TROUT SEASON OPENS. - The trout fishing season opened yesterday and the usual number of fishermen were out to try their luck, and luck was about all it was, too, for there wasn't any certainty about getting the trout. About everything possible was against an auspicious opening. The water was muddy, high and swift, the weather was cold and the trout-most important of all-appeared very scarce.

There were no phenomenal catches, not withstanding the fact that scores of fishermen lined the banks of Spring creek from early in the morning until late in the forenoon. While it has been impossible at the time this report was written to get any de- ferred by Lucinda Watson. tailed account of the various catches it can safely he stated that none of them were phenomenal and that the aggregate of trout taken from Centre county streams was much smaller than on any opening day in

Not a fisherman was seen hereabout whose catch exceeded a half dozen trout while the general run was from two to four of the speckled beauties. Probably the piggest trout taken from Spring creek was caught by George Keeler, who landed one measuring sixteen inches in length. John Trafford caught a thirteen inch beauty just bermen. below the falls above the WATCHMAN office while several smaller ones were hooked almost opposite the editor's window.

Quite a number of Bellefonters went down to Fishing creek but at this writing no full report has been received of the catch there, though it would likely be about on a comparison with the fishermen's luck on other streams.
