Some High Class Attractions.

Not since there has been a fair has there been such high class talent engaged for the performances before the grand stand as will be seen on the Great Centre County Fair grounds on Oct. 7th, 8th, and 9th.

De Velde and Zeida, the Euro deville team, have no equals in artistic equilibrism. Their performance is positively unique and extraordinary and as they come here direct from the great Canadian exposition at Montreal they are a team of much higher class than is usually seen at fairs.

Mile Marchand in her startling performance on the flying rings is another star of the first magnitude and her performance is calculated to more than please.

"Robin," known to be a head liner in all the big vaudeville houses, will be here to do his clever specialty as a comedy juggler. His act is immensely popular because of the fact that while he does all of his tricks as deftly as the best prestidigitators, yet he bungles it just enough to allow the wondering audience to see how it is done.

Prof. Cassele, the aeronaut at Electric Park, Baltimore, will make a balloon ascension and parachute drop each day. He is reported the highest flyer in the business and makes a hair raising ascension by being carried into the air performing while hanging by his teeth. You have all seen them go up on a trapeze and been startled, but think of a man being carried away into the air while banging by his teeth.

The famous Repa-z band of Williamsport and our own pride, the Coleville hand. will both be there so that all that could be desired in the music line will be on the grounds.

These are some of the amnsements that the management offers to you free of charge, though they will cost nearly \$1000.00. They do not include the many small shows, carousals, exhibitions and racing that will go to make up the great Fair.

The question now is will you be there? And remember, every day will be a big day. Thursday won't be a bit better than Wednesday or Friday. In fact Friday will be the best day of the Fair. If you take our advice that is the day you should not
