The New York Sun, possibly the ablest journal, editorially, published in the Unit-States, has never been a supporter of tal hypocrisy of American history. Mr. BRYAN. Under the title "Words and Deeds" it calls our President to book for the unwarranted, untruthful and unfounded statements he has been making in his charges against Mr. BRYAN and his friends and just because the Sun is a Republican paper in the country's greatest city we want you to read for yourself the views it sets forth. If they do not convince you that ROOSEVELT is wrong and BRYAN is right they will at least prove that there are two sides to the question that fair men in reason should listen to:

Mr. ROOSEVELT'S attack upon Mr. OL-NEY in his last reply to Mr. BRYAN is characteristically unfair and equally un-wise. His first assertion is that Mr. OLNEY brought no suits against combinations of capital under the SHERMAN anti-trust law and that the only case which he instituted was against tion forty-nine indictments have been found for securing rebates,

What was impossible for Mr. OLNEY became by the ELKINS law of 1903 possible for Mr. ROOSEVELT, but the President Gov seeks to convey the impression in parison of words with deeds that Mr. Or. As the law did not come into existence until after Mr. OLNEY ceased to be Attorney-General the disingeniousness -not to use a shorter and uglier word -of this argument of Mr. ROOSEVELT's is perfeetly plain.

Light on 1906.

From the Lancaster Examiner.

Besides exposing "particular friends," and the source of some of the wealth so lavishly expended in corrupting "the old guard," the Elkin letter illuminates suggestively a recent chapter of Pennsylvania politics.

Two years ago Lewis Emery, an inde pendent oil refiner and foe of the Standard Oil company, was fusion candidate for governor of Pennsylvania.

Although a Republican of the conspicnously aggressive honesty and the antimachine type supposed to be most dear to the heart of President Roosevelt, it was then, and has ever since been a matter for wonder, in the minds of many of the president's most ardent admirers, that Lewis Emery did not receive the support of the

Senator Knox earnestly called for the lection of the machine Republican ticket "to support President Roosevelt."
The president himself visited the graft palace at Harrisburg, and although occited with very guarded but disapproving com-

These things were noted with much amazement in view of the prevailing estimate of the president as the foe of both termination of a gigantic strike which had graft and monopoly. Stannch Republicans, who had given their support to the fusion movement as in thorough barmony with the president's constant appeals for "righteousness," and his warfare against the Standard Oil and other forms of predatory wealth, were not less surprised than staunch Democrats, who had supposed that the good intentions, the patriotism and sincerity, with which they had been made a cast, while standing in the bow, the glad to credit him, would assure his sup- hook was snatched almost instantly by someplatform as "thou shalt not steal."

The victory was won by the machine ticket, and Mr. Emery, the foe of Standard Oil, was defeated, but the Republican majority in Pennsylvania was reduced from | thrown out of the socket. Pluckily holding more than five hundred to about fifty the pole with the other hand, however, he thousand.

In comment upon that result it was noted that defeat of the anti-Standard and anti-machine ticket was due to the strange positive denial of his alleged support of the impression so openly given by Secretary Shaw and Judge Knox, that he desired machine success and not the triumph of the foe of Standard Oil.

Mr. Haskell Quits.

From the Johnstown Democrat. Governor Haskell acted well in taking himself out of an impossible position. Few people will believe him guilty of the charges which Mr. Hearst made against him and which Mr. Roosevelt elaborated.
