The venerable William Lewis, of Port Matilda, who recently celebrated his ninety-fifth birthday, was taken sick last week while visiting his granddaughter near Tyrone and is now at the home of his son, William M. Lewis, in Tyrone.

The State College Supply company has an advertisement in today's paper in which they offer thirty-five cents a pound for good fresh country roll butter; and offer for sale one hundred pounds of granulated sugar for five dollars. Read it.

On Sunday Mrs. Harry Kessling, of Yarnell, gave birth to her sixteenth child, so that the family now consists of Mr. and Mrs. Kessling, eight sons and eight daughters. As the parents are yet in the prime of life they have plenty of opportunity to come up to Roosevelt's wildest expectations.

Stock raisers and dairymen as well as farmers generally, in Centre county, would like to know why the state authorities have placed a strict quarantine over the entire county because of the month and foot disease among cattle when there has not been a case of the disease inside the county at any time.

Saturday night's snow fall of six inches was one of the deepest of the winter and following close upon the heels thereof was the coldest weather this year on Tuesday morning. In Bellefonte thermometers ranged from 6 to 12 degrees below zero while the coldest record in the county was at Snow Shoe, 18 degrees below zero.

ENLISTED IN UNCLE SAM'S SERVICE.—Edward G. Lyon, son of Mr. and Mrs. W. A. Lyon, of this place, last week enlisted as an assistant in the electrical engineering corps of the United States coast artillery service and has been sent to Fort Slocum, N. Y., where he will be located for the present.

At the opening of State College last September Edward entered as a student in the electrical engineering course. At the same time he came out as a candidate for the Varsity football team. Football was not a new game to him as he had played it for several years in this place and owing to his physical build he was among the most promising candidates in the squad; in fact played in a number of the earlier games of the season.

Time wore on and finally college life lost its fascination for "Botoh," as he is familiarly known by his young friends hereabouts, and about the first of December he came home and went to work for Albert Sobad. Shortly after Christmas he left Bellefonte on a visit to his sister, Mrs. McGinness, at Pauxoutaway, and that was the last heard of him by his parents until last week when they got a letter from him in Williamsport in which he told them he had been offered a chance to enlist in the electrical engineering corps of the coast artillery service and had concluded to do so.

He was enlisted at the Williamsport recruiting office and there was enrolled as the most perfectly developed man ever sent out from that office, standing sixty-nine inches tall and weighing 191 pounds. National guardsmen here who know something about it aver that Edward has secured a very enviable enrollment. That his enlistment is for a term of three years and carries with it full and complete instruction in electrical engineering, at the completion of which, if he makes good, carries with it a commission in the United States regular service.

IN THE CAUSE OF LOCAL OPTION.—Sunday last was a banner day on the Snow Shoe charge of the Methodist Episcopal church, as on that day Rev. C. C. Kelsey, the pastor, had with him Mr. S. A. Gaupp, of DuBois, the new district superintendent of the Anti Saloon League. Large congregations at both Snow Shoe and Clearcreek turned out to hear Mr. Gaupp and the interest manifested clearly demonstrated a desire on the part of the people of that community to learn all possible regarding a movement which is becoming widespread in many States of the Union.

In addition to telling of the progress of the local option movement and of the work being done by the Anti Saloon League Mr. Gaupp in his address, laid great stress upon the fact that under all circumstances the majority should rule, and it was no more than right and just that the people of Centre county, as well as the entire State, should be given an opportunity to vote on the question of local option. Mr. Gaupp is a fluent and interesting talker and one whom it is a pleasure to hear.

LOTS FOR SALE.—There is not another town or borough in Centre county that has shown the per cent. of growth in the past five years that State College has. Every school year brings from two to three hundred new students to the college. This increase in the student body increases the demand for more homes, and now that the borough is assured of free delivery mail-service and a telegraph office its growth will undoubtedly be more rapid. One man who built a house last summer is now taking in over one hundred dollars a month from students for room and board. It is a good place to invest money and if you are wise you will buy a lot right away. Or better still, buy two, a half dozen or a dozen. Leathers Brothers, real estate dealers, have over a hundred lots for sale and the location is most desirable. They will sell at a reasonable price and the right kind of terms. Give them a call.

TEACHERS DISTRICT INSTITUTE AT PORT MATILDA.—The teachers of districts No. 5, composed of Taylor, Worth, Huston and Halfmoons townships, will hold their annual local teachers institute in the High school building at Port Matilda this (Friday) evening and tomorrow, January 22nd and 23rd. All the teachers in the district are urged to be present and the public in general is invited to attend. A good program of exercises has been prepared. During the institute the ladies of the Presbyterian church will hold an oyster supper in the Reese hall this evening and a chicken and waffle dinner and supper tomorrow. Teachers and others in attendance at the institute as well as the people of Port Matilda are invited to attend and all are assured of a good meal as well as a good time.

COMPANY B OFFICERS ELECTED.—At a regular meeting of Company B, Fifth regiment, N. G. P., of this place, held in the armory last Friday evening, second lieutenant Richard S. Taylor was elected first lieutenant to succeed Samuel D. Gettig, resigned; and first sergeant William H. Allen was elected second lieutenant to succeed Mr. Taylor. Thirty-seven members of the company were present and the election was conducted by Col. H. S. Taylor and Capt. Robert F. Hunter, of the colonel's staff.

HUMAN HEARTS.—Little Grace Logan will be the attraction at Garman's next Wednesday evening, January 27th, in that idyllic of the Arkansas hills, "Human Hearts," as presented by W. E. Nankeville. The general verdict of "Human Hearts" is that if you have seen it once you will want to see it again; and if you have never seen it before you will want to see it now. Popular prices will prevail.

A new book typewriter with one of the latest combination desks was installed in the recorder's office on Wednesday morning. It was purchased by the county commissioners through James H. Corl, the local agent.

Charles Garbriek, Nelson Mallot, John H. Robb, John McCoy, George H. Love, Mrs. Verla C. Love and Edward Powell composed a class admitted to full membership in the Presbyterian church on Sunday; while Mrs. Mary Holzworth, Mrs. Sarah C. Brown and Elizabeth E. Brown were taken into the church on certificate.

Mr. William Miller has decided to break up housekeeping. She is now arranging to place the four oldest of her children in a good home somewhere, where they will not only be properly brought up but educated and taught some useful trade or profession. The youngest child she will either keep with her or give into the family of her cousin.

Harris Sourbeck, son of Mr. and Mrs. John D. Sourbeck, who has been in the Bellefonte hospital the past month suffering with paralysis of the legs and lower portion of the body, is very little improved. His parents are considering the advisability of taking him to a specialist in Philadelphia but have not yet definitely decided whether they will do so or not.

On Saturday an eight year old son of Mr. and Mrs. James Torsell, who live near the old glass works site, picked up a dynamite cap that had been dropped or mislaid by some workmen. Not knowing what it was the little fellow put it in his mouth and applied a lighted match. An explosion followed and the concussion blew a finger off the lad's left hand, knocked out three teeth and badly lacerated and burned his mouth.

This (Friday) evening is the date for the reopening of the dance hall in the Bush Arcade with an orchestra dance given by Miss Crissman. Habitués of the above hall will hardly recognize it in the newly remodeled and fixed up room. In addition to the repairs and improvements mentioned in last week's paper storm doors have been placed at the top of the stairs outside the entrance to the hall which not only serve to keep out the cold night air but give the place a degree of privacy it did not have before.

On Monday night the water pipes in the rooms of the Centre Social club froze and bursted with the result that not only the club rooms were flooded but the water ran down through the ceiling into the composing and press rooms of the Daily News office where it froze. When that paper's employees reached the office on Tuesday morning the rooms resembled a mill pond more than anything else. The ice was an inch thick on the floors and the presses were also covered with ice, so that it took the big part of the day to get the ice and water out and things in shape again.

Last Saturday Capt. W. H. Fry, veterinarian of Pine Grove Mills, was over in Stone valley doctoring a sick horse and was detained until late in the afternoon. It was almost dark when he started home and the result was he was caught in the big snow storm which swept over that section that night. In coming over the mountain his horse wandered from the road and tumbled down over an embankment, spilling the doctor out. Naturally the horse ran off, completely wrecking the sleigh and never stopping until it reached home, while Mr. Fry was compelled to hoof it several miles through the storm and snow.

Morton Smith, mailing clerk in the Bellefonte postoffice, and recorder Wm. H. Brown have rented two of Albert Sobad's new houses now in course of erection on north Spring street and will move into them on April first. John Watson will move into the house to be vacated by Smith on Bishop street. Lewis Dorman and family will move from Penn street onto a farm near Jacksonville, and the McGovern family will move from the Montgomery house on east High street to the Dorman home while H. H. Montgomery and family will move from Bishop street into their own home on east High street. Will Katz has rented the west side of the Jenkins house on High street now occupied by Mr. and Mrs. Harry E. Jenkins and son and will move there from Spring street. Edward P. Irwin has also leased the flat which will be built over the store room to be constructed on the east side of the building and with his wife will move there from the Bush house on the first of April.

About ten days ago a mammoth moving picture trust was formed by the organization into one combination of all the American moving picture manufacturers, seven in number, with a capitalization of fifteen million dollars. The aim is not merely to consolidate forces for the purpose of economy in securing subjects and preparing the films for market, but to increase the standard of the pictures shown. It is the desire to avoid as far as possible the blood and thunder series and to give to the public pictures of places and happenings, or historical events that will not only prove interesting but have an educational value. Of course good, clean comic pictures will also be put out. The Senate, in this place, under the management of T. Clayton Brown, is leading up to this high standard of pictures very rapidly, as could be seen by everybody who attended the entertainments there this week. It is Mr. Brown's desire to give only the best in the motion picture line and he spares no expense to do it. Mr. Snyder still continues to please his audiences with his singing.

WITH THE BOROUGHS DADS.—Monday night's meeting of borough council was confined principally to the disposal of a small amount of miscellaneous business and approving bills. John J. Bower, chief of fire department, informed council that both the Logan and Undine fire engines needed repairing and the Fire and Police committee were instructed to have same attended to. Mr. Bower also requested council to instruct both telephone exchanges and the Bellefonte Electric company not to give the alarm when a fire was outside the borough limits, as it costs the borough ten dollars every time there is an alarm turned in.

The Water committee reported meter bills to the amount of \$793.00. The special committee which has in charge the work of installing the new hydro-electric plant at Milesburg and the new electric light and water pumping systems, reported that the Jackson & Jackson company, to whom the contract for the construction of the plant was awarded, now have several engineers here at work preparing the necessary plans, etc.

W. Miles Walker was appointed an auditor to audit the accounts of the trustees of the Pruner orphanage.

On recommendation of the Finance committee a note for \$6,500, due about this time, was ordered renewed.

SCHOOL BOARD PROMOTES WAGNER.—At a special meeting of the Bellefonte school board held last Friday evening Jonas E. Wagner, principal of the High school, was elected supervising principal of the Bellefonte schools to succeed John D. Meyer, resigned. Mr. Wagner's election was to complete this school term, but the probabilities are that he will be selected to complete the entire term to which Mr. Meyer was elected, which will be until June, 1911. Mr. Wagner is a graduate of State College and has been a teacher in the Bellefonte schools the past ten or twelve years, having been principal of the High School a little over three years. His work in the Bellefonte schools has always been of a commendable character and there is every reason to believe that he will make an efficient supervising principal.

Mr. Wagner's election as supervising principal necessitated the election of a principal of the High school and after careful consideration the board voted to offer the position to A. Reist Rutt, of Bryn Mawr. Mr. Rutt was a former teacher in the Bellefonte schools, consequently his ability as an instructor is well known. He was at once notified of his selection for the position but after considering the offer several days he, on Wednesday, telegraphed his refusal to accept it. This, of course, still leaves a vacancy in the High school, which is being filled by Mr. Wagner until his successor can be secured.

BAD (?) WILD ANIMALS.—Bears in this kind of weather keep pretty close to their lairs; lions and tigers are known herabouts only through the medium of the circus; wild cats are heard of now and then in the mountainous sections of the county but the Panthers were abroad last night in full force and after roaming the town from Spring creek to the Diamond without doing any harm they finally swooped down upon the Haag house and literally "cleared house" for the proprietor, J. Mitchell Cunningham. The occasion was a banquet given to the members of The Panther hunting club by Mr. Cunningham, who was elected a member last fall and had his first outing with them in November. That they all had a good time and an abundance to eat—the best in the market—can be attested by everybody who knows anything about landford Cunningham, as he never does anything by halves.

BUSINESS PLACES, OLD AND NEW.—The Manufacturers Outlet Clothing company, whose store has been located in the Bush Arcade the past year, have decided to remain in Bellefonte and have leased the room in Crider's Exchange occupied by The Racket, where they will move on April first. Mr. Irwin, proprietor of The Racket, has not yet secured a new room but undoubtedly will be able to secure an advantageous location in due time and expects to continue in business in Bellefonte in the future as he has in the past.

Mitchell I. Gardner has decided to construct a store room out of the eastern side of the Jenkins property, on High street, recently purchased by him, and the same has been leased by ex-sheriff Henry Kline who will open a shoe store therein on or about the first of April, with James H. Corl, late commissioner clerk, as the man in charge.

In her singing at the Lyric theatre, in Lock Haven, this week, Miss Lillian Walker, daughter of ex-sheriff and Mrs. W. Miles Walker, is pleasing the people of Lock Haven very much. She went to the Lyric on Thursday last week and her singing was so satisfactory that she was engaged at once for the remainder of last week and all of this. It is just possible she will accept an offer to go out on the moving picture circuit as one of the staff singers.

Though, of course, he is not a well man yet, by any means, he is somewhat improved in health and believes he will be able to give himself the same kind of treatment at home as he is receiving there, one of the chief features of which is to live in the open air as much as possible.

Dr. Edward Harris, of Butler, who with his wife and children came to Bellefonte several weeks ago, has been out at Beaver Mills the past ten days camping at the saw mill of his brother, John P. Leach, was united in marriage to William Stewart, of Boalsburg. The ceremony took place at four o'clock in the afternoon and was performed by Rev. W. K. Harnish, of Lemont. Following the ceremony a wedding supper was served the bridal party and later in the evening Mr. and Mrs. Stewart drove to this place where they took the 8.16 p. m. train for a wedding trip to eastern cities. Both young people are well known in that community and have the best wishes of all for their future happiness.
