Is Your Tag Right ?

The WATCHMAN mailing list has been corrected up to date and all those who have paid for their paper within the last month can compare the tag on their paper with their receipt and see if it is correct. All those who have not paid for one year will have to do so at once if they desire the paper continued. Remember if you pay in advance you will get the WATCHMAN for \$1.00, but if you allow it to run one year before you pay for it it will cost you \$1.50.

Don't Be Too Premature.

Many people are looking forward in great hope that the Legislature, that is to meet on Monday next, will prove such an improvement over those that have preceded it that it will mark the beginning of the end of legislative disgrace for Pennsylvania. Selah! While we don't want to cast a shadow over the sunshine of hope that these people have conjured up about them, the WATCHMAN can't resist the prediction that in less than four weeks time these same hopeful idiots will be wishing just as earnestly and looking forward with the same great hope, that its days may be few

and its end near. After it has proven that it intends to do better than former sessions, that have so outraged, robbed and disgraced the State, it will be time sufficient for the people to "sit up and take notice" of the changes.

Wednesday aorning the convention met and devotional exercises were conducted by Rev. Jas. B. Stein D. D., followed by an ROAN-After an illness of only one week address by Dr. Roark, of Richmond, Ky.

The convention also took action, which matter their heavy support.

The school directors of Centre county, Pennsylvania, in convention assembled for the consideration and discussion of questions pertaining to school administration as required by the Act of Assembly approved the 22nd day of March, A. D., 1907, to Resolve:

A. D., 1907, 10 Resolve:

First. That they are convinced that there is much need of further financial aid from the Commonwealth to the system of common schools heretofore established and which has been and is now largely maintained by taxes levied for that purpose against the real and personal property in the several school districts in the State.

Second. That they are also convinced that the financial aid needed can be more surely obtained, bring more certain relief to the now over-burdened districts, and produce better results to both schools and teachers, for the State to assume the payment of the sularies of all persons engaged or who may engage in teaching in the gaged or who may engage in teaching in the public schools of the State, and to this end we would suggest the discontinuance of making an annual appropriation to the common schools, and instead and in lieu thereof, the State to pay an nually the salaries of those engaged in teaching in said schools.

THIRD. That by this means we are convinced the school districts in the State will be enabled to establish High schools, provide larger grounds and better buildings for school purposes, to secure a more permanent and better qualified teaching force, and the standard of the schools and teaching force alike will be raised and greatly advanced.

Advanced.

Fourth. That the establishment of good High or centralized schools properly graded will do much to overcome and do away with the desire of the young people from the rural districts to crowd toward the centres of population, because they will have proper educational facilities within easy reach of their homes.

In easy reach of their homes.

FITH. That we favor the establishment of centralized township schools and in connection therewith a township High school so arranged that the elements of agriculture as well as the elements of a good business education may be, not only theoretically, but practically taught therein.

SixTs. That these resolutions expressing our sincere convictions, we respectfully but very earnestly demand that the commissioners having charge of the revision of the school laws shall in corporate them into that law, and we further re-quest that the Representative in the Legislature from this county, and the Senator from this, the 'hirty-fourth senatorial district, to give suc
