A MENDMENT TO THE CONSTITUTION PROPOSED TO THE CITIZENS OF THIS COMMONWEALTH FOR THEIR APPROVAL OR REJECTION BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

ANCE OF ARTICLE XVIII OF THE CONSTITUTION.

NUMBER TWO.

A JOINT RESOLUTION

Proposing an amendment to the Constitution of the Commonwealth, allowing counties, clies, boroughs, townships, school districts, to increase their indebtedness.

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met. That section eight, article nine, of the Commonwealth of Pennsylvania, reading as follows:—"Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein; nor shall any such rundelpality or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election, in such manner as shall be provided by law; but any city, the debt of which now exceeds seven per centum of such assessed valuation, may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation, be amended, in accordance with the provisions of the eighteenth article of said Constitution, so that said section, when amended, shall read as follows:—

Section 8. The debt of any county, city, borough, township, school district, except

Section 8. The debt of any county, city, borough, township, school district, or other remicipality or incorporated district, except as herein provided, shall never exceed ten percent an upon the assessed value of the taxable property therein; nor shall any such municipality or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property without the assent of the electors thereof at a public election, in such manner as shall be provided by law.

ROBERT McAFEE.

Secretary of the Commonwealth.

The septent election shall be held belensity for person of incorporated of their form of the person of the person

five of the Constitution, which reads as folfollows:—

"In Philadelphia there shall be established,
for each thirty thousand inhabitants, one
court, not of record, of police and civil causes,
with jurisdiction not exceeding one hundred
dollars; such courts shall be held by magistrates whose term of office shall be five years,
and they shall be elected on general ticket
by the qualified voters at large; and in the
election of the said magistrates no voter shall
vote for more than two-thirds of the number
of persons to be elected when more than one
are to be chosen they shall be compensated
only by fixed salaries, to be paid by said
county and shall exercise such jurisdiction,
civil and criminal, except as herein provided,
as is now exercised by aldermen, subject to
such changes, not involving an increase of
civil jurisdiction or conferring political duties,
as may be made by law. In Philadelphia the
office of alderman is abolished," so as to read
as follows:—

In Philadelphia there shall be established,

as may be made by law. In Philadelphia the off... of alderman is abolished." so as to read as follows:—

In Philadelphia there shall be established. for each thirty thousand inhabitants, one court, not of record, of police and civil causes, with jurisdiction not exceeding one hundred dollars; such courts shall be held by magistrates whose term of office shall be six years, and they shall be elected on general ticket at the municipal election, by the qualified voters at large; and in the election of the said magistrates no voter shall vote for more than two-thirds of the number of persons to be elected when more than one are to be chosen; they shall be compensated only by fixed salaries, to be paid by said county; and shall except as herein provided, as is now exercised by aldermen, subject to such changes, not involving an increase of civil jurisdiction or conferring political duties, as may be made by law. In Philadelphia the office of alderman is abolished.

Amendment Five—To Article Eight, Section Two.

Section 6. Amend section two of article eight, which reads as follows:—

"The general election shall be held annually on the Tuesday next following the first Monday of November, but the General Assembly may by law fix a different day, two-thirds of all the members of each House consenting thereto," so as to read:—

The general election shall be held biennially on the Tuesday next following the first Monday of November is the first monday of November is the first form.

The general election shall be held blennially on the Tuesday next following the first Monday of November in each even-numbered year, but the General Assembly may by law fix a different day, two-thirds of all the members of each House consenting thereto: Provided, That such election shall always be held in an

THE SUN A PUZZLE.

We See Only the Outer Shells of the Great Blazing Orb.

The great ball of fire which we call the sun is not really the sun. No one has ever seen the sun. A series of rept that it must be almost infinitely hotter than the flercest furnace and that it must amount to more than nine-

tenths of the solar mass. That nucleus is the real sun, forever hidden from us. The outermost of the enveloping shells is about 5,000 miles thick and is called the chromosphere. It is a gaseous fluid, tinted with the scarlet glare of hydrogen, and so furiously active that it spurts up great tongues of glowing gas (prominences) to the height of thousands of miles. Time was when this agitated sea of crimson fire could be seen to advantage

only during an eclipse. Now special in- and when the people were content to let struments are used which enable as matters take their own course. The Eng tronomers to study it in the full glare Beyond the chromosphere, far beyond

the prominences even, lies the nebulous vanishing moments of a total eclipse, where velvety lawns and artistically ar aggregating not more than seven days ranged flower plots are in marked contrast in a century. No one has ever satisfactorily explained how the highly attenuated matter composing both the promi-

nences and the corona is supported without falling back into the sun under the pull of solar gravitation. Now that Arrhenius has cosmically applied the effects of light pressure a solution 's presented. How difficult it is to account for

such delicate streamers as the promi. the Frenchman gathers his family upon nences on the sun is better comprehended when we fully understand how relentlessly powerful is the grip of solar gravitation.

and you could transport yourself to its joys a glass of one of the strange drinks surface, you would find yourself pulled | peculiar to the locality. down so forcibly by gravitation that you would weigh two tons, assuming that you are an ordinary human being

Your clothing alone would weigh more than a hundred pounds. Baseball could be played in a solar drawing room, for there would be some difficulty in throwing a ball more than thirty feet.

Tennis would be degraded to a form of outdoor pingpong. From these considerations it is plain that gravitation on the sun would tend

to prevent the formation of any lambent streamers and to pull down to its surface masses of any size.-Harper's Magazine.

The Bell Telephone.

WITHIN THE REACH OF EVERY FARMER.

The price and the inability of most companies to furnish connections to all points have delayed the development of the most important modern invention adapted to farm use—the telephone.

WHAT TELEPHONE SERVICE DOES:

It links the farm house with every farm in the neighborhood. It helps the farmer to sell his produce without making useless trips to town

It saves his time, his family's time and his help's time. It keeps him posted on Government weather reports.

It prices, buys and sells everything that the farmer has or needs.

It never tires, works early and late, saving time, money and energy. It saves it's cost in hundreds of ways and it's value increases with its use.

A New Rural Line Plan has been adopted

which places this service within the reach of every farmer in the Company's territory.

FARMERS MAY OWN OR RENT TELEPHONES AND LINES.

Write to-day for free illustrated booklet explaining the plan in full. It contains other information of value to farmers.
