---- While Easter in Bellefonte was a bright, sunshing day the air was quite cold, owing to the snow storm of Friday and the continued cold blustery weather of Saturday, and as a result the Easter costumes were not as plentifully worn as would have been had the day been warmer. With all that, however, there were quite a number of women brave enough to defy the weather and wear their new creations in both hats and costumes. Of course the day was celebrated with special services in all the churches and the ministers had the gratifiation of preaching to large congregations. Special programs of Easter music were also an additional attraction in most of the churches, while the Methodists had the pleasure of listening for the first time to their new pastor, Rev. T. S. Wilcox, and all were very much pleased with the sermon he delivered.

-T. Clayton Brown, manager of the Scenic theatre, made quite a hit last Friday and Saturday evenings by giving all who attended the motion picture shows a candy Easter egg on which was the inscription, "The Scenic." It required hundreds of eggs to go around but he had laid in an ample supply and allowed no one to go away without one if they would accept it. It was a good advertisement and shows that he is just as wide-awake to his own interests in such apparently little things as he is enterprising in securing pictures which please and the people approve of. In this connection he secured a return of the Taft inauguration film at the request of a large number of people who failed to see it when first shown here and gave it over again on Wednesday evening in addition to his regular program. She informed me that they were really so absurd and ridiculous that she refused to purchase one just for a sample.
