Whether they shot in earnest or with malicious intent is not known but so far as can be learned nobody come in general we could all feel that we was hit by any of the bullets, so that the constabulary must either have shot in the air or are very poor marksmen.

In the end, however, the Freshmen won out and got to Williamsport in safety, where they no doubt enjoyed their layout of John P. Sebring, of Halfmoon township, last evening. They will return to the college today.

> AN INTERESTING EQUITY CASE .- Testimony was taken last Thursday and Friday Thomas A. Shoemaker vs. Frank Warfield, John P. Harris and the American Lime and Stone company, in the court house in this place before Judge Clinton R. Savidge, of Northumberland county, president jadge of the Eighth judicial district. The plaintiffs were represented by attorneys John Blanchard, of this place, and C. LaRue Munson, of Williamsport, the latter taking the place during the hearing of ex-Judge D. L. Krebs, of Clearfield, one of the regular

counsel. The defendants were represented by ex-Judge John G. Love, of this place, W. L. Pascoe, of Tyrone, and T. C. Hipple, of Lock Haven.

The case is a very interesting one and involves the right and title to the farms formerly owned by John H. Herman and W. H. Coldren, in the vicinity of Pleasant above two gentlemen in order to secure the limestone on the properties. Later other parties went after the same land and secured options on the same properties with maker and as the case now stands it is American Lime and Stone company, and naturally the progress of the case is being watched with a great deal of interest.

It required all of last Thursday and Friday morning to hear the evidence in the case after which court adjourned until such time as it will be convenient for Judge Savidge to come to Bellefonte to hear argu-

ment on the same. AGAINST TARGET RIFLE SHOOTERS.-There is an ordinance in Bellefonte pro hibiting the discharge of any firearm within sided at the latter and made an appropriate the borough limits, and such ordinance should be enforced so far as the indiscreet and promiseuous shooting of target rifles by boys and young men is concerned. A lot of such shooting is being done in the borough right along and it is not only an annoying but a very dangerous practice a well. On Monday afternoon some boys on Cartin street were shooting a 22 calibre target rifle and the ball crashed through the window of the house occupied by Mr. and Mrs. W. R. Gainsfort and buried itself in the wall in the opposite side of the room. Mrs. Gainsfort had been sitting at the win dow sewing and had gotten up not more than a minute before the shot was fired, thus narrowly escaping a bad injury, and probably death, as the ball passed through he window about where her head would have been. Only a few weeks ago a spent ball from a target rifle etruck a Curtin street lady in the eye but fortunately did her no material injury. Such promiscuous shooting is certainly to be condemned and the borough authorities should see that the ordinance prohibiting it is enforced.

-In keeping with the policy of rerenchment and economy determined upon by the new management of the Bellefonte Farnace company the ore mines at Scotia have been closed down for a period of about two months. The company now has on hand five thousand tons of ore, or enough to run them to may first, and the mines will be kept idle until the surplus stock is used up. Over one hundred men were thus thrown out of employment.
