointed for this year by T. J. Smull, the new president. As there were a few minutes leisure time before the committee reports several of the members made speeches in which they urged all to work for the success of the 1908 pienie.

At seven o'clock everybody repaired to Mrs. F. C. Miller, at the Bellefonte hos- the dining room where a most palatable spring chicken supper was served. RESIDES FAMILY REUNION .- The annual reunion of the Resides family will be held at Hunter's park next Thursday, July It was about nine o'clock at night, raining ceiving every possible care and attention. family are particularly urged to be present, reaching Bellefonte about midnight.

-The Howard canning company's plant is being put in readiness for the opening of the canning season which will begin within the next few weeks with the just north of Bellefonte, yesterday moraripening of the tomato crop. As all kinds of fruit and produce used by them promises a prolific yield they anticipate a busy sea-

-Quite a number of Bellefonters have been enjoying their annual outing the past two weeks camping on Fishing creek, where they spend the mornings and evenings fishing for trout. In this they have been quite successful as can be proven by quite a number of guests who partook of their hospitality at one time or another, and also ate the trout.

-T. Clayton Brown had another spasm of his usual luck on Tuesday. Just about the falls above the WATCHMAN office and in less than ten minutes he booked and safely landed an 18h juch California rainbow trout which weighed over two pounds. Mr. Brown has more big trout to his credit this season than any one fisherman in Bellefoute.

-- The hottest weather we have had so far this season, or probably will have this summer, was experienced during the past two weeks. Last week the thermometer registered from ninety-four to ninety-six degrees in the shade several days and on Sunday it reached its maximum in this place when it registered ninety-seven. It was the hottest day in Bellefonte in years until the wind and rain storm in the evening, when the atmosphere became a few degrees cooler.

-William Burnside is one of the very busiest of men these days. Recently he leased the sand mines at Scotia and has been operating them since under the name of the Scotia Sand company. He not only has all kinds of sand but he has already built up quite a business and, in addition, is now managing the work at the Red Bank ore mines. An advertisement in this issue of the WATCHMAN will tell you all about his sand business, and if you are in need of any give him a call.

--- A very delightful musicial event of the week was held at the home of Mr. and Mrs. Archibald Allison, on Wednesday afternoon at four o'clock, when Miss Marie Walsh's class in instrumental music gave their first parlor recital. The first num bers on the program were by the pupils who are practically beginners, gradually leading up to those furthest advanced in their studies and practice. It was quite a pleasant event and was attended by the parents and friends of the pupils.

- At a recent meeting of the Bellefonte school board Ward Fleming, son of Mr. and Mrs. W. I. Fleming, was elected second assistant principal in the Bellefonte High school to take the place occupied last year by Mr. Dickerman. Mr. Fleming should make an able teacher as he is a graduate of Haverford, took a two year's course in the law school of the University of Pennsylvania and recently graduated from the Pittsburg law school, passed a most successful examination before the state examining board and was admitted to practice at the Allegheny county bar.

-The last issue of the WATCHMAN contained an article on the bad condition we have been imformed by one member of council that the application for a state road through Bellefonte has been granted and that advertisements for the building of same will be published in the near future. This will be good news to every man in Bellefonte who owns an automobile or vehicle of any kind, but in the meantime it will take weeks, if not months, before work can be begun on the road and will the Diamond have to remain in its present disgraceful condition all that time?

-Hugh P. Baker, head of the forestry department at The Pennsylvania State College, who several weeks ago had a squad of Juniors in camp on the Valentine timber tract southeast of Bellefonte for the purpose of making practical investigations, is now engaged in making some very interesting investigations in Cambria county. In 1905 the Johnstown Water company, under the direction of the United States forestry department, planted fifty, thousand tree seedlings on their water shed and so favorably impressed are they with the result that they are now preparing to double that planting and Prof. Baker is there overseeing the work. On Tuesday he also began an examination of a tract of four thousand acres belonging to the Cambria Mining and Manufacturing company near Portage, as they also wish to make extensive plantings.

-Some of the automobile owners around Bellefonte have more than once made fun of F. R. Bussler and his "one lunger" Cadilac runabout but if he were entitled to salvage for towing in automobile derelicts he would soon have enough to buy a six cylinder machine. One day last week he towed Capt. A. C. Mingle and his Cadilac touring car from the lime kilns into his stable back of the Brockerhoff house and on Sunday night be hauled Frank E. Naginey and Thomas Beaver all the way from Nittany to Bellefonte in the former's Ford runabout. They had all been down to the fishermen's camp on Fishing creek and on the return home Naginey's car went to the bad at Nittany.

ROAD. - Another unfortunate accident happened on the Pennsylvania railroad, ing, by which Miss Lizzie Jones, daughter of Mr. and Mrs. H. N. Jones, of Milesburg, was instantly killed. Miss Jones had worked for Miss Snyder this summer learning the trade of a milliner. Wednesday evening she came to Bellefonte and

MISS LIZZIE JONES KILLED ON RAIL-

carried a basket of sweet peas to Miss Snyder. She spent the night at the home of Mrs. Edward Foster and yesterday morning visited several stores in town and made a few small purchases.

She started for home a little after nine o'clock, walking the path along the railroad. On her way down she met No. 50, mail east, pulling in to the Bellefonte station. When she got down opposite the one o'clock he walked out Water street to office of the American Lime and Stone company she evidently became confused by the noise and number of trains. The Bellefonte Central had just pulled in on its own track and was starting toward Coleville. On the other side of the creek the Central Pennsylvania train was just pulling into the depot and consequently she failed to distinguish the noise made by No. 50 in backing down the track on its way out. It is said that a man by the name of Miller, who was some distance away, called to the girl to look out for the train, but she evidently thought be meant the Bellefonte Central and to get out of its | lege. road stepped over on the Pennsylvania tracks not ten feet in front of the swiftly moving train. She was struck in the back and knocked about fifteen feet to the side of the road, her head striking the sharp end of a tie, practically splitting the skull bone open as if struck with an axe. Death was instantaneous.

> The shifting crew brought the remains to the Bellefonte depot from where they were removed to the Harris undertaking establishment to be viewed by the coroner before preparing for burial.

The unfortunate girl was about eighteen years of age and was the daughter of Mr. and Mrs. H. N. Jones, both of whom survive with one sister, Miss Lorena and two brothers, William L. and Roy. At this writing no arrangements have been made for the funeral.

PENNSYLVANIA TEACHERS IN SES SION. -The Pennsylvania State Educational association held its fifty-second annual session at State College last week and, although the attendance was not as large as expected there were still enough college presidents, school superintendents and teachers present to make the gathering an especially interesting one. In fact the total enrollment was close to six hundred delegates, representing every city and county in the State.

The meeting opened on Tuesday evening in the auditorium when Gen. James A. Beaver made an address of welcome on the part of the board of trustees and Dr. Edwin Erle Sparks spoke in behalf of the college and faculty. The response was by Dr. Theodore B. Noss, of the California Normal school. The session was concluded with the inaugural address of Dr. Joseph B. Richey, of McKeesport.

Both Wednesday and Thursday's sessions were interesting and instructive to those in attendance. Many good papers were read while the various addresses were replete with wise savings and good advice to school superintendents and teachers. The closing address on Thursday on "Child Labor," by Fred S. Hall, secretary of the Philadelphia child labor committee, attracted unusual attention. Mr. Hall showed by statistics that thousands of children under the age of sixteen years were being unlawfully employed in the coal mining districts as well as large factories in the big cities, and he asserted that it was the aim of the Philadelphia committee to have the child labor law amended so as to prevent so much false swearing of parents as to their children's

Prior to adjournment on Thursday afternoon it was decided to leave the place of meeting of the association next year to the selection of the executive committee.

The following officers were elected for the ensuing year : President, Dr. Charles S. Foos, Reading ; first vice president, Dr. Joseph B. Richey, McKeesport; second vice president, Prof. Cheesman A. Herrick, Philadelphia; third vice president, Supt. Mattie A. Collins, Emporium : secretary, Dr. J. P. McCaskey, Lancaster treasurer, Prof. Charles S. Keck, Kutztown ; excutive committee, Dr. Charles S. Foos, Reading; Dr. George W. Philips, Scranton ; Supt. David A. Harman, Hazelton ; Rev. W. W. Deatrick, Kutztown.

SPRING MILLS ACADEMY REUNION. -The second annual reunion of the Spring Mills Academy Alumni association will be held at Spring Mills on Thursday, August 6th. Not only all members of the association but all who at any time were pupils at the Academy, under the instruction of Prof. D. M. Wolf, are urged to attend this reunion. A full list of committees are now busy completing arrangements for the gathering, which it is expected will be quite a large one.
