Offices have been opened in the Farmer's Bank building in that city and Mr. Munson is already in charge. His experience in the iron business naturally makes him admirably adapted to his new position.

THE HUNTERS ALL HOME AGAIN.—The hundreds of hunters who spent the last two weeks of November out on the mountains in quest of deer have all returned home and the most of them shared in the "spoils of the chase." Notwithstanding the fact that hunters were only permitted to kill one deer each, and that a buck, the number killed in Centre county this year was about up to that of former years. In fact very few parties returned empty-handed, a fact due to a large extent to the good tracking snow of the first few days of the season. The Panthers of this place constituted the only party herabouts who did not even get a smell of venison, as the nearest they came to it was a sight of deer tracks in the snow. Naturally, they were considerably discouraged, and the half dozen rabbits and one pheasant they secured was poor consolation for not getting a deer or bear and the members of the party came home one by one until there were only four left and those broke camp and returned to Bellefonte Saturday evening. John L. Kniesly brought a little raccoon along with him and if the kitten proves entirely agreeable may make a pet of it.

The Geuzel party returned on Saturday evening with three deer, two good sized bucks and a spike buck. Thomas H. Harter on Monday received a spike buck from Snow Shoe as his share of the game captured by the Chambers—Uzle party. The most successful hunting party heard of was composed of W. L. Lucas and sons, Jesse and Lemuel; Samuel and Brady Lucas, who went out in the neighborhood of Mo-shannon and on the first day of the season shot three deer. The second day they got one and the third day one more, making a deer for each man. The deer were all bucks and weighed 192, 184, 165, 164 and 154 pounds respectively, or a total of 859 pounds of venison.

Pennsylvania hunters were unusually successful in their quest for deer in the Seven mountains. So far as now reported just twenty-five deer and ten bear were killed in that section of the county. The biggest deer killed in the Seven mountains was in McBride's Gap by the Reitz brothers, it being an eight pronged buck weighing 230 pounds.

Among the successful hunting parties who brought deer off the Seven mountains were the following: The Rileys, of Boalsburg, four deer and a bear; the Modocs, of Boalsburg, one deer; Penn Hall party, two deer; Krader party, of Coburn, a bear; Wingers party, of Penn Hall, one deer and five bear; the Regulars, of Pottery Mills, one deer; the Deckers, of Pottery Mills, one deer; Madisonburg party, two deer; Sugar valley party, one deer; Shamokin party, at Paddy mountain, one deer and three bear; Schuykill Haven party, in Poe valley, two deer; Bradford party, three deer; Reitz brothers of Linden Hall, two deer; Homan party, of State College, two deer; the Horners and Kerstetters, of Pleasant Gap, one deer. The Roosevelt club, of Gatesburg, which was in camp on the Six Mile Run near Phillipsburg this year, returned without getting a deer, although they had several good shots.

On Thanksgiving day a party of young men from Warriorsmark and vicinity went out in the Barrens back of Centre Line and on their first chase drove out a flock of seven deer but failed to get any of them. This incident in itself is evidence that all the deer are not on the mountains and hunters might have fared equally as good, if not better, by confining their hunt to the Barrens in Centre and Huntingdon counties; and the traveling would not be near as hard or tiresome as hunting on the Alleghenies.

TWO INCIDENTS OF THE HUNTING SEASON.—Peculiar incidents of the hunting season are outcropping in various sections of the State, some of which are as novel as they are interesting. Two such incidents have been brought to the attention of the writer and are worth recording. A few days after that big snow had disappeared and the weather had grown a little warmer one of the men at the Hayes Run fire brick plant was hunting on the top of a high mountain spur when he came across a rattlesnake sunning itself on top of a flat stone. One shot killed the reptile. The man skinned the rattler and now has the skin as proof of his story.

One day in the early part of last week a young man went out on the mountains back of Rarville on the hunt of rabbits and pheasants. He was going along through the woods when he heard a crashing through the brush and coming directly toward him he saw a huge cinnamon bear with a muzzle on. Upon seeing him the bear stopped, took a good look at the thoroughly frightened man then shambled off in an opposite direction. If the man's story is true the bear is undoubtedly one that has escaped from some traveling Italian and is now making its abode in the woods, as cinnamon bears are not native of this section and even if a stray one might wander into the Pennsylvania mountains it would hardly come up with a muzzle on it.

MAY BEGIN WORK AT ONCE.—In last week's WATCHMAN was given the particulars of the purchase of the Green property and water power at Millsburg by the borough of Bellefonte for the purpose of building a hydro-electric plant to light the streets and pump the water for the town. In the article it was stated that work on the plant would not be begun before next spring, which was the original plan, but the question will be brought before council at Monday evening's meeting as to the advisability of proceeding with the work at once.

The only reason the question of waiting until spring had been considered was because it was thought it would be impossible to do the concrete work during the winter. On considering the question, however, at least some of the councilmen have come to the conclusion that there could not be a more opportune time to begin the work than now. The very fact that the water is lower now and will give them less trouble than it will at most any other time in the year is the strongest argument in favor of doing the work as soon as possible, while cold weather will not affect the concrete work in any way whatever.

To build the dam will be no small job, as the concrete breast will be 288 feet in length, and about nine feet in height, in including the foundation under ground. And, as it will have to be of considerable thickness to make it durable it will mean a good many cubic yards of solid concrete. If work is started on the plant now it will enable the builders to have it completed and in operation by the first of next April, or thereabouts.

APHTHOUS FEVER SCARE IN CENTRE COUNTY.—There was a small apthous fever scare in Centre county the past week but fortunately it proved to be entirely unfounded. It was all based on the fact that last week a car load of cattle came into Centre county and were distributed among Mr. Gilliland, at Oak Hall; Mr. Hoyet, at Centre Hall, and Mr. Struble, at Zion. The fact was noised abroad that the cattle came from Buffalo, N. Y., and as that is where it is believed the disease was first imported from into this State the state officials got busy at once.

Dr. M. C. Church, of Wilkesbarre, one of the staff of inspectors under Dr. Leonard Pearson, state veterinarian, came to Bellefonte Saturday evening and on Sunday drove to Oak Hall and Centre Hall. The imported cattle were duly inspected and found to be sound in every particular. From Centre Hall he went to Zion where he worked until dark examining the cattle received by Mr. Struble, going down Monday morning to complete the work. He left Bellefonte on the 1.05 train Monday but before going stated that there was no apthous fever in Centre county now nor symptoms of the disease. The cattle received by the above gentlemen, by the way, did not come from Buffalo, but from Chicago, Ill., so that there is no likelihood of their being affected.

THE GINGERBREAD MAN.—There are many happy thoughts expressed in verse in "The Gingerbread Man," which Frederic Rankin and A. Baldwin Sloane offer to the public through Nixon & Zimmerman. Although it is hard to particularize any one song as good, for every one is good, "John Dough," will, perhaps, become the most popular among the whistlers. "Beautiful Land of Bon Bon" and the "Mazie" song will find most supporters because of their dainty choruses, while "Every Little Something," "Gin-gin-ginger Boy," "Queen of My Dreams," "Nursery Rhymes," "Evil Eye" and "Do You Believe in Santa Claus" are rich in melody, wit and humor. "The Gingerbread Man" abounds in wonderful spectacular effects and beautiful stage pictures. The most ingenious of stage contrivances has made it possible for a silver crescent to float through the air, between the points of which reclines a remarkably pretty girl, who in a remarkably sweet voice sings "Moon, Moon, Moon," aided by Jack Horner and a big chorus. "The Gingerbread Man" with the same organization that last week was at the Garrick theatre, Philadelphia, will appear at the opera house in this place next Tuesday evening, December 8th, and you don't want to miss the show.

IN JAIL FOR KILLING BARE.—George Walker, of Snow Shoe township but formerly a resident of Beech Creek township, Clinton county, is now in the Centre county jail awaiting trial at court next week on the charge of being the cause of the death of his five weeks old baby. In the charge against him it is asserted that he was tossing the baby above his head and allowed the infant to fall and strike its head against a chair, inflicting an injury which resulted in its death. Walker was later arrested and brought to jail to await trial on the charge of murder. He is a man about twenty-five years old and has twice been a charge on Snow Shoe township.

BURNED TO DEATH.—Last Friday morning Mrs. Morgan Swisher, who lives near Phillipsburg, went out to feed her chickens and upon returning to the house found her little three year old daughter lying on the floor in terrible agony, the clothing burned from her body and her flesh burned to a crisp. The child had evidently been playing with matches and set fire to her clothing. She died the same evening.

LOST HER DIAMOND RING.—During her recent visit to Philadelphia Mrs. W. L. Daggert lost her diamond ring but fortunately it was found and returned to her. While in the Broad street station waiting on her train she removed the ring from her finger and put it in her pocketbook, then lost both the pocketbook and the ring. A few days after she returned home she received the pocketbook with contents intact by mail and a note from the finder, who proved to be none other than G. Lattimer Potter, a young colored man who was born and raised in Bellefonte. He is now a florist in Philadelphia and in looking after the flowers at the flower stand in the station he found the pocketbook where Mrs. Daggert had dropped it, and he promptly returned it. Mrs. Daggert sent the young man the reward offered and received in reply a very profuse letter of thanks.

—The barn on the William Rimert property at Howard caught fire last Friday morning but by the quick and efficient work of the Howard fire company the building was only partially destroyed. It is the supposition that the fire originated from a spark from a passing locomotive.

—George H. Small, of Smulton, was in on Tuesday and just because he claimed he was a little absent minded in some things wanted to pay for his paper three years in advance. Even as we all love the filthy lucre we could not take Mr. Small's money for more than a year, because you know the Postoffice Department at Washington might object to carrying a paper that was paid over a year in advance.

—Yesterday Fred Smith and Frank Grebe were over from Phillipsburg on business and neither one of them looked much as if the political earthquake of last month had robbed them of all hope. Both were smiling with that spirit that says we'll try them again and do better next time. You know Mr. Smith was our very worthy candidate for sheriff and Frank Grebe was one of the men who worked for him in such a way as to show that he is a Democrat of the right sort and a power in his precinct.

MCGINNIS—MYERS.—William McGinnis, a son of Mr. and Mrs. Edward McGinnis, of Pannastawney, but who at one time lived in Bellefonte, and Miss Mary Myers, a daughter of Mr. and Mrs. Camden Myers, of the same place, were married on Thursday last week at the parsonage of the M. VIVID TRAVEL SKETCHES.—The new program to be offered by Lyman H. Howe at the opera house Wednesday evening, December 9th, is composed of a series of the most vivid travel sketches imaginable. In Naples you see the Neapolitan at home, on the streets, at the market, and at church. There are scenes of ineffable beauty shown on an automobile tour through Savoy, and Niagara in winter seems so real that one feels like reaching up and touching the moonlike icicles under the falls. There are very human scenes in India and Sicily, and a most startling series of a 10 mile Steeplechase in England. It is crowded with all the thrilling incidents the most blasé spectator could wish for, though no rider suffered serious injury.
